

FRICK-DIXON WEDDING

Baltimore, Md. Oct. 14.—Some of the foremost representatives of society in New York, Pittsburgh and several other cities came to Baltimore today for the wedding of Miss Frances Dixon and Childs Frick. The bride is a daughter of Mrs. Isaac Dixon and is considered one of the most beautiful young women in Baltimore society. Mr. Frick, the bridegroom, is the son of Mr. and Mrs. Henry Clay Frick of New York and Pittsburgh. Two years ago Mr. Frick attracted public attention by conducting a scientific expedition to Abyssinia.

INDEPENDENT FORESTERS

(Continued from page 3)

act enacted by the Dominion parliament was passed by the Supreme Court by more than a two-thirds vote. That law was hard on many of the members, he said.

The Supreme Court contended that the men that joined since 1899 are paying adequate rates and in addition they had accumulated a reserve. He pointed out that there were 16,159 members who are between the ages of 60 and 70 and this action of the Supreme Court affected many greatly.

The High Chief Ranger argued that in comparison with old line companies the members affected by the increase would still be paying less for insurance in the Foresters than they could get in a company. He advised the members to be sure what they were doing before dropping out of the order.

MR. J. T. HAWKE.

Mr. J. T. Hawke was next called upon and at the outset spoke of the fraternal work being done by the Foresters, expressing approval of the increase from three to five cents for the maintenance of the Orphans' Home.

He said that the Supreme Chief Ranger announced at the recent gathering that he intended establishing a home for aged and infirm Foresters. Mr. Hawke next spoke of the Supreme Chief Ranger had too much power. He did not believe it wise or prudent to place so much autocratic power in the hands of any one man.

He roundly condemned the action of the Supreme Chief Ranger in summoning to Toronto representatives from other provinces and except New Brunswick a week before the meeting and then appointing all the committees from these members.

Again, he said, the supreme executive, in presenting their tide of case, had unlimited time and immediately after limited the speeches to ten minutes at first and later to five minutes and then the previous question was immediately sought to be put.

The arguments used by the Supreme Court executive were in some respects unfair to the old members. He pointed out that prior to 1899 the old members had paid out some six millions in immortality benefits and had paid out some fourteen millions since 1899.

He did not believe there was any financial necessity for the adoption of the proposal made in the act passed at the Dominion parliament, because the assessment principle was the safeguarding of the order.

Mr. Hawke said that those who said they could not see what the pre-1899 members ever did for the society might as well say they could not see what the pioneers of Canada had ever done for the country.

In conclusion he said to the pre-1899 members that they could not do better than stay in the order. Don't let us cut off our nose to spite our face said the speaker. I don't defend the action of the Supreme Court, he said, I condemn it. Let us stay in and insist on amendments. He condemned the system of Supreme Court delegates being chosen in some cases by high standing committees and especially so when matters so important as that recently decided were to be considered.

ZAM-BUK

MRS. A. SAICH, of Cannington Manor, Sask., Writes:—"My brother suffered severely from eczema. The sores were very extensive, and burned like coals into his flesh. Zam-Buk took out all the fire, and quickly gave him ease. Within three weeks of commencing with Zam-Buk treatment, every sore had been cured."

This is but one of the many letters we are constantly receiving from people who have proved the healing powers of Zam-Buk. For eczema, piles, sores, burns, cuts and all skin troubles there is nothing like this wonderful balm. No skin disease should be considered incurable until Zam-Buk has been tried.

NEW ICE CUTTER

Saw Carried in Frame That is Mounted on Pair of Wheels

The old style way of cutting ice was by the use of a long hand-saw, sometimes operated by two men. A western man has designed a machine for the purpose and it is said that with this machine one man can cut ice quicker than two men could with the hand-saw. A frame with spaced side bars, is mounted on a pair of wheels. Between the bars, at their lower end, a saw is mounted and this saw is

TURN HANDLE TO SAW.

driven up and down by a chain gear that is operated by the turning of a handle at the top. Adjustable gage shoes are pivoted at one end to one of the side bars and these shoes keep the saw running straight, so that the cut it makes is at all times the same distance from the former cut that it must parallel. The saw in this machine instead of being of the regulation stiff blade type, is in the form of a chain.
