

LORD AND LADY BYNG ARE HURRYING THEIR DEPARTURE

(Copyright 1921 by Dominion News Service.)

London, July 15.—General Lord Byng and Lady Byng are living at high pressure in order to get through the multiplicity of engagements which confront them before leaving England for Canada on August 4th.

When Lord Byng's appointment as Governor General was announced in the Press, letters of congratulation poured in from every part of the kingdom, and any number of cablegrams were received from Canada promising the new Governor General and Lady Byng a warm welcome.

"From the Monday till Saturday my husband and I each wrote about thirty letters a day," said Lady Byng to a representative of the Dominion News Service to whom she courteously granted an interview. "These," she explained, "were thanking correspondents only in England; what it will be like when the Canadian mail arrives, I am sure I don't know."

Lord and Lady Byng are hurrying their departure so that the new Governor General may be in time to open the Toronto International Exhibition on August 27th. No sooner was the announcement of the invitation made in the Press, of Canada than ex-service men in all parts of the Dominion cabled over to their old General, begging him to accept it for Lord Byng's name is an affectionate by-word among Canadians who were proud to call themselves the "Byng Boys."

A Capable Secretary.

Lady Byng has provided herself with a very capable secretary in the person of Miss Walpole, the assist-

ant librarian at the Athenaeum Club. "I am afraid the Athenaeum Club will not thank me," was her ladyship's smiling comment.

Lady Byng is not going out to Canada for the first time, as she lived there for a year in her girlhood when her parents were attached to the suite of the Marquis of Lorne when he was Governor General. She was only nine years old, however, when she left, and although she has travelled all over the world since then, accompanying Lord Byng in his Military appointments, she has had no opportunity of revisiting the Dominion.

"I have always been keen on going back to Canada," she said, "and I am looking forward eagerly to the life. Yes, of course, I have regrets; I regret having to leave by father and mother, who are getting on in years, and I regret leaving my garden, for I am tremendously keen on gardening."

Lady Byng informed her interviewer that she had no intention of returning to England before the expiration of the appointment, which is for five years. "I don't know what the conditions are in Canada," she said, "but I do know that I mean to work and not lounge; and I shall go on as long as I can stand up."

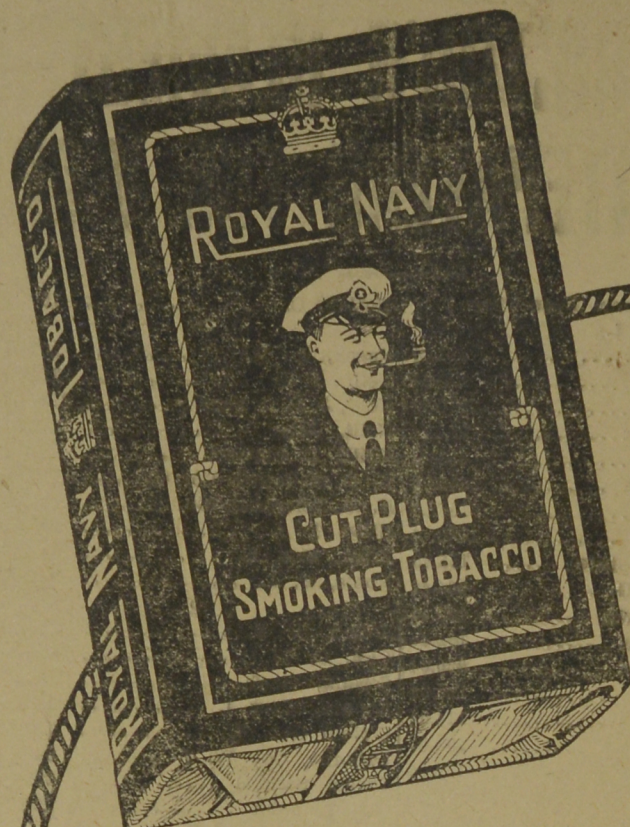

Lady Byng's Activities.

Those who are acquainted with Lady Byng's activities on Conferences and Boards of Guardians will not need to be told that women's work in Canada will have her specially warm support. "Women's institutions which we copied here from Canada I shall support for all I'm worth," explained her Ladyship.

"And you are not afraid of finding a difference between the life in Canada and here?" Lady Byng was asked. "Not at all," was the reply. "The life will be extremely interesting. I know the Canadians will never let me down or disappoint the eagerness with which I look forward to being amongst them. And the same remark applies to Lord Byng, who is looking forward tremendously to being amongst the men of his old corps again; for he is quite as fond of his corps as the corps is of him."

One regrettable consequence of Lady Byng's new sphere will be stoppage of her literary activities; for she has been a contributor from time to time to the "National Review" and

several other London journals, and is the author of two successful novels, "Anne of the Marshlands" and "Barriers", which were published

Our Travelling Salesmen Enjoy Selling Red Rose Orange Pekoe Tea

Travelling salesmen work very hard as a rule. They put in long hours, and the pleasure of travelling is not so great as to those of us who mostly live at home.

