## Baseball in Prison

The American passion for baseball has been turned to good purpose at a Delaware prison. The warden decided to gratify the inmates' love of the sport as a reward for conduct. All prisoners who obey the rules and observe the discipline of the institution are permitted to play or witness the games. While armed guards patrol the top of the wall about the exercise-yard where the sports are held, they have not been called upon to quell any trouble.

## SQUARE MAKES CIRCLE

Seemingly Impossible Performance Accomplished by a New Tool

The seemingly impossible achievement of making a circle by means of a square is accomplished by a new device which has been lately patented. A view of this implement is given herewith and anyone who may be the least bit familiar with the construction and use of a T-square will see at once how it is done and also the advantages of the improvement.

HOW A CIRCLE MAY BE MADE WITH A SQUARE.

A flat, graduated rule has a socket at one end, designed to hold a point such as a piece of lead or lead pencil, and the length of the rule is traversed by a metal slide, designed to be secured at any point and adapted to perform the ordinary functions of a square. The slide is supplied with a projecting point which is used in making the circle in conjunction with the lead or pencil point, as shown in the illustration.

## DOGS OF THE WILD

Australian Dingoes or Wild Dogs Easily Domesticated

Although the highest authorities agree in stating that the dingo was at some remote period introduced into Australia, and that it subsequently reverted to a wild state—like the "wild" horses of the Andes—there are still those who regard this dog as one of the original wild dogs from which our domestic dogs are descended. In any case, the breed is one of very great antiquity, and therefore of the highest interest to all dog lovers.

The dingo is about the size of a collie and much resembles a wolf in appearance and habits, but he is much more easily tamed. Those who know him best are warm in his praise, declaring that the dog may not merely be tamed, but is capable of readily acquiring useful habits, and of becoming a good companion. Even his voice alters as he comes under the influence of domestication. In course of time he learns to bark, an accomplishment unknown to the dingo of the wild.

The Denver pony finally got the gray Canadian.

The BOSTON AND MONTANA DEVELOPEMENT COMPANY, authorized capital 3,000,000 shares, par value \$5.00 each, is a consolidation of large copper mining properties in the famous French Gulch District, Deer Lodge County, and the Elkhorn District in Beaverhead County, Montana. The Company has taken over all the developed and known valuable claims in these districts, and to insure the permanent and economic development of which it will build a standard gauge steam railroad, to be known as the BUTTE, WISDOM AND PACIFIC RAILWAY, running up the Big Hole River to Ralston, Wisdom and Jackson, with branch lines extending to the French Gulch Mines and up the Wise River to the Elkhorn Mining District. In addition to furnishing transportation for the great quantities of copper-bearing ore from the French Gulch and Elkhorn Districts, this road will furnish transportation facilities to the entire territory known as the Big Hole Basin, the richest and most extensive agricultural, timber and mining District in the State of Montana, now without the benefit of railroad facilities. The Company owns water rights from eight streams in the French Gulch territory, with approximately fifteen miles of ditches and flumes, also large acreage of virgin timber.
