WILD HORSES OF WEST

Descendants of Animals Abandoned During Cariboo Gold Rush

More than three thousand wild hor abolishing all race discriminations, went into effect today. The new law the interior of British Columbia, ac applies to inns, taverns, hotels, respectively.

music halls. It provides that any person violating its provisions shall be liable to a penalty of not less than one hundred dollars nor more than five hundred dollars, to be recovered by the person aggrieved. In addition, imprisonment of not less than thirty nor more than ninety days may be imposed.

The definition of the coast province.

"Indians and white prospectors and pack train freighters value these untamed animals more than the high bred horses," said Mr. Bradley. "They are the progeny of horses turned loose on the trail by discouraged or dying men during the famous gold rush in the Cariboo country. Thousands of the new fields in the early '60's. Most of them were incompetent, and, in of them were incompetent, and, in fact, utterly helpless in that wild country, and the horses either broke away or were abandoned when the

away or were abandoned when the fortune-hunters gave up the long trail. "The horses made their feeding grounds in the vicinity of Barkerville for several years afterward and their offspring wandered northward as the bands inceased. They make trails on the hountains and timbered country much after the fashion of buffalo in the early days and deer at present. "The Indians and freighters, working in the timbered districts, catch them with snares, such as are used them with snares, such as are used for lynx. In most cases the animals are easily broken and they are better for the rough country than high grade horses on account of their stamina and sureness of foot on the mountain trails. We lost horses from our train from time to time and replaced them reverse. with wild animals."

DIAMONDS FROM THE SKY

Theory That the Precious Stones Are Not of Volcanic Origin

Scientific authorities are inclining to the belief that all diamonds came to the earth in meteoric showers. The theory is the diamond fell to the earth as meteoric particles at a late period of the earth's formation. Localities where diamonds are found contain masses which have penetrated the earth's formation. Localities where diamonds are found contain masses which have penetrated the earth more while the Ameela, Searm and Wittlesbach which have penetrated the earth more or less deaply. or less deeply.

Late discoveries in the western

states, especially in Arizona, seem to indicate further the heavenly origin of our most brilliant stone, for over the broad plains for areas of miles in diameter several thousand masses of metallic iron have been scattered. These masses have undoubtedly been

neteoric showers. Not long ago an enthusiastic mineralogist, working on such a mass, cut into a section and found that the tools were injured by something harder than metallic iron. He examined the specimens chemically and soon announced that the meteorite contained black and transparent dia-

Again, it is claimed, that it is possible that the so-called "volcanic pipes" at the Kimberley diamond mines and elsewhere are not volcanic, but "simply halos a large transfer of the control of the con but "simply holes bored in the solid earth, by the monstrous meteors, the larger masses boring the holes, while the smaller masses, disintegrating in their fall, distributed diamonds distributed diamonds broadcast."

Problems of the Large Employer

In the small factory, frequently analyded by a resident owner, the conmanaged by a resident owner, the conmanaged by a resident owner, the contact between employer and worker has generally operated to maintain and perpetuate harmonious relations. The problem before the large corporationowned plant is to provide that ready touch which, by emphasizing the essential community of interests, essen tablishes a sense of unity and fellow- ocntinually makes a dollar do this oneness of aim and interest a figure from the first full stint of work. this oneness of aim and interest a reality, and not merely the occasion for pleasant speech-making. It cannot be done by reducing wages; it may be done by dividing profits. Success depends principally on an unfailing insight into the needs and problems of the holy of amployee and that in. of the body of employes, and that insight can only be obtained by sharing the problems of management with the men. The degree to which employers are prepared to go in this direction is a sound indication of their earnestness in desiring the removal of the prevailing mood of discontent. -Engineering Magazine.

YANKEE VS. GERMAN YACHTSMEN

Marhlehead, Mass., Sept. 2-The most important internalticinal contest this season in the yachting world, the German-American sonder class When Answering Advertisements raxes, Legan off Marblehead today. By Friday, perhaps, it may be told if the Germans are the superiors of the Americans in small yacht design ing, construction and rigging or the

The first of these sonder class inter national matches in 1906, sailed off Marblehead, resulted in a victory for the American yachtsmen. The return match at Kiel the next year was a bad failure on the part of the Americans, as they were whipped from start to finish. But in 1909 the Americans scored another victory at Marblehead and in 1911 they crossed over to Kiel again and had things

PREPARING FCR ROYAL WEDDING

Berlin, Sept. 1-A dispatch from igmaringen says:

This city is rapidly putting on gala attire in anticipation of the marriage of ex-King Manuel of Portugal, and Princess Augusta Victoria of Hchenzollern on Thursday. The ceresion of superb street decorations has begun and the parks and other public places are being transformed into luxurious gardens. The government has requisitioned the principal hotels for the visiting princes and envoys. The old castle of Prince William, father of the bride-to-be, is the scene of the constant reception of arriving delegations, many of them bringing elaborate presents.

Viscaunt Haldane, Lord Figh Chancellor of Great Britain, who comes to America is the guest of the American Bar Association, arrived in New York Friday.