Naturally, therefore, these men must get a great deal of their pleasure and satisfaction from their work—they like to sell the finest of products and represent a good "house".

Our travelling salesmen are exceedingly critical of the products which they are asked to sell, and when we told them last January that we wanted them to sell a new tea of extra quality—much finer than has usually been sold in Canada—they were keenly interested, put the new tea to many tests amongst their friends, and gave it a lot of time and thought.

Having convinced themselves of the extra fine quality of Red Rose Orange Pekoe Tea, they started on their trips full of enthusiasm.

Their satisfaction, however, has been much greater on their later trips, because of the splendid renewal orders which are following their first sales.

Like good merchants, our salesmen enjoy selling the very finest tea—Red Rose Orange Pekoe.

Try the tea which has met with so much success.

DO YOUR EARS BUZZ?

HAVE YOU HEADACHES?

When your ears ring, your head aches, and you seem slightly hard of hearing, beware of Catarrh. Mr. J. A. Hamill writing from Greenmount, P. I., was similarly troubled, and writes: "No one could have worse Catarrh than I had for years. It caused partial deafness, bad taste, upset my stomach, made me sick all over. 'Catarrhzone' cleared my nostrils, stopped the cough and gave me a clear feeling in my breathing organs. I am now absolutely well thanks to Catarrhzone." Nothing so certain as a Catarrhzone Inhaler to strengthen a weak throat, to rid you of Bronchitis, to drive out Catarrh, coughs and colds. Sold everywhere, 25c, 50c and one dollar for complete two months treatment. Dealers The Catarrhzone Co., Montreal.

several years ago. When the Canadians were in France Lady Byng contributed an interesting article of reminiscences to Canada. Such excursions into the world of literature, which may be regarded as Lady Byng's only hobby, she now views as pleasures of the past, as she anticipates being busier than ever and having little leisure for her pen when she enters on her important duties in Canada.

"Tonight I am going down to Limehouse with my husband to unfurl a banner at the Ex-Service Men's Club and I am to be presented by them with a bouquet," Lady Byng told her interviewer as he rose to take his leave.

Other engagements made by Lord and Lady Byng for the next crowded fortnight include luncheon with Sir George and Lady Perley, to meet the Canadian Premier on Friday, a meeting of the Victoria League at the Guildhall under the presidency of the Prince of Wales; a luncheon with the Duke of Connaught at Clarence House on the following day; dinner at Mr. Winston Churchill's to meet the Canadian Premier; dinner with the League of Nations, to meet the Dominion Premier.

A WOMAN'S ANSWER.

Willie "couldn't" understand the theory of evolution so he questioned his mother. "Mamma am I descended from a monkey?" "I don't know, son," she replied. "I never knew any of your fathers people." —Judge.

GOVERNMENT AT OTTAWA SHOULD RESIGN

Responsible government has its foundations in certain conventions, which are the outcome of political experience. One of these conventions imposes upon governments which have been given evidences that they are losing public confidence, the duty of laying down the reins of office without delay, to the end that the people may have the right to select a government which has their confidence.

Up to recently this convention had been carefully observed in Canada. When Governments lost a few by-elections, they soon made plans to go to the country. Also when governments found unexpected hostility to their measures developing in the country they seldom lost time putting their fate to the test of a general election.

But today we appear to be living under a new dispensation—one in which the first principles of representative government have no longer their old place and power in political life.

The Meighen government has lost most of the by-elections held since it assumed power. In the few cases where its candidates have been successful greatly reduced majorities were registered, indicating loss of public confidence.

Yet in face of the plain notices to quit, the Meighen government clings to power, cynically claiming that while it is able to command a majority in parliament it is justified in ignoring the dissatisfaction of the people.

But even the pretence it builds up on the possession of Union Government, and the Meighen Government has no majority in Parliament comparable to that of Union Government under the leadership of Sir Robert Borden.

Again the Meighen Government without any mandate from the people have put through measures which have aroused unparalleled storms of criticism throughout the country.

If the government had any respect for the decent conventions of public life it would resign, and give the people an opportunity to pass judgement.

LOST 29 POUNDS. DYSENTERY

Was the Cause.

Dysentery is one of the worst forms of bowel complaint, and hardly any other disease so quickly undermines the strength and brings about a condition of prostration and utter collapse that often terminates fatally. To check the unnatural discharge without bringing on constipation you should use that grand old remedy with a reputation extending of 76 years.

WILD STRAWBERRY.

Mr. G. H. McVagh, Mawer, Sask., writes:—"About eight years ago I had a severe attack of dysentery. I was sick for three weeks. I weighed 154 lbs. when I took sick and 125 when I got it stopped. I think I tried every medicine on the market, but did not find relief until I used Dr. Fowler's Extract of Wild Strawberry, and one bottle did it. I think there is nothing like it for diarrhoea or dysentery. I always keep some on hand as a person does not know when he will need it." Price, 50c. a bottle; put up only by The T. Milburn Co., Limited, Toronto, Ont.
