Moderate north and north-west winds, generally fair, not much change in temperature; Sunday fair and warm.

MEMBERS OF GREAT LAKES AND ST. LAWRENCE TIDE WATER ASSOC. PAY A VISIT TO OLD QUEBEC

DELIGHTFUL TRIP REACHES ITS CLIMAX

Mr. Bosworth of the C. P. R. Discusses Transportation Matters—Louisiana Senator Praises Canadians. Says Americans Willing to Pay Share of Improvements.

(Special to The Daily Mail.) Quebec, July 16—That it would take some little time before the suggested water facilities between the United States and Canada could materialize was the opinion of George M. Bosworth, Chairman of the Canadian Pacific Ocean Services, in extending a welcome at Quebec yesterday afternoon to the members of the Great Lakes and St. Lawrence tide water Association who reached here this morning after a six day trip down Lake Ontario and the St. Lawrence. The trip, reached its climax at Quebec. The purpose of the Association is to further the proposed deepening of the St. Lawrence River so as to afford access to ocean-going liners to the Great Lakes, and at Quebec contact was really made with deep sea navigation when the delegation, which is comprised of several Governors of States, Senators, Congressmen and prominent business men of the United States inspected the beautiful C. P. O. S. liner "Empress of France" which arrived here yesterday.

Mr. Bosworth said that the party had seen enough during their trip to impress them with the necessity for further water communication between the St. Lawrence and the United States. Should these suggested facilities materialize, it would certainly work a great change in the relations of the two countries, not only in the matter of transportation but also in electrical development, which in these days of the high price of coal was a great importance as a supplementary source of power. He hoped that the delegation would make their next trip a longer one, across the ocean, when they would find that the Canadian Pacific Ocean Services was the best route.

From Louisiana.

Senator Ransdell of Louisiana, after remarking incidentally that he personally had a great interest in the development of Canada because he was a lineal descendant of the Acadians who after being dispossessed of their lands in Nova Scotia in 1755 had settled in Louisiana, expressed the thanks of the entire delegation for the courtesy that had been extended to them by the C. P. R. and that Canadian Government during their journey. He trusted that this was the beginning of a much closer relationship between Canada and the United States. As citizen of the United States, even of far off Louisiana, away down south in Dixie, he said that none of the American members of the party had failed to be inspired by the magnitude of the Welland canal and by the fact that Canada had undertaken it single handed and carried it through. The first estimated cost had been fifty millions but actual cost was between eighty and south could do was to pay its share of the enormous cost, but he thought that the least their big brother in the south could do was to pay its share of the balance. It had been said that facilities made commerce rather than commerce made facilities. If that

FREDERICTON-WOODSTOCK HIGHWAY

Contractors are Making Good Progress on Main Trunk Road in York County.

Satisfactory progress is being made with the work on the main trunk highway on the western side of the river between Fredericton and Woodstock. The work is being done under the federal aid plan and by contract. The Concrete Builders Limited have the first nine miles between Fredericton and McKinley's ferry. They have a number of men and horses at work and have finished grading on a good part of the section. The men have a complete camping outfit near Springhill where they make their headquarters.

Mr. Guilford Hammond has a contract for the stretch of road extending from the foot of the Barony to Robert Graham's upper line at Prince William. He is making good progress with the work and will have it completed this fall. Last season Mr. Hammond built fourteen miles of highway extending from Meductic to the Woodstock line and made a first class job of it. Indeed motorists who have been over it this season have pronounced it one of the best stretches of highway in the province.

Another good strip of highway between Fredericton and Woodstock extends through the Shogomoc woods. This work was completed last year by Mr. W. J. R. Carten of this city. When the work on the Fredericton-Woodstock highway is completed it will compare very favorably with the best State roads in the neighboring republic and is sure to attract many visiting motorists from that country.

WHERE FLIES LIVE IN WINTER

(By Dominion News Service.) London, July 16—At the Royal Sanitary Institute conference at Folkestone a speaker condemned the disregard of common sense hygiene principals of crowding small houses with superfluous furniture and dust-collecting bric-a-brac. When one took stock of the accumulation of pictures plastered over every available inch of the walls, he said, one could solve for all time the problem of where flies go in the winter time.

Sackville Tribune: Dr. Trueman of Toronto, who has been visiting relatives here, left last week for Fredericton.

were so, this effect to bring ocean-going ships into the Great Lakes would provide one of the greatest facilities the world had ever seen. He foresaw perhaps greater advantages to Canada than to the United States, because Canada, afforded the greatest opportunities and he trusted that the scheme would not linger on for ages as a dream, as the Panama Canal had, but would come about within the next ten years.

After luncheon on the Empress of France an inspection of the ship was made, conducted by Captain Cook and C. E. Benjamin, Passenger Traffic Manager of the Canadian Pacific Ocean Services.

Moving pictures were taken on the boat deck of the entire party.

