THE VALLEY RAILROAD

Premier Flemming's speech at the Hazen-Rogers love feast at St. John it does not improve as the weeks last week must have been a disap-on, but rather, becomes worse. that he would take advantage of the of the Valley Railway from Gagetown on some months ago by Hon. Mr. stomach; remove the sour, ferment to St. John. True, he did touch on Rogers and other spending experts ing food; take the excess bile from to St. John. True, he did touch on the Cabinet, Col. the Hon. Sam your liver and carry, out all the constipated waste matter and poison definite pronour pement he merely Hughes still contrives to get in a in the bowels. Then you will feet stated that the road would enter St. little fine work on his militaristic pro great. John by the route which would take the most traffic to that city. The election (part of which is said to confidence. They have not yet formthey will simply pull the string and are arriving at New York every week

purpose to the extent of fifteen thousystem. The credit of the province, road could not be made to pay. The member who was the most outspoken on the subject was Mr. W. C. H. Grimmer, now attorney general in the Flemming government. On page 99 of the assembly debates for 1907 we find him reported as saying:

every assistance if the line is to be a transcentinental one, but if it is to be merely a local line I will be sorry to have anything to do with it. It would not pay for axle grease. would be like the New Brunswick heavily subsidized and bringing no return.'

Mr. Grimmer was not the only one Hazen, now minister of marine and fisheries, was equally outspoken. Discussing the proposal for a bond guarantee, he waid:

"I am quite satisfied that as purely local road the railway would not pay and I have every confidence that as a part of the transcontinen tal system, it would be highly bene ficial to the province and would no cost the people anything at all.'

What is being done by Messrs Hazen, Grimmer and Flemming today to make the road part of a transcontinental system? The proposed extension to Grand Falls has already been abandoned and no effort has as yet been made to extend the road parent to all who are able to read between the lines that Premier Flemming is simply playing into the than a branch line of the C.P.R., which will mean a poor service and high freight rates and it will mean the road will not pay for axle crease gan and the Anthem, "Yea, though I Premier Flemming will, one of these days, discover that while he can fool some of the people some of the time he cannot fool all the people all of the time. There is a well grounded suspicion that he is not playing fair with the people of the St. John into the open. The people of the St. John Valley want the road to enter St. John by the east side and they want it to connect with the Transcontinental Railway at Grand Falls and they expect Premuer Flemming to keep faith with them and carry out his pledges.
