THE YOUNG LORD CHANCELLOR OF GREAT BRITAIN

Interesting Interview With a Cross-Atlantic Correspondent—

Chatted Gaily on a Number of Subjects, Including Home Rule and Tennis—The Little Lawyer Has Had a Wonderful Career.

Special to Daily Mail. Copyright 1921 by Cross Atlantic News Service. By Piermarini.

(Note: This pseudonym veils the identity of a young Italian nobleman who has probably talked with more European celebrities than any private citizen now living. He earned fame during the war as "The Man who dined with the Kaiser.")

London, Feb. 14—When Lord Birkenhead walked into his library with a youthful step and a smiling, dandified appearance, the lines of the old comic opera "Iolanthe" occurred automatically to my mind. There is in the play a Lord High Chancellor "not too old and not too plain." Lord Birkenhead is a very good looking, youthfully fresh, and it needs a stretch of imagination to realize that he is 47.

"So nice of you to have called; oh yes, I am quite well again, thank you; my ear trouble, after keeping me awake for months disappeared as rapidly as it came. The doctors say that it is a remarkable recovery, considering that the drum or one ear was broken and that I only allowed myself to have a few weeks rest.

Burst an Ear Drum

"By the way, do you know how it all came about? I was bathing from my yacht Mairi, and my little girl kept asking me to dive over and over again. I had no rubber cap on, and the result was that one of my ear-drums went smash.

"While I was away, recovering fast, I received a London newspaper announcing that I was forced to resign the Woolsack on account of my hopeless bad health.

"I wrote back telling them that I was getting on famously but the paper took no notice of it. Moreover, a few days later a very incompetent article, discussing my likely successor, appeared in the same paper. I was absolutely wild, and my wife was the recipient of endless wires and letters of sympathy and of many visits by long-faced friends."

Foreign politics, the Home Rule Bill for Ireland, of which Lord Birkenhead will shortly take charge, tennis playing, mutual friends and acquaintances, were in turn, the subject of our conversation.

On each subject the Lord Chancellor talked gaily, sparklingly, in his own versatile manner. He gives to the superficial listener an impression of levity, of disregard for politics and politicians; but at the bottom of it all there is a solid education, a wonderfully clear and speculative mind, and his speech now sarcastic, now full of wisdom, shows the highest forensic gifts and is never dull, however hopelessly unattractive his subject may be.

A Wonderful Career

The success of the wonderful career of "the little lawyer from Liverpool" has always been the result of his ability to deal with different people in different ways.

His maiden speech in Parliament was a brilliant tour de force of dexterous political persiflage. But his next speech was a learned disquisition on a highly technical subject.

WEAK, NERVOUS CHILDREN QUICKLY GAIN STRENGTH UNDER FOLLOWING PLAN

Nervousness, just like weakness, is a family predisposition. We inherit tendencies to disease just as we inherit of study, social duties, work at home—these all tend to make nervous troubles among children. No wonder that St. Vitus Dance, Epilepsy, and herit physical resemblances. The constant headaches have become alarmingly common. Pale, nervous, listless young people are met everywhere. It is nothing short of criminal for parents to neglect signs of weakness in their children. By ignoring the slightest symptom of nervous or mental strain, you may condemn your child to life-long invalidism. If any member of your family complains of headaches, fear of going into dark places, give them that wonderful tonic, "Ferrozone." Strength of body and mind, hardy nerves, ability to study with comfort, all the attributes of health quickly follow the use of Ferrozone. It establishes strength, color, endurance, vim—does this by filling the whole system with nourishment and tissue-forming materials.

It's because we know the enormous good that Ferrozone will do, because we are sure every child and even grown folks, will be permanently benefited that we urge you to give it a trial. All dealers sell Ferrozone in 50c boxes, six for \$2.50, or direct by mail from The Catarrhzone Co., Kingston Ont.

This is the charm of Lord Birkenhead as a man, as well as the key to his success as a politician. He can be a dandy with ladies, a sportsman with young men, a far-seeing politician with those who matter, a child with children. A walk in the park, a ride with his baby girl, a game of tennis fills in the spare moments.

"What is the good of having all one can get in life if one cannot enjoy a good meal, a good drink and a good walk?" I heard him repeat very often.

Of his war record as a Lieutenant-Colonel, Lord Birkenhead still tells with delight a wealth of anecdotes. "At a time when the English territorials were rendering excellent services in France, indeed, while they were holding the line together, I was sent on a special mission to a neutral country whose king is notorious for his lack of a sense of humor.

"One day I was discussing with him the situation on the Flanders front. "Of course," I said smilingly, "being only a 'terrier' I cannot expect to see things as clearly as a regular officer.

"I can quite see that," he responded "and I sympathize greatly with the efforts of men who had no technical training, as we had, to try and make the best of things." "I was so astonished at this platitude that I almost burst into laughter, and I switched off the conversation to another subject.

TWO LOCAL TEAMS PLAYING AWAY IN WEEK

Western Intercollegiate Section Will be Decided at Sackville Friday—High School Game.

Two Fredericton teams will be playing away from home this week in hockey league fixtures. They are the University of New Brunswick, which will go up against Mt. Allison at Sackville on Friday in the final match of the western section of the Intercollegiate League, and Fredericton High School, which will play Friday at Sussex against Sussex High and on Saturday at Rothesay against Rothesay Collegiate in the Interscholastic League.

U. N. B. Looks Fairly Good.

The U. N. B. team defeated Acadia here in overtime play, and Acadia defeated Mount A. at Wolfville. The Red and Black should have improved somewhat since its first appearance and looks fairly good for a win at Sackville. Bill Lounsbury is recovered from his illness. With Fleet showing the best he ever did at centre and Burgess and Lounsbury playing as they can on the wings the Red and Black forwards should show something. Jewett and Barry are a capable defence and Sears in the net played a steady game against Acadia and is improving. A victory at Sackville will give U. N. B. the section. A defeat will tie up the series.

Dalhousie and St. Francis Xavier have to fight it out for the Eastern Section title. A "sudden death" game between the section winners probably will decide the Maritime college title for 1921.

The Interscholastic

Fredricton High by beating Rothesay here in the opening match of the league still heads the Interscholastic standing. Rothesay has beaten Sussex High. By the end of the week it should be definitely known what chance the local school has for the title. If the Yellow and Black can win the match away from home it will have a good chance.

Exhibition Game

The St. John team is to play Marysville here Thursday night in an exhibition match. The visitors have been handicapped by lack of a rink but has been doing some barnstorming nevertheless. So far it has not had very good luck. Marysville will be strongly favored for the game.

Bachelors like to appear as if they pitied married men when way down in their hearts they envy them.

Germany isn't enthused over the dictum that those who dance must pay the fiddler.

"None" is the word we use oftenest in making out a tax return.

ADVERTISING INCREASES THE HEIGHT OF A MOUNTAIN

HOW MANY PEOPLE know the names of the highest mountain peaks in the world?

FOR INSTANCE, "Kinchinjunga" is the name of one of the highest mountains in the world. It is 28,156 feet high.

PIKE'S PEAK is only 14,108 feet high—but it gets credit for being higher because it is advertised.

ADVERTISING will bring many unknown things into prominence during the coming years.

NOW IS THE TIME, when so many articles and commodities of trade are flooding already overstocked markets, for the man with goods to sell to let the people know all about it.

THE BEST WAY to let the people know is to advertise in the newspapers.

YOU HAVE SEEN THIS in the Daily Mail—let the public know what you have to sell through the advertising resources of this newspaper.