COUPLE WEDDED IN FEBRUARY AND WERE DIVORCED IN JUNE

(By Dominion News Service.) London, July 16—"I think this must be almost a record case—Married on February 2nd, 1921; Adultery on March 29th; A decree nisi on June 13th," commented Mr. Justice Horridge in the Divorce Court. "It is shocking, but I suppose I must grant a decree." The case was one in which Mr. Avington Ernest Hahn, a Civil Servant in the Inland Revenue, petitioned for a divorce from his wife for alleged adultery at the Knightsbridge Hotel, London, and cited Mr. Frederick Betterton as the co-respondent.

REPORT OF COMMISSION ON THE CATTLE EMBARGO TO BE READY IN AUGUST

The Report Will Be Awaited With Considerable Interest by Canadians—Reservation of Senior British Trade Commissioner in Montreal, the Cause of Some Conjecture in Old Country.

(By Dominion News Service.) London, July 16—The report of the Cattle Embargo Commission will be ready in August, according to official information received by a representative of the Dominion News Service today.

The resignation of Capt. Evans, Senior Trade Commissioner for Great Britain, in Montreal, which was announced a few days ago, has been the subject of conjecture in industrial circles here. An official of the Overseas Trade Department states that Capt. Edwards suffered like other commissioners owing to bad times and the need for economy. It was pointed out that his activities had been curtailed to some extent but that this was unavoidable until the Treasury was enabled to make the department larger grants. Montreal, being the senior of three Canadian commissioners has the largest expense and it is expected that a considerable saving will be affected.

OLD COUNTRY PEOPLE TAKE LITTLE STOCK IN RAIN MAKERS

Meteorological Official Says It is Not Possible Under Present Conditions—The Alberta Experiment.

(By Dominion News Service.) London, July 16—Britain's long spell of dry weather has given peculiar interest to the "rain-making" efforts now being practised in Alberta.

Experts here are frankly dubious and recall the fact that in Alberta leading authorities are putting their faith (and money) in irrigation works for crop improvements.

"We don't think rain-making is possible in present conditions," said an official of the Meteorological Office. "Attempts have been made all over the World at different times, but it has never been shown that rain has actually resulted from the experiments employed."

"A Witch doctor droning his incantations when everything pointed to rain may have been cheered by showers speedily following, but no reasonable person would say that he had brought it about."

BOY KILLED BEQUEST TO PLAYMATE NOVELIST

(By Dominion News Service.) Winstead, Conn., July 15—George Simons, 9, of Danbury, died at the home of his grandparents, Mr. and Mrs. Wallace Dickinson, in Southington last night from a bullet wound in the head accidentally inflicted, it is believed, by a playmate, Joseph Kezilewis, also 9. Kezilewis at first declared his friend had been shot by a person in the woods nearby, but after continued questions said that he accidentally shot Simons. The rifle was found in the woods. Anthony Berkan, uncle of Kezilewis, covered the blood tracks ear where the accident occurred. Both man and nephew were taken into custody pending further investigation.

WEEK-END MARKET

There was a good sized market at Phoenix Square this morning and prices kept about the same level as on Wednesday. No shade were offered, and Potatoes took a jump in price. Prices were as follows:
Butter, 35 to 40c lb.
Eggs, 40 to 50c per doz.
Lamb, 15 to 25c per lb.
Veal, 9 to 15c per lb.
Mutton, 8 to 14c per lb.
Salmon, 35c per lb.
Fowl, 35c per lb.
Green stuff, 10c per bunch.
Potatoes, \$1.00 to \$2.00 per bbl.

For the Hospital.

A few days ago a band of girls in their desire to help the hospital, especially the Children's Ward, held a sale and handed the entire proceeds to the Secretary of the Institution. The little merchants were Lena Hurley, Mary Hurley, Mary VanWart, and Catherine Cain.

(By Dominion News Service.) London, July 16—Mrs. Catherine E. Howard of South Kensington, who left \$31,525, gave her cat's eye pendant, surrounded with diamonds and platinum chain to Miss Rachel M. Dell, authoress, in appreciation of the pleasure she had derived from reading her books, especially "The Knave of Diamonds."

Police Court.

One drunk was arrested this morning and was lodged in the police station. He will probably come up for trial on Monday morning. The drunk who was remanded from Wednesday came up yesterday afternoon. Sitting Magistrate E. A. McKay gave him a suspended sentence of ten days gaol, the prisoner to work out that sentence as well as any other that may be imposed for any later infraction of the law. He has gone to work on a farm down river. The colored woman who was up on Wednesday charged with vagrancy was given a suspended sentence on Wednesday afternoon.

New Picture House

This vicinity will soon have another picture house added to those already in operation. It is to be called The Globe and will be located in Neill Street, Devon, the old Temperance Hall in that street having been acquired by American parties who now are remodelling it. The building will be altered completely within and without. The seats will be removable so that the floor can be used for dancing when required.

Miss Dolly McFarlane daughter of Mr. S. H. McFarlane left on Thursday on a visit to friends in Ottawa and Montreal.

HOPEFUL THAT DIFFICULTIES IN THE IRISH SITUATION WILL BE SUCCESSFULLY OVERCOME

BIG BUNCH OF HORSES HERE FOR THE MEETING

Fast Class on Tuesday. Matched Race on Wednesday—Many From Outside Points Expected.

