BUSINESS COLLEGE

It is a GOOD TIME to enter for a Shorthand or Commercial Course. For full particulars apply to Lt. Colonel W. J. Osborne, President, Fredericton, N. B.

ALBERT COUNTY HAS RICH NATURAL RESOURCES

Moncton, N.B. June 24.—A party of business men and others motored today from Moncton to Rosevale Albert county, and visited the shale experimental plant of the Darcy Exploration company. Many took advantage of the opportunity to see the process of extracting oil and other products from the Albert shale. Experiments were begun at Rosevale some months ago with a view to determining the value of the shales. The visitors were courteously received and the officials explained the operation of the plant. Luncheon was served on the grounds near the plant, which is located in a pretty section of Albert county and after this brief interesting speeches were given by several prominent visitors.

Mayor A.C. Chapman acted as chairman. The first speaker was Lieutenant Governor William Pugsley, who expressed his faith in the resources of this part of the province, which he hoped would be successfully developed in the interests of the province and the whole of Eastern Canada.

Premier Foster was the next speaker and in his opening remarks referred to the energy and foresight of Mathew Lodge, of Moncton, in connection with the development of New Brunswick resources. Hon. Mr. Foster spoke of the importance of oil as a factor in the life of the country. During his visit to England he had found much interest in the use of oil as a fuel. There must be a broad

policy to encourage the development of oil resources. The premier spoke also of hydro-electric power in the province and expressed the hope that this policy of industrial development would prove successful.

Hon. J.M. M. Baxter, leader of the opposition, said that the leader of the government need have no fear in developing a policy for the development of this province that he will meet with captious or unnecessary opposition.

A.B. Copp, M.P., also spoke appreciatively of the worth of Mr. Lodge in connection with oil and gas development in this province. They had in the past realized the scenic beauty of Albert county and now are being shown the resources that are lying underneath those hills he hoped to see great industrial development that would prove beneficial to the province.

Hon. C.W. Robinson, minister of lands and mines, said it was shown that there was an abundance of shale and a reasonable amount of oil and by-products. He hoped all the natural resources of the province would be properly developed and great progress made along industrial lines.

Hon. D. E.A. Smith, chairman of the New Brunswick Hydro-Electric Commission, spoke briefly on the development of resources of the province referring particularly to the need of cheaper power.

Mathew Lodge, who was introduced by Mayor Chopman as the king pin of oil and shale development here, spoke of the immensity of the shale deposits, pointing out the value of shales as a source of oils in the future.

The Anglo-Persian Oil Company, three-quarters of whose stock is held by the British government, is interested in the development of Albert shale. He understood that it was proposed to spend \$6,500,000 for the development of these shales, and he hoped to see a 5,000 ton plant installed and another plant across the river. The oil market is increasing by leaps and bounds. A 5,000 ton plant will supply an immense amount of oil for the British navy. He urged co-operation in developing our resources.

John Henderson, general manager of the Darcy Exploration Company (which is a subsidiary of the Anglo-Persian Oil Company), and George W. Wallace, of East St. Louis, the inventor of the process of extracting oil and gas from shales now being used at Rosevale, were called upon and spoke briefly.

Lewis Smith, M.P.P. of Albert, emphasized the importance of developing natural resources and interesting outside capitalists to invest here.

Cheers were given for the lieutenant governor, also New Brunswick shales and Mathew Lodge. This closed the proceedings, the party leaving on their return trip.

St. J A B Attended Services.

Yesterday afternoon Dr. S.H. Prince of St. Stephen's Church New York addressed the local members of the St. John's Ambulance Brigade at Christ Church Cathedral. The ladies met at the Bishop's Court whence Mrs. John Black, the Commandant, led them to the Cathedral. Rev. Dr. Prince's address was one of the best heard in the city for some time and was greatly appreciated. He touched on the fact that to be humane was as worthy an aim as to be humane in introducing stories and anecdotes. He mentioned the world's unrest and dealt with that great organization, the Red Cross referring at the same time to the great White Cross. A celebration was also held yesterday in St. John.

A GOOD MACHINE.

There is no "wobble or wobble" about the Remington Typewriter. Always direct, precise action. "Get there" by the shortest route. A Milne Fraser, 157 Hollis St., Halifax, N.S.

"If it is something you must have," remarked the Man on the Car, "It is a necessity; but if it is something you simply want, it is a luxury."

Many, many of the legs one sees from day to day, without more than half looking, had much better been left to imagination.

Judging by the price asked for porch swings the girl who owns one is in the same class as the fellow who has a flyover.

Wish is father to as many thoughts as Reason.

THE INFLUENCE OF ADVERTISING ON THE PUBLIC MIND

HOW MANY PEOPLE know the names of the highest mountain peaks in the world?

FOR INSTANCE, "Kinchinjanga" is the name of one of the highest mountains in the world. It is 28,156 feet high.

PIKE'S PEAK is only 14,108 feet high—but it gets credit for being higher because it is advertised.

ADVERTISING will bring many unknown things into prominence during the coming years.

NOW IS THE TIME, when so many articles and commodities of trade are flooding already overstocked markets, for the man with goods to sell to let the people know all about it.

THE BEST WAY to let the people know is to advertise in the newspapers.

YOU HAVE SEEN THIS in the Daily Mail—let the public know what you have to sell through the advertising resources of this newspaper.
