MANITOBA METHODS IN BY-ELECTIONS

Hon. Bob Rogers Has Shown His Hand in all Federal and Provincial Contests Held Since 1911--Gentleman's Agreement Was Violated in South Renfrew ---The MacDonald Outrage Still Fresh in the Public Mind---The Hochelaga Contest

Ottawa, Sept. 28.—It will be well for the people of Canada to keep their eye on Chateaugay and East Middlesex for the next few weeks. There has not been a single by-election since September 21st, 1911, that has not been marked by insolent disregard for all laws of decency and public opinion on the part of the Tory workers. Not even provincial by-elections have been allowed to escape the corrupted stream of Tory crookedness. It is not likely the coming by-elections will be more pure, save in so far as Liberal activity compels Hon. Mr. Rogers and his hirelings to stop their bribery and corruption.

This is a record of the Conservative government in by-elections since Hon. Mr. Rogers introduced "Manitoba Methods," devised by himself and Sir Rodmond Roblin for winning elections:—

THE MACDONALD INIQUITY

Macdonald, Man., Oct. 12th, 1912, generally regarded as the most openly and violently corrupt election that has occurred in Canada since Confederation. Not only was money spent by the Tories with reckless openness, but Liberal workers were dogged by detectives and bogus policemen, their baggage searched by gum-shoe workers and themselves intimidated. When these high handed methods failed, Liberal workers were actually arrested on trumped up charges, with blank warrants issued by partisan magistrates, and kept in jail, with all sorts of ill treatment, until the election was virtually over. The election was naturally been protested and the hearing of this protest is being staved off by every device at the command of the government workers and lawyers.

† SOUTH RENFREW

Renfrew South.—A "gentleman's agreement" by which Hon. G. P. Graham was to be allowed election without opposition was broken by the Tories and Mr. Borden's ministers made strenuous efforts to defeat Mr. G. P. Graham, with lavish promises of Public Works and promises of large expenditures under the proposed Highways Aid Bill for good roads throughout the county. Farmers of the various districts were told to elect the Conservative candidate and they would have \$500 spent in that particular district. Hon. Mr. Graham was elected, and south Renfrew got neither public works nor money.

RICHILIEU ROBBERY

Richilieu, Oct. 24, 1912.—While violence was not resorted to in this by-election as in Macdonald, the most open bribery was practiced, both individually and generally. Sir Rodolphe Forget, the famous Tory-Nationalist financier was sent to the riding as the personal emissary of Hon. Mr. Rogers. The people of Richilieu had long needed a railway, and this is what Sir Rodolphe Forget said as emissary of the Tory government and party—"I pledge you my word of honour that if you elect Mr. Morgan (the Conservative

MARKET UNDER PRESSURE

Tariff and Currency Legislation Seems to Have Sobering Effect

Further Bear Raids Are Expected to Force Further Liquidation of Standard Issues

New York, Oct. 1.—No new factor was disclosed yesterday to explain the renewed weakness of the stock market. It is true that expectations of a large cash distribution to Union Pacific stock holders ran high a week or ten days ago but the subsequent reaction had perhaps any pronounced speculative extension on this account. The virtual realization of promises in connection with tariff and currency legislation also exerted a sobering effect, but these matters were virtually discounted many months ago. It looks very much that the upward movement reached its objective point when the southern Pacific underwriting was successfully distributed and that since that time such stimulating news as has come to hand has been made the occasion of gradual profit taking by people who accumulated stocks several weeks ago. The market, therefore has proved more vulnerable to bear attack and it is quite possible that further raids from this source will force more

BROTHERHOOD OF ST. ANDREW

Twenty Eighth Annual Convention Opened in N. Y. Today

More Than Five Thousand Delegates From the United States and Canada in Attendance

New York, Oct. 1.—More than five thousand delegates, gathered here from many sections of the United States and of Canada and from a number of foreign countries, were in attendance when the twenty-eighth national convention of the Brotherhood of St. Andrew was called to order this morning at Carnegie Hall. The Brotherhood is a men's organization in the Episcopal Church, started twenty-five years ago, to pray for the spread of Christ's kingdom, and to make stated efforts to bring other men to Christ through the church. The organization has many thousands of members in America and in other countries.

The convention will continue through the week and will reach its close on Sunday next. There will be but two business sessions, while the rest of the time will be devoted to conferences on methods of work, inspirational meetings, devotional services, several mass meetings and the celebration of the corporate communion. Bishop Greer will preside at several of the conferences and other churchmen of note, who have come to New York to take part in the general convention of the Episcopal Church a week hence, will deliver addresses before the gathering of the Brotherhood. The mass meetings and the conferences will be held at Carnegie Hall, the meetings of the Brotherhood Council at the Church Club. The magnificent St. Thomas' Church, which is nearing completion, will be used for the first time for the great preparation service to be held on Saturday evening and the Communion Service will be held at the Cathedral of St. John the Divine, on Sunday morning. During the week there will also be services at the Church of Zion at the Church of St. Timothy and at several other churches. Noted preachers will occupy the pulpits at these religious services.

