TUESDAY, MARCH 22, 1921

JUDGE WILSON'S RETIREMENT.

The retirement from the bench of Hon. William Wilson after twenty-three years of faithful service, will be a matter for sincere regret to the people of the river counties among whom his name is almost a household word. Hon. Mr. Wilson has devoted more than one half of a long life to the public service, and goes into retirement with the best wishes of all classes of the population. As a Municipal Councillor, Secretary Treasurer of the Municipality of York a representative of the County in the legislature and subsequently as county court judge he always displayed great energy and ability and few men possessed in a greater degree the capacity for making friends. As a political campaigner when, in his prime, he had few equals in this province and it is doubtful if the County of York ever produced a man who could better take care of himself in a controversy on a public platform. Although his public duties were exacting he always felt that he owed a duty to the community, and even his worst enemy must readily admit that he has been no slacker in that regard. As an after dinner speaker Judge Wilson has few equals and no superiors in this province. He possesses the happy faculty of being able to tell a fine story finely and during his career he has frequently been called upon to inject life into gatherings of a social nature which otherwise might have been sadly lacking in that essential. His services as a public lecturer were frequently in demand and cheerfully given, often at considerable personal inconvenience. During the late war he was particularly active and the numerous recruiting meetings and gatherings of a patriotic nature furnished splendid scope for the exercise of his ability and force as a platform speaker. As a Judge he discharged his important duties in a fearless and conscientious manner, was just as fair in his decisions and always tempered justice with mercy. His judicial record is one of which he has no reason to be in the least ashamed.

Judge Wilson retires from official life with the best wishes of all classes in the community and it will be their sincere hope that he will be long spared to enjoy the quietness and relaxation which is his due after a long and faithful public service.

THE MARKETING PROBLEM

Leader Baxter in the course of his speech on the address in the Legislature remarked that it used to be felt that if the government devoted its efforts to the encouragement of agriculture the market problem would take care of itself. This sounds very nice but the plan outlined was not always followed when Mr. Baxter's friends were in power. On one occasion, it will be recalled, they grappled with the problem of marketing some "surplus potatoes" in Cuba, and made such a terrible mess of things that before the job was finished Mr. Baxter found himself separated from three thousand dollars in coin of the realm, not to mention other disastrous results. The present government has not allowed the market problem to take care of itself. Soon after coming into power they sent the provincial horticulturist to Montreal to find a market for surplus apples and small fruits and he was so successful that thousands of dollars worth have gone forward to the commercial metropolis each year from this province since that time. This is only one of several instances in which the government has assisted the farmers of the province in solving the marketing problem.

Congratulations to J. K. Pinder, M. P., the veteran of York on his elevation to the position of Deputy Leader of His Majesty's Loyal Opposition in the Legislative Assembly. When his party was in power and had favors to bestow Mr. Pinder had difficulty in getting a look in, but now when he sits in the cool shades of opposition he can have almost anything he wants for the asking. Mr. Pinder led the poll in York at the last election and at a recent convention called to nominate a candidate for the federal parliament he put it all over the faction which used to worship at the shrine of the late Col. McLeod, M. P.

"The Most Wonderful Man in London," in the opinion of a writer in the "Daily Graphic" is the Constable on

point duty at a very dangerous four-road point close to the King's Cross Station. "I watched him with breathless interest for ten minutes. With complete aplomb he semaphored the traffic and even the irate wagoner seemed to have a smile for him. He courteously answered every question fully and clearly, when the questioner was a woman he found time to give her a military salute. And there was never a hitch in the flow of traffic. A remarkable man."

An Order in Council was passed at Ottawa on March 9th, retiring Judge Wilson. No successor was appointed and ten days were allowed to elapse before he was notified and then the notification was sent by wire. In the meantime, after being officially retired he held court and tried several important criminal cases. Hon. Mr. Wigmore, the New Brunswick Minister ought to be taken out of the cabinet and sent to a boarding school. As a cabinet minister he is certainly a joke.

The government at Ottawa has a peculiar way of doing things. It passed an order-in-council on March 9th retiring County Court Judge Wilson, but neglected to name his successor. It is known that at least two well known lawyers in this city were ready to take the position, but for some reason an appointment was not made. Have the grouchers of the party who have been sore ever since their turn down at the big convention here in February been able to hold the matter up? It certainly looks that way.

A military short course of instruction is now being carried on at St. John with upwards of sixty candidates in attendance. In the meantime the barracks in this city owned and maintained by the government at large expense, is permitted to remain idle. It is almost time another delegation was being sent to Ottawa to enquire into the matter.

Lost, strayed or stolen, the writ for the Federal by election in York-Sunbury. When last seen was en route from Ottawa in company with a County Court judge. Information will be thankfully received by interested parties in the Chestnut Building, Queen Street.

