**WAS SUBJECT TO  
SEVERE BRONCHITIS.**

Doctors Only Gave Temporary Relief.

**Dr. Wood's  
Norway Pine Syrup  
CURED HIM.**

Bronchitis is generally the result of a cold caused by exposure to wet and inclement weather, and is a very dangerous inflammatory affection of the bronchial tubes. Neglected bronchitis is one of the most general causes of consumption, so cure it at once by the use of Dr. Wood's Norway Pine Syrup.

Mrs. C. G. Dring, Hamilton, Ont., writes:—"Our little boy has been subject to severe bronchitis ever since birth, and different doctors claimed to be only able to relieve him temporarily. A neighbor advised us to use Dr. Wood's Norway Pine Syrup, so I got a bottle, and after the third dose noticed a decided change, so kept on with it, and a couple of bottles were enough to completely cure him. Now we always keep a bottle on hand, and give it to him as soon as we notice him troubled with a cold, after which it disappears as if by magic. We recommend it to all our friends who find it is just as good as I say."

Price, 25 and 50 cents a bottle. "Dr. Wood's" when you ask for it. Put up in a yellow wrapper, three pine trees the trade mark, and manufactured by The T. Milburn Co., Limited, Toronto, Ont.

**LIVESTOCK NOTES**

The well trained work horse always has another pull coming and doesn't mind it at all if the pulling doesn't hurt his shoulders.

A stiff scrubbing brush is a very good thing to clean dirt from the horse's legs.

If you are buying a horse, get him on a slow trot. Then, if ever, he will show any lameness he may have. Did you ever think that grabbing sheep by the wool makes a sore place on their bodies? It surely does; don't do it.

If our cattle could do to us as we do to them, what a lot of sore shins and broken ribs there would be on the farms of this country!

Full blood or grade swine will pay a handsome dividend. They cost more at the start, but are very satisfactory in the long run.

There is in some parts of New Ontario a reversion to the use of oxen. Well-mated and properly broken they make a reliable farm team, and can be turned off at a good profit when the outdoor work is over.

**They Taboo Mirrors**

There is a sect in Holland known as the Lab-dists, among whose members the use of mirrors is strictly prohibited. Their founder, Jean de Labadie, a seventeenth century Calvinistic minister, attracted many followers, but after his death they dwindled down, and now they are found only in a few remote villages of Friesland. Travelling in Holland in 1893, Lecy lit on a colony of Labadists. "Intermarrying mainly among themselves," he wrote, "they have quite a distinctive type—a singularly beautiful one, with their delicate lips and a curious air of refinement. They are fishermen—very prosperous—and their houses, with their china and silver ornaments and prints of the house of Orange, and great Bibles with silver clasps and perfectly preternatural neatness, are very interesting to see."

Sold on the Merits of Minard's Liniment Beware of Imitations

**COLLECTED DEBT  
BY PARCEL POST**

New Orleans, La., Dec. 12—Using the parcel post for a collector of overdue debts, is a novel method adopted by a merchant of Napoleonville, La. The merchant forwarded a C.O.D. parcel to a debtor at Thibodeaux, La., with \$1.90 charges. Paying the charges, the debtor opened the parcel and found a receipt for \$1.90, the amount he owed the merchant. The matter was reported to the post office inspectors.

**THE ANIMALS' HEALTH!**

Dwellers in the Toronto Zoo Make Good Patients

"A long way the healthiest animal here," said Mr. F. Goode, superintendent of the Riverdale Zoo, Toronto, "is the elephant. We have had her about ten years, and she has only been sick or sorry once in the last five years, and then she had only a slight cold."

Speaking generally, Mr. Goode was of the opinion that the denizens of the Zoo made good patients. The great majority of them, he was convinced, are more insensible to pain than are human beings. And they have nothing like the same apprehension of death or suffering. To this rule, however, he made some exceptions. A sick monkey, he said, was one of the most pity-stirring sights of the world. To see a monkey die was piteous in the extreme. It showed just the same kind of feelings as a human being does.

"I should say that the leopard is the most delicate of the animals we have here. He has a shorter coat than either the lion or the tiger, and a cold wind affects him. We lost a leopard two years ago from pneumonia. That is really the chief disease of which we stand in dread. On the whole we are extremely free from illness at the Zoo.

