EARNINGS—PURPOSE OF ISSUE—MANAGEMENT

Detailed statement on page 3, indicates earnings of over \$7.00 per share on the Common Stock, the conservatism of which can be judged best by the fact that other hotels in the United Chain are paying from 10% to 25% on their Common Stock.

To meet the urgent demand on the part of the residents, transportation and other business interests of Montreal, commercial travellers and tourists, it is proposed to construct upon the most desirable site in the city, a modern fire proof hotel of 1,086 rooms. This hotel—The Mount Royal—will be operated as a link in the chain of twenty hotels in Canada and the United States which are managed by the United Hotels Company of America. The personnel of the local Board of Directors together with the fact that "The Mount Royal" will be operated by the United Hotels Company of America insures its success.

Interim certificate will be issued by the Montreal Trust Company pending delivery of definitive Debentures. Application will be made to list the Preferred and Common Shares on the Montreal and Toronto Stock Exchanges.

Price: Par and Accrued Interest
with a Bonus of 40% Common Stock

co-operation and no mention was then made of a political affiliation. In due time the United Farmers' of Ontario entered the political field and achieved some success. That seemed to give inspiration to the United Farmers of New Brunswick. He had opposed the organization taking part in politics, as he had felt that some person looking for preferment would use it to his own political advantage. He thought his contention had been proved true by what had actually occurred. He regretted that the hon. leader of the Farmers Party was not in his seat. That hon. member was his fellow-citizen and they had always been on friendly terms. He regretted to have to refer to him in his absence as it might be construed on his part as taking an unfair advantage. He would advise the followers of the hon. member to take all precautions and look carefully to every step. He could recall the time when the hon. member and others at Crane's Corner in the town of Sackville had burned the late Sir Albert Smith in effigy. He (Fawcett) was then a Tory of the Tories and seemed to take great joy out of the incident. In due time the Postmaster of Sackville was taken very ill. Mr. Wood then represented the County at Ottawa and complained that certain gentlemen, who were applicants for the office, were disturbing his morning meal. The Postmastership was given to another, and his hon. friend soon afterwards left the Conservative party. He then sent to Ontario for Duncan Marshall and had him organize a branch of the Patrons of Industry of which he became a member. Subsequently Mr. Powell was interrupted at a public meeting by members of that organization, and replied to them as best he could. This caused them to quit the Conservative party and joined with the Liberals who at that time needed help. The Liberals took hold of the hon. member and on several occasions elected him to the Municipal Council. Up to the very night that the hon. member received the nomination from the United Farmers he stated within the hearing of him (Estabrooks) that he did not know whether he would run as a Farmer candidate or stay with the Liberals, as it all depended on the nomination. The hon. member seemed to get the idea from the spirits above that the Farmers of New Brunswick would on election day repeat what they had done in Ontario. He probably thought that they might need a Premier or a Minister of Agriculture, and that he would get the portfolio, while if he were to cling to the Liberal party he would be nothing more than a private member. During the campaign he was introduced on the hustings as a coming Minister of Agriculture, and he (Estabrooks) had heard it stated during the past few days that the hon. member was now endeavoring to form an affiliation with his first love. In his proposal with regard to the highways he seemed to have made the discovery that nature was all wrong, and that the branches grew before the trunk. He did not see how the policy he proposed of standardizing the back roads and leaving the trunk roads without attention could appeal to any sensible man. He (Estabrooks) could hardly see how he could condemn the policies of the Hon. Minister of Public Works for his own parish the hon. member (Fawcett) had control of the distribution of the road expenditure. His conduct merely showed that he admitted his own incapacity. However, the Leader of the Farmer party had mentioned some things which were admirable, one of great importance to back districts was the Rural Telephone. Some system should be evolved by which some districts could be given a telephone. In Nova Scotia there is provision under which two or three persons could form a company without the expense which is necessary in New Brunswick. He had communicated with the Speaker of the Nova Scotia House concerning the rural telephone system of that Province and his reply had been that it was working out well.

Another matter touched upon by the Farmer Leader had been the necessity for rural schools. It was easy to criticize in this particular, but hard to work out any system. He did not believe it was for him to advise what should be done. He would not encroach upon the forbearance of hon. members any longer and thanked them for the courtesy given them.

HON. MR. SPEAKER said that he wished to point out that hon. members on the Opposition side had wished to speak but were not prepared to go on.

SOME HON. MEMBERS—"Question, Question."
The motion carried without division and the House resolve itself into Committee of Supply, Mr. Hayes in the Chair.

MR. BAXTER speaking on an item for Contingencies for the Administration of Justice asked how much greater the expenditure was for the Supreme Court than the Revenue. Stamps were the only means of gaining revenue and he was aware that a great gap between expenditure and revenue existed for years. It should be bridged and the matter should be grappled with soon.