THROUGH OUR SIEVE

Germany doesn't get much sympathy from the man who has just paid his income tax.

A real skeptic is the fellow who won't believe in a fresh paint sign until he's tasted the paint.

Judging from the price tags on spring shoes the cut will not prove fatal.

Hard, persistent, sweaty work in the garden will make the pictures in the seed catalogue come true.

Nearly every man who hasn't a million dollars lies when he tells what he would do if he had a million dollars.

Lima Beane says the woman who doesn't talk, talk, talk feels that she is cheated out of her share of the conversation.

They used to say it was no disgrace to be poor but that it was very inconvenient. Finally the income tax collector made poverty convenient.

"Strange thing about the fellow who blows his own horn," remarked the Man on the Car, "is that he expects an encore."

Russian news will be more interesting when it gives the world a story about the capture of Lenin and Trotsky while they were trying to escape with the loot.

Add results of war—short skirts. This is the opinion of the dean of women at Northwestern University. Now what? It may require another world war to lengthen skirts. The poet was right—life is real, life is earnest.

ZION CITY COP TASTES BEER

Zion City, Ill., March 22—Theodore Becker, chief of police here and a member of the Christian Catholic Apostolic Church in Zion, tasted beer recently for the first time in twenty-three years.

"I had to taste it in order to test it," he explained. "In my opinion it contained more than one-half of 1 per cent of alcohol."

The beer, according to the chief was found in the home of R. McConsay, who has been watched closely by the police since he was arrested some time ago for smoking tobacco on the

VANCOUVER BEAT OTTAWA IN FIRST GAME

Score 3 to 1 Before Ten Thousand People—Toronto Varsity Wins the Allan Cup.

Vancouver, B. C., March 21—A crowd of 10000 fans gathered tonight to witness the first hockey game of the world's series and the Stanley Cup between Ottawas of the National Hockey League and Vancouver, of the Pacific Coast Hockey Association. Despite the mild weather the ice appeared very keen.

All reserved seats were sold early and many disappointed enthusiasts were this afternoon offering large sums for tickets.

In the first period after fifteen minutes and forty seconds' play, Skinner netted the first goal for Vancouver. Duncan of the westerners scored the second two minutes and thirty-five seconds later.

In the second period after one minute and thirty seconds' play, Harris scored the third and last goal for Vancouver. The only goal made by Ottawa was netted in this period by Darragh after fourteen minutes and thirty-four seconds' play.

There was no scoring in the third period and Vancouver won by a score of three to one.

Toronto Varsity Won

Winnipeg, March 21—The Allan Cup trophy which represents the amateur hockey championship of Canada, has been won by a team representing the University of Toronto. Tonight they defeated Brandon, 8 to 1. Last Saturday night, Brandon won by two goals to nothing and the result is determined by the majority of goals scored in the two games.

CREEPS INTO THE SYSTEM JUST LIKE A SERPENT.

Like a thief in the night it steals through the system—that's how Catarrh acts, on't trifle with such a scourge. Time and experience have proved that Catarrh is a wonderful remedy for all Catarrhal and Irritable troubles. You don't take any drugs, you just inhale the sweet soothing vapor of Catarrh which is laden with balsamic essences that heal, relieve and ease the sufferer. To strengthen the throat, to sweeten the breath, to stop nasty discharges, to drive out Catarrh, colds and weakness in the throat, use Catarrh. Two months' treatment one dollar, smaller size 50c., all dealers, or the Catarrh-ozone Co., Montreal.

BUSINESS ON THE UP GRADE IN THE U.S.

Washington, D. C., March 19—After two hours in the Cabinet room with his advisers President Harding spent half an hour today in conference with the newspaper correspondents outlining the substance of the discussion so that the American people might know the problems tackled and the progress made by the stewards of Government.

One of the things that gave to the President particular encouragement was that his recent conference with business men of the country, including James A. Farrel, had brought a conviction that the low ebb of business depression in the United States had passed and that increasing activity with less unemployment, is to ensue.

Business leaders of the country have told the President that conditions in the immediate future will see a slow improvement and revival of trade and industry. War readjustments are down to a settled basis.

With his Cabinet the President went over business and industrial conditions and the executive and legislative aid that will be necessary. This led to a discussion of foreign commerce, and it was agreed that the legislation recently passed to aid American trade would not meet the situation because of changing conditions, both economic and political. That the President and his advisers are keeping in close touch with economic conditions at home and with foreign trade problems that directly affect the commerce and industry of this nation through their influence on productive activity was made plain by the President following the conference.

BANK ROBBERY AT DETROIT

Syracuse, N. Y., March 21.—One boy was killed and six others injured to-

street in violation of the city's anti-tobacco ordinance. Chief Becker said he found a two quart jug nearly full of beer in McConsay's home.
