

GENERAL BOOTH AT S. A. CONGRESS

New York, Nov. 19.—The largest gathering of Salvation Army officers ever assembled in the United States greeted General Bramwell Booth, the head of the Salvation Army of the World, today when he called to order the Salvation Army Congress which has been called together for a session of five days for the purpose of considering many important problems growing out of certain changes in the existing conditions of the United States and out of the tremendous growth of the American branch of the Army, which is now far greater than any of the other branches. BIG SURPRISE TO MANY IN FREDERICTON

Local people are surprised at the QUICK results received from simple buckthorn bark, glycerine, etc., as mixed in Adler-ika, the German remedy which became famous by curing appendicitis. Mr. George Y. Diblee states that this simple remedy draws off such a surprising amount of old foul matter from the body that A SINGLE DOSE relieves sour stomach, gas on the stomach and constipation INSTANTLY.

the Salvation Army in the United States and nearly all the prominent members of her staff, are in attendance and also a number of the army officers and officials from England, who accompanied their chief to this country. Many questions of great importance to the Salvation Army in the United States are to come up for consideration and it is believed that an effort will be made to introduce new business methods which have become necessary owing to the enormous growth of the organization

CHANCE TO GET SEED, GRAIN AND POTATOES

By instructions of the Hon. Minister of Agriculture a distribution of superior sorts of grain and potatoes will be made during the coming winter and spring to Canadian farmers. The samples for general distribution will consist of spring wheat (5 lbs.), white oats (4 lbs.), barley (5 lbs.), and field peas (5 lbs.). These will be sent out from Ottawa. A distribution of potatoes (in 3 lb. samples) will be carried on from several of the experimental farms, the Central Farm at Ottawa supplying only the provinces of Ontario and Quebec. All samples will be sent free, by mail.

Applicants must give particulars in regard to the soil on their farms, and some account of their experience with such kinds of grain (or potatoes) as they have grown, so that a promising sort for their conditions may be selected. Each application must be separate and must be signed by the applicant. Only one sample of grain and

WAS TROUBLED WITH Weak and Dizzy Spells.

Heart Would Beat Something Awful.

Those feelings of weakness, those dizzy spells which come over people from time to time, are warnings that must not go unheeded.

They indicate an extremely weakened condition of the heart and a disordered state of the nerves. One dizzy spell may pass off, but eventually they will come frequently, and at the same time more serious.

Those who are wise will start taking Milburn's Heart and Nerve Pills before their case becomes hopeless, for they have no equal for restoring the heart to its usual strength, and making the nerves firm and steady.

Mrs. Len. Kinney, Moose Mountain, N.B., writes:—"I was troubled with weak and dizzy spells, and my heart would beat something awful. I got so I had those spells every day. I got so I would try one medicine, and then another, but nothing did me any good until I got Milburn's Heart and Nerve Pills. I can safely say they did me more good than anything I ever took, for I feel like a very different woman. My friends often ask me what I have been taking, and I always say 'Milburn's Heart and Nerve Pills.' I tell all my friends who say their heart troubles them, to take your pills."

Price, 50 cents per box, or 3 boxes for \$1.25, at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

one of potatoes can be sent to each farm. Applications on any kind of printed form cannot be accepted. If two or more samples are asked for in the same letter only one will be sent.

As the supply of seed is limited, farmers are advised to apply early, but the applications will not necessarily be filled in the exact order in which they are received. Preference will always be given to the most thoughtful and explicit requests. Applications received after the end of January will probably be too late.

Applications, for potatoes, from farmers in any other province should be addressed (postage prepaid) to the Superintendent of the nearest Branch Experimental Farm. J. H. GRISDALE, Director, Dominion Experimental Farms.