DIVORCED WOMAN SHOTS HUSBAND

Los Angeles, Sept. 30.—Rising the breakfast table to answer the door bell, Frank Ivy, a real estate dealer, was shot and fatally wounded today by his first wife in the presence of his second wife and their two babies.

After firing two bullets into her divorced husband Mrs. Ivy dropped the revolver. Ivy picked it up and fired at the woman as she ran down the street, the bullet striking her in the leg, she is now in jail.

The shooting according to all accounts was the result of a quarrel year-old daughter. The girl was given to the mother at the time of the divorce nine years ago. Recently the child was taken from the mother and sent to a reform school. Mrs. Ivy blamed her former husband for this and now has a suit pending against him in the superior court.

TWELVE DIVORCE CASES FOR OCTOBER SITTINGS

Twelve cases will be on the docket when the Divorce Court opens on the 28th inst. for the October term. This is a heavy docket and seems to indicate that the divorce evil in New Brunswick is increasing rapidly. Of this number three were heard at the July term of the court. They were Hawthorne vs Hawthorne, Leaman vs Leaman and Case vs Case. Three other cases which were filed but not heard in July were Astles vs Astles, Durning vs Durning and King vs King.

SUSSEX CASE.

The parties to another suit in which Fowler & Freeze are proctors reside in Sussex. This is the suit of Alberta Amelia Fenwick vs G. Burton Fenwick. The defendant is a butcher and according to the circumstances set out by the plaintiff who applies for alimony, is a man of means. The plaintiff, formerly Miss Alberta A. Creighton, was married to the defendant April 7, 1888, by Rev. S. Crisp, Methodist clergyman. The ceremony was performed in Moncton at the home of the brother of the defendant. Three children were born of the marriage. They are Mrs. George A. Coggin of Truro, N.S. Lawrence Burton Fenwick of Coal Branch, Kent county, and Ida Dorena Fenwick of Sussex. In July 25, 1912, on account of frequent reports of infidelity on the part of her husband and her own suspicions, the plaintiff left her husband. Previous to that time the defendant had told her he loved another woman and had shown her photographs that he said were those of the other woman. The plaintiff after leaving her husband, wrote him to the effect that she would return if he would conduct himself as a true husband should. To her letters she received no reply. On or about August 6, 1912, the defendant accompanied by his brother and another man, went to a place of ill-repute at Torryburn, near St. John, which is known as "Mrs. Perry's" and there had illicit relations with a woman unknown to the defendant.

SIX NEW CASES.

For the October term of the court the cases entered to date number six and are as follows:

Wheaton vs Wheaton.
Belyea vs Belyea.
McGee vs McGee.
Blizzard vs Blizzard.
Stevens vs Stevens.
Fenwick vs Fenwick.

In the application for alimony it is set forth that the defendant had an annual income of \$2,000 personal property valued at \$1,000, real estate at \$6,000 at Sussex and real estate at Welsford, Kent county, valued at \$1,000.

WORLD'S NEWS IN SHORT METRE

New York, Oct. 1.—Pennsylvania all lines, August net decreased \$1,038,000. Eight months net decreased \$5,776,000.

House adopts conference report on tariff measure by vote of 254 to 103. Cotton fixturs tax question rests with senate.

Hearings will be resumed this morning in government suit against Steel Corporation.

Howard Elliott before Boston Chamber of Commerce urges higher rates and places needs of system for fifteen months at \$115,000,000.

Erie re-asks public service commission to authorize issue of \$5,709,000 equipment.

National City Bank in monthly circular says distribution of crop funds failed to sustain market for U. S. bonds.

PENSIONS TO CONFEDERATE VETERANS

Jefferson City, Mo., Oct. 1.—The payment of pensions to Confederate veterans under the law passed by the Legislature of Missouri last winter, was begun today by State Auditor Gordon. Thirty thousand dollars have been appropriated and of the 1100 applications for pensions only 139 have been approved.

ST JOHN MAY BE MADE GRAND TRUNK TERMINUS

Portland May be Abandoned as the Winter Port of the Great Railway Corporation ---President Chamberlain Planning a Visit to St. John to Look Over the Situation---Mayor Frink Interviews Officials G. T. P.---Is Very Hopeful of the Outlook

Montreal Sept. 30.—The transportation of the terminals and offices of the Grand Trunk Pacific railways from Boston and Portland to St. John, (N. B.) enormous engineering and financial operation which would take at least three years to consummate, is under the serious consideration of the Grand Trunk executive officials, and Mayor J. H. Frink, of St. John, is in Montreal today in conference with them.