Horsemen are expecting the hardest and fastest racing of the season on the Maine and New Brunswick Circuit at the Fredericton Park Association's meeting here next week.

Already there are more than 90 horses at the local track and arrivals between now and Monday evening will bring the total up to over the 100 mark. Al Standish, of the American Horse Breeder staff, who will act as starter has arrived and is at the Banker House.

Fast Classes Tuesday.

The 2.12 pace on Tuesday will bring Roy Volo, The Problem, Zom Q. and others together again and they are expected to beat 2.10, the 2.18 trot and pace and the 2.27 trot completing the opening day's programme. Calgary Earl, 2.02 1-4, and John R. Braden, 2.02 3-4, are expected to pace in better than 2.07 when they meet on Wednesday in the free for all, while the 2.17 trot will bring an evenly matched field together and a dozen or more are expected to start in the 2.27 pace. Fern Hal and Buster Boy will meet again in the 2.14 class on Thursday, with The Exposer, 2.06, the Fredericton trotter, making his first start in his class this year, among the others in the field; the 2.20 class and the 2.21 trot complete the closing day's programme.

Schooner Ashore.

The tern schooner Emily F. Northman, which lately discharged coal at this port, went ashore Wednesday at The Wolves, Grand Manan in a dense fog. She was floated and will be towed to Eastport for repairs.

Speeding Already

Although the tarvia pavement on Brunswick street has not been laid throughout the entire length of the street, the motor speeders already are tearing up and down as great a length of the street as they can. Residents of Charlotte street have endured the nuisance since that street was completed and now residents of another long street are having it. Ordinances and bylaws evidently are made to be disregarded.

Band Concerts.

The City Council's music committee are arranging for band concerts at Parliament Square next Tuesday and Wednesday evenings as part of the entertainment programme for the big crowds expected to be here for the horse races on July 19th, 20th and 21st. I hope that there will be sufficient accommodations available, householders who have rooms to let have been asked to communicate with Staples Drug Store, corner of King and York streets, where an information bureau and lodging bureau has been established. With fine weather the biggest crowds that ever attended races here are expected.

Miss Effie Kelly, who has been spending some months here with her grandmother, Mrs. Gordon Kelly, left Thursday evening for her home in Silverton, B. C.

ULSTER CHIEFS HAVE BEEN SUMMONED

Lloyd George and De Valera Will Confer for the Third Time Monday—A Critical Period in the Negotiations—Conference Yesterday Lasted Four Hours.

London, July 15—Two more important conferences were held today in the efforts by Premier Lloyd George and the leaders of southern and northern Ireland to lay the foundation of a meeting of the leaders of the two countries to endeavor to reach a solution of the Irish problem.

The first conference was between Lloyd George and Eamonn De Valera, the Irish Republican leader, and the second between Lloyd George and Sir James Craig, premier of Ulster. No official information as to the results attained by the conferences was issued, but it may be said that the preliminary negotiations are shaping better than anyone could have dared to hope a week ago. No hitch thus far has occurred.

Mr. De Valera will meet Lloyd George again on Monday, while Sir James has summoned several members of his cabinet to London, which would appear to indicate that some suggestion worthy of consideration by the Ulster government has come to light.

A Critical Meeting.

Finally, it is said by those in close touch with the negotiations that there is every prospect the proposed conference of Lloyd George, Mr. De Valera and Sir James will materialize early next week.

The two days' interim in the Irish peace preliminaries, which will terminate Monday when the prime minister and Mr. De Valera meet for the third time, promises to be a critical period in the negotiations, but in the councils of neither of the three parties concerned is there manifestation of fear that the difficulties of the situation will not be bridged.

When the Ulster premier left Downing street at 5.30 o'clock this afternoon, Lloyd George had had four hours of "man to man" discussion with Mr. De Valera and two hours and a half with Sir James.

There is reason to believe that at the termination of these intimate talks there was little in the viewpoints of the three leaders, the handicaps with which they are fettered and the lines over which they would not or dare not step, which had not been made perfectly clear to the others. Each also was cognizant of what failure ultimately to compose these divergent views would mean, and was fully alive to the responsibilities with which he was burdened.

De Valera's Attitude.

Lloyd George this afternoon was able to amplify the knowledge which Sir James already had concerning Mr. De Valera's attitude. The next move was the urgent summoning to London by the Ulster premier of several members of the Ulster cabinet.

New Appointment

Arthur D. Callan for some time manager of the Fredericton Opera House for F. G. Spencer Limited, has been appointed manager of the St. John Opera House in succession to the late W. C. MacKay whose death under tragic circumstances occurred a short time ago.

PRINCE OF WALES HAD A BAD FALL WHILE PLAYING A GAME OF POLO

(By Dominion News Service.) London, July 16—The Prince of Wales was thrown while playing polo at Aldershot for his regimental team, the Welsh Guards, against the Aldershot Club. During the first chukker he was turning sharply when his mount slipped on the grass, breaking the reins. Though slightly lamed by the fall, the Prince obtained another mount and scored 2 of the 3 goals obtained by his side, which won by the odd goal. After the match the Prince motored back to Windsor.