HON. MR. HETHERINGTON said he would bring down the information tomorrow.

The Committee reported progress and supply was made the order of the day for tomorrow at 3 o'clock.

The House went into Committee with Mr. Hayes in the Chair, and took up further consideration of a bill for the prevention of fires and a bill to amend the Judicature Act.

MR. BAXTER said that a proposed amendment with regard to the assistants to the Fire Marshal did not fill all the requirements. One person should be designated by the Fire Marshal in each parish to conduct investigations, otherwise two might investigate the one fire.

HON. MR. FOSTER said that his idea was that the Fire Marshal should call upon a man when wanted.

HON. MR. BYRNE said that this section is contained in similar Acts in other provinces and no difficulty was experienced.

MR. BAXTER said that such probably was the case. The insurance people wanted the Act as presented and it might as well be given to them but because a bill was poorly drawn in another province it was no reason why it should be accepted here.

The bill was amended in respect to the collection of statistics.

MR. YOUNG said he was not at all in favor of the bill. It might have certain beneficial results but it would put an extra tax on every person desiring to insure his property. The House should hesitate about adopting it. The wages of the laboring man had gone down and he would feel the increased burden. Owners of saw-mills and farmers would be taxed extra.

HON. MR. MERSEREAU said that he had been of the same opinion as the hon. member for York (Young) until he had heard the statement of the Underwriters. The intention of the bill was not to advance the insurance rates but to save a much larger amount of money than the one-half per cent. required for the administration of the Act. The total annual loss for fires in New Brunswick was alarming.

MR. YOUNG—"Do you think this bill would stop it?"

HON. MR. MERSEREAU—"It will help if proper officials are secured."

HON. MR. FOSTER said that he held no brief for the bill, but fire conditions in the Province shows that something should be done. The fact that rates had been going up justified the bill. Nobody wanted fires, even if the bill had only a moral effect it should be passed. Possibly the administration would not cost one-half per cent proposed.

MR. PINDER said that if the introducer of this bill would put through a bill to prevent smoking he would do more to prevent fires than anything else.

HON. MR. FOSTER said that if his

WAS SUFFERING FROM INDIGESTION

NO FEAR OF PAINS NOW.

Indigestion is one of the worst forms of stomach trouble, and many people suffer terribly after every meal they eat. The rising and souring of the food, pains in the stomach, heartburn, waterbrash, belching of wind, vomiting shortly after eating, etc., are some of the symptoms.

There is no need for any person to be troubled with indigestion, dyspepsia or any other stomach trouble if they would only take Burdock Blood Bitters, which contains a combination of nature's roots, herbs, barks and berries; a combination that cannot help but put the stomach right.

Mr. H. H. Collins, Norton, N. Z., writes: "I was with the overseas forces for four years and two months, and in October 1916 I was unfortunately enough to be wounded and taken prisoner. I was a prisoner for 2½ years, and the food they gave us was not good at times, and after a few months I found I was suffering from indigestion. When I came home in July 1919 I was nearly a wreck. I was told to use Burdock Blood Bitters. I did so and found great relief and can now eat without fear of pains and sickness. I would recommend B. B. B. to all who suffer from indigestion."

Burdock Blood Bitters has been on the market for over forty years, and during that time has made a reputation second to none for relieving all stomach troubles. Manufactured only by The T. Milburn Co., Limited, Toronto, Ont.

I'll Tell 'em the World
It was in the spirit of "pass the word along" that Frank E. Johns, a well-known Montreal traveller, penned the following letter:

"Now I am going to give you an unsolicited testimonial. Heretofore I have had a profound contempt for patent medicines, particularly so-called liniments. One day last fall after a hard day's tramp in the snow, I developed a severe pain in my legs and like a man who has never had anything wrong with him physically, I complained rather boisterously. The good little wife says: 'I will rub them with some liniment.' 'Go ahead,' I said, just to humor her. Well, in the course of a few minutes a bottle of MINARD'S and gets busy. The pain disappeared in a few minutes, and you can tell the world I said so." 18

hon. friend from York (Pinder) wished to commit suicide he had better present such a bill.

The bill was agreed to as amended. MR. RICHARDS asked for an explanation of the bill to amend the Judicature Act.

HON. MR. BYRNE said that originally no provision concerning the residence of Judges had been made. Later the residence of two in the City of St. John had been required, but the Act was silent as to the residence of the others.

The bill was agreed to as amended. The Committee reported progress. HON. MR. FOSTER asked for leave of absence for Mr. Fawcett until Tuesday next on ground of urgent business.

HON. MR. FOSTER said that he had numerous requests to make changes in polling sub-divisions. It would save time if all hon. members would leave descriptions of boundaries and sub-divisions with the Clerk, and towards the close of the Session a bill would be brought in covering all.

The House adjourned at 10.25.