"Black and brown bears give very little trouble. They are naturally strong. And when they are feeling not quite up to the mark, they will drink cod liver oil freely out of a cup. "Beavers are healthy, as well as industrious. But they fight like fury. Where a male and female are together, and have a family, and found a colony, they are all right. But put in a strange beaver among this colony, and they will kill him inside of twenty-four hours. They will cut his tail off, and tear holes in his back. And all this will be done under water. Beavers can stand any amount of pain. I have known a beaver badly mauled, and gangrene set in until half of him was really dead. And yet he would still keep on diving."

**A Winged Ambulance**

A hunter of North Battleford, told a story about a goose which he wounded and which was apparently about to fall to the ground. It was actually supported by two of its mates, who, upon seeing the predicament flew underneath the bird in distress so that their wings on the upward flap would reach the injured member of the flock. In this way, remarkable to relate, the three geese—the ambulance and the patient—reached the river in safety.

While the hunter could easily have picked off the whole three geese with the second volley, he was prevented from doing so by the remarkable demonstration of brotherly kindness in the care of the injured goose. The ingenious method which was employed by the members of this ambulance corps seems to prove conclusively that sometimes a goose is not a goose!

**HAND RAILS ON LADDER**

Give Person Sure Footing in Ascending to Top Steps

People who have had occasion to use tall stepladders know how difficult it sometimes is to keep their footing in ascending to the top steps, particularly if they have a bucket or some other burden in one hand. A pair of hand rails effectively overcomes this. Along the upper part of the sides of the ladder are attachments, on each of which swinging arms are pivoted. To these arms, in turn, railings are pivoted so that when needed the rail

ings can be pulled out to form a guide and support to a person ascending the steps, and when not needed they can be folded in along the sides of the ladder. Painters or paperhangers will find this attachment a great help and need not worry about a tumble. Housemaids, too, will be able to climb to the top of the ladder and wipe the ceiling without any further excuse.

**When "Work" Becomes "Labor"**

There's Something Wrong,  
Dr. Morse's Indian Root Pills Will Right It.

Thousands of Women feel just like this.

When it seems as if you simply could not bear up any longer it is high time to look for the cause of the trouble—and the remedy. In an astonishingly large number of cases the real cause of woman's misery is found to be constipation, and the remedy that always cures is Dr. Morse's Indian Root Pills.

Neglect of the daily movement of the bowels, so necessary to health, soon poisons the whole system from the impurities retained in the body. Headaches, indigestion, biliousness and lassitude follow, and often more serious female disorders are brought on or aggravated.

Dr. Morse's Indian Root Pills not only regulate the bowels, but they stimulate kidneys and skin as well to throw off waste matter and purify the blood. The result is quickly apparent in the disappearance of the headaches and biliousness, and the return of health and vigor. Thousands of women all over the world owe their present good health to Dr. Morse's Indian Root Pills.

Made by W. H. Comstock Co., Ltd., Brockville, Ont., and sold by all dealers at 25c a box.

**PIPES AND PIPERS**

There is hardly a country in the world where the pipe is not smoked in one form or another.

The Kaffir loves his pipe, and, failing the genuine article, will use anything that will hold tobacco—from a piece of iron piping to a cow's horn. When not even these are available he will use the earth! He does this by making a small hole to hold the tobacco, from which he makes a passage for the smoke by pushing a curved piece of wire through the ground. He then lies face downwards, applies a light to the tobacco, and his lips to the ground, at the spot where he has withdrawn the wire, and smokes in peace.

In many villages of the north-west provinces of India are to be found public hookahs for the use and comfort of travellers.

Everyone has heard of the North American Indian's pipe of peace. General Blucher's pipe-smoking was of a very different character. He appointed a man to the post of "pipe-master" whose duty it was to fill a long clay pipe and hand it to the general before every engagement. Blucher would then enjoy a few whiffs, give back the pipe, and gallop into the fighting line.

**World's Coldest City**

The coldest city in the world is said to be Verkhoyansk in northern Siberia. The average annual temperature is eight degrees above zero, and the winter record is eighty-five degrees below zero. The rivers freeze solid to the bottom, small trees snap and split from the cold. Yet in summer the temperature averages fifty-nine degrees above zero and vegetation flourishes, though the ground a few feet below it never thaws out.

**JEAN DUBUC TO HANE  
KNEE OPERATED UPON**

Jean Dubuc, the Detroit star twirler, who has been laid up at the Western Hospital for some time past suffering from water on the knee, was successfully operated on Friday afternoon. It will be some time, however, before Jean is able to leave the institution.

Dubuc sustained the injury while playing the outfield in an exhibition game near Buffalo. He slipped and fell while running for a fly ball, seriously twisting his knee.