E. J. Chamberlain, President of the Grand Trunk, is out of the city and will be away for two or three weeks, but it was intimated to Mr. Frink in the course of a long conference with other officials this morning, that Mr. Chamberlain is to make a visit of personal inspection to St. John in the near future with a view to considering the maritime city as the site for the Grand Trunk terminals.

"The chief part of the business which was done in the conference," Dr. Frink told a representative of the Montreal Star, "was of a semi-private nature, and I am not at liberty to disclose the details until I have reported to my colleagues in the St. John City Council."

"I may state however, that the prospects for securing the terminals for St. John never looked brighter, and Mr. Chamberlain's promise of a visit to our city within, probably

the next two months, is a step which has given me much encouragement."

"I am confident, and most of my conferees in St. John are confident, that it will only need a careful and minute inspection of the advantages which our city offers the Transcontinental railway, to convince the president of the G. T. and G. T. P. that St. John is the future city of Eastern Canada and as such the logical terminal point for a Canadian railway."

"The improvements which are now under way in the port are such as to provide greatly additional facilities for shipping, and the public and city government of St. John have always been, and are, ready to lend whatever aid they can to new industries coming to the city."

"That the Grand Trunk will be of great advantage to the city and the whole extent of the Maritime Provinces, is, of course, indubitable, and I think we will be able to convince Grand Trunk officials just as surely that the advantage will be returned to them in kind."

Dr. Frink had a short conference today with officials of the C. P. R., and stated that the attitude of that company was very favorable to St. John. He is accompanied on his trip by Mrs. Frink, who will return with him tonight to St. John.

INSTALLATION CEREMONY AT LELAND STANFORD UNIVERSITY

Palo Alto, Calif., Oct. 1.—The trustees, the faculty and the undergraduates of Leland Stanford, Jr., University, and many alumni of that institution assembled early this morning at the university to take part in the exercises in honor of the installation of John Casper Branner, the new president of the university. As it had been the desire of the trustees to make the formal installation of President Branner a "family affair," no outside guests were especially invited for the occasion and not a single invitation had been sent to other universities and colleges when they were informed by the customary circular of the administrative changes at Stanford.

At the installation ceremony there were addresses by Timothy Hopkins, president of the Board of Trustees, President Branner and by representatives of the faculty, the alumni and the student body. After the installation exercises a luncheon was given by the trustees to the members of the faculty. The program for the rest of the day includes a reception in honor of President and Mrs. Branner in the afternoon and a social gathering arranged by the undergraduates.

John Casper Branner, who today became the successor of David Starr Jordan, the famous ichthyologist, as president of Leland Stanford, Jr., University, is a noted geologist and has been connected with that institution for many years. During the absence of President Jordan in 1898-9 Mr. Branner had been acting president and since then he held the position of vice-president. When President Jordan, who had been at the head of Stanford University since 1891, retired, Mr. Branner became his logical successor.

President Branner was born at New Market, Tenn., July 4, 1850 and studied at Cornell University and at Indiana University. He specialized in geology and from 1875 to 1877 was geologist of the Imperial Geological Commission in Brazil. The following two years he was assistant engineer and interpreter of a mining company at Minas Geraes, Brazil, and after that he made botanical studies

in Brazil for several years. For two years he acted as agent of the U. S. Department of Agriculture in Brazil. After his return to the United States he became topographical geologist of the geological survey of Pennsylvania. From 1883 to 1885 he was professor of geology at Indiana University; from 1887 to 1893, state geologist of Arkansas and in 1892 he became professor of geology at Leland University. He is a member of many learned societies, the author of a number of books and many articles on geological subjects and has been honored with honorary degrees by several universities and colleges.

NOTED GIRL SWIMMER MARRIED

Boston, Mass., Oct. 1.—Miss Alsie Akroyd, the noted swimmer, who two years ago established the record of being the first girl who ever swam to Boston Lighthouse, was quietly married here today to Daniel O'Rourke, a supervisor in the Boston park department.

BOB ROGERS WILL CURB COL. HUGHES

Ottawa, Sept. 30.—Militarism and the political machine, as represented in the present government by Col. the Hon. Sam Hughes and Hon. Robert Rogers, are not pulling together very well at present.

Mr. Rogers is holding up some of Col. Hughes' large plans for drill hall construction this year. The minister of public works, while not at all averse to any governmental ex-
