ROW BETWEEN BRIDGE WORKMEN WAS SERIOUS

**Police Court Case Likely to Result—
Empire House Scene of Trouble
Last Night—Rumors of
Robbery**

A row between two employees of the Foundation Company at the Highway Bridge assumed serious proportions at the Empire Hotel, Queen Street West, last night that the matter is expected to be before the police court. One of the principals in the fight is said to have been badly beaten. Mrs. Miles who conducts the Empire House, wished to make a complaint with the Police Magistrate this morning but was told that the man would have to make the information himself. The other party to the fight is said to have secured counsel. It is reported that on Sunday one of the bridge work men who is boarding at the Empire House was robbed of sixty dollars. Enquiry at the hotel today elicited no information on the subject and the police say that no such case has been reported to them. The police are working on the case of Joseph Belanger another employee of The Foundation Company who boarded at Scott's Restaurant, Regent street, and who was robbed of forty dollars on Sunday at his boarding place. Fellow workmen are the suspects in the case. Chief McCollum reports no developments.

RAINFALL SINCE SUNDAY MORNING WAS TWO INCHES

**Heavy Autumnal Storm Has Swept
Province—Wind Reached Velocity
of Gale This Morning—
River is Rising**

This section of New Brunswick this week has experienced one of the heaviest October storms in its history. Dr. C. C. Jones of the University of New Brunswick, said this afternoon that the instruments at the meteorological station at the university had recorded a rainfall of two inches since the storm began early Sunday morning. As the total average monthly precipitation is only four inches it can be seen that the rainfall during the present storm has been remarkably heavy.

The wind had not been high until this morning when a gale from the northeast began. The velocity recorded at the university about noon was thirty inches per hour, sufficiently high to be classed technically as a gale.

A telephone message reported received from Edmundston by Fraser Limited last night stated that up to that time the weather at Edmundston had been fine. The rainfall has been sufficient however, to bring up the level of the river and a further rise of water is expected. If the usual fall freshet occurs after this storm, the plant of The Foundation Company at the highway bridge will suffer.

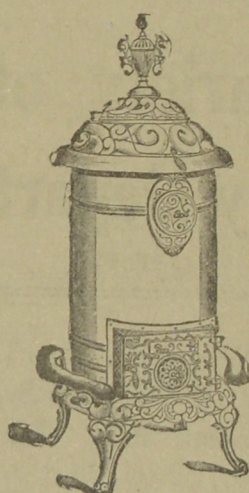

The storm probably will continue some time longer as the New England States last week experienced several days of stormy weather.

is the first confirmation by Bishop LeBlanc. His manner has made an excellent impression upon all.
