

Refining Canadian Gold
The amount of Canadian gold being submitted to the refining process at the Ottawa branch of the Royal Mint is increasing year by year. The value of gold refined last year was \$1,688,823.

Shoots Ray of Light
For frightening burglars there has been invented a flash light that resembles a magazine pistol, but which shoots a ray of light when the trigger is pulled.

Cold Mining Work
The problem of handling ore at a temperature as low as 50 below zero has been solved in Alaska by building ore cars with steam pipes in their bottom.

MISSED COBALT'S RICHES

Old French Voyageurs Knew of One Mine 150 Years Ago

That the old French voyageurs and missionaries knew of the existence of at least one mine old maps show beyond dispute. If they had extended their researches for minerals beyond the waterways and had happened upon the silver mines at Cobalt what a difference it would have made to the probable destiny of the Dominion?

The discovery of Cobalt a century and a half ago was quite within the realms of possibility, says The Cobalt Nugget. There was an old Indian trail with a few feet of Long, now Cobalt Lake, and where the Indian was wont to go, there too, the French voyageur could and did follow him. There would have been no difficulty in mining the ore. It was right on the surface and could easily have been mined and taken down in boats to Quebec. Then would the world have been astounded with the glamor of a silver Eldorado in the heart of Canada. The French king would have taken more pains to conserve the country which his predecessor had valued as so many arpeps of snow and the destiny of the Dominion might have fallen along quite other lines.

Blunders in Book Titles

Nothing so taxes the ingenuity of the bookseller as phonetic endeavors to get at the name of a book. Who but a genius could conceive that by "Within or Outside the Pall" was meant "Beyond the Pale," or that by "The Forgotten Cigar" a customer meant "For God and the Czar?"

Even Mr. Bullen would be puzzled by a reference to "Screws of the Cash Lock" for "The Cruise of the Cachet." Some other amusing blunders are "She Strips to Congo" for "She Stoops to Conquer," "Hero of the Week" for "Hereward the Wake," "Lined Pockets" for "Lying Prophets," and "Bad Acre of Greece" for Bader's "Greece."

EVERY WEAK THROAT QUICKLY STRENGTHENED AND BRONCHITIS CURED

Grand Results Follow the Direct Breathing Remedy, Which Cures Without Drugging

The country is simply wild over the wonderful cures of chronic asthma that are being made every day by Catarrh-ozone. It is a scientific surprise, a perfect marvel the way it brings old chronics back to health. You will say so yourself after you have used it once, say so after the very first time. Ever since people first began to have asthma, Catarrh-ozone is certainly the best remedy discovered.

Cresighton E. Thompson, well known in Calgary, writes:—"Nothing too strong can be said for Catarrh-ozone. I suffered four years from asthma in a way that would beggar description. I went through everything that man could suffer. I was told of Catarrh-ozone by a clerk in Findlay's drug store and purchased a dollar package. It was worth hundreds to me in a week and I place a priceless value on the benefit I have since derived. I strongly urge every sufferer to use Catarrh-ozone for Asthma, Bronchitis and Catarrh."

The one dollar package lasts two months; small size, 50c.; sample size, 25c.; all storekeepers and druggists, or The Catarrh-ozone Co., Buffalo, N.Y., and Kingston, Canada.

Sense and Nonsense

Don't cry over spilt milk; be glad it isn't cream.

Advice can usually be had for nothing, and is often worth less.

Tombstones are about the only things that speak well of a man when he is down.

The cooling stone with the honey-moon, but the billing goes on for ever. It is poor consolation to the girl who has been stung by a bee to know that bees are partial to sweet things.

The Paris police have been supplied with special pistols containing suffocating gas, by means of which they can stupefy a man and so prevent loss of life. There will, of course, be no escape with this gas.

ADVERTISING TALKS.

One hundred cents make one dollar.

Yet when you spend your dollar how efficient is it? Do you get 60c., 80c. or 100c. worth?

The answer is squarely up to you. It depends upon your method of spending.

If you are alive and interested in finding out for yourself the "what, when and where" of money spending, every purchase, every investment you make brings you the fullest possible returns for your dollar.

The man or woman who reads advertising intelligently and continually makes a dollar do its full stint of work.

If you are not already a careful reader of Mail ads begin today and be one.
