ESTEEMED LADY PASSES AWAY AT LAKE GEORGE

Lake George Nov. 14—The funeral of Alice Irena beloved wife of Mr. William Donnelly, whose sudden death occurred Nov. 3, was largely attended. High Mass of Requiem was celebrated by Rev. Father Cormier of Central Kingsclear in the presence of many grief-stricken and sorrowing friends. She leaves besides a kind and loving husband to mourn her less her parents, Mr. and Mrs. M. G. Murphy of New Glasgow, N. S., and two sisters Mrs. Joseph Donnelly and Miss Wdna of this place. Much sympathy is felt for the grief-stricken, many tears were shed and comforting words extended.

IN MEMORIAM

A chair is vacant in her home,
Her gentle voice now still;
A place more vacant in our hearts
That ne'er more can be filled.

For she is gone, the one we loved,
That treasured form laid low
And only those who proved her true
Her tender love will know.

For kind and gentle was her hand
Most gentle was her voice;
How gladly we would keep her here
Could we but had our choice.

Yet often we will think of thee
And the dear old days gone by,
And our hearts will fill with saddest
Beneath the ebbing sky.

Oh when the sun is sinking low
To entrance the night from day,
Our saddened hearts in thought will
go
Where thou art laid away.

For thou wert loved both far and
wide
'Twill rent more hearts than mine
To know that death has laid thee low
My gentle Alice I.

No more we'll hear that loving voice
Or see that radiant smile
'Twould fill your heart with love and
joy
To talk with her awhile.

In vain we look back on the past

G. W. HARRISON, Manager. FREDERICTON BRANCH,

NEW BRUNSWICK LED IN POTATO YIELD

Ottawa, Nov. 17—The census and statistics office has issued today the usual bulletin upon agricultural conditions throughout Canada, as reported by correspondents at the end of October.

The total area under root and fodder crops (potatoes, turnips, man-golds, etc., hay and clover, alfalfa, fodder corn and sugar beets) is placed at 816,930,000 acres, and the total value of the products from this area at \$187,399,100. The estimated total yields and values of these crops are:

Potatoes, 76,720,000 bushels, value \$37,279,000.

Turnips and other roots, 73,090,000 bushels, value \$20,103,000.

Hay and clover, 10,050,000 tons, value \$114,789,000.

Fodder corn, 2,436,300 tons, value \$11,273,500.

Alfalfa, 251,700 tons, value \$2,895,000.

Sugar beets, 161,000,000 tons, value \$959,000.

The average yields per acre for the Dominion are reported as 165.85 bushels for potatoes as compared with 172.19 bushels last year; 354.12 bushels of turnips and other roots as compared with 402.51; 1.32 tons for hay and clover as compared with 1.47 tons; 8.64 tons for fodder corn as compared with 10.26, and 2.44 tons for alfalfa, as compared with 2.79.

It will be recalled that last year's wet season was especially favorable for roots and fodder crops.

In quality all these crops are marked as about 90, or above 90, per cent. of the standard, excepting fodder corn, which is 85.

The potato yield is highest in New Brunswick, 244 bushels, and lowest in Ontario, 119 bushels.

Dr. Morse's Indian Root Pills

are not a new and untried remedy—our grandfathers used them. Half a century ago, before Confederation, they were on sale in nearly every drug or general store in the Canada of that day, and were the recognized cure in thousands of homes for Constipation, Indigestion, Biliousness, Rheumatism and Kidney and Liver Troubles. Today they are just as effective, just as reliable as ever, and nothing better has yet been devised to

Our teacher, Miss Wiggins, is practicing for a Xmas tree and concert.

In vain Ye call for thee
That art gone, so young a life,
How hard it seems to be.

And as I walk along the path
So oft we used to roam
Then up the hill and down the lane
To the place that you called home.

'Tis then our hearts are filled with
pain
For none was hearer to our hearts
Than she we loved so well.

When night will throw her curtains
back
And stars begin to shine
Beside the grave we'll set and wait,
My darling Alice I.

And thus we'll plant in tender seed
The flowers of love to grow
For ne'er forgotten you will be
Where death has laid to rest thee low.

BURDOCK BLOOD BITTERS CURED A BAD ATTACK OF ECZEMA.

All skin diseases such as Eczema, Salt Rheum, Tetter, Rash, Boils, Pimples, and Itching Skin Eruptions, are always caused from the blood being in a bad condition, and it is impossible to eradicate them from the system unless you put your blood into good shape. This you can very easily do without the slightest trouble by using Burdock Blood Bitters.

It drives out all the humor from the blood, and makes it pure and rich, and not only are the unsightly diseases removed, but a bright clean complexion produced, and the entire system is renovated and invigorated at the same time. Mrs. G. A. Day, Somerville, N.B., writes:—"Last spring I had a bad attack of Eczema. I tried several patent medicines as well as the medicine of a physician, but they seemed to make the disease worse. I was advised to try Burdock Blood Bitters, and I did so with the result that in two weeks time the sores began to disappear. I continued to take it until I had taken three bottles and they worked a complete cure."

FARMERS WILL BE DISAPPOINTED

(St. John Telegraph)

A farmer who recently visited Fredericton, and saw a considerable quantity of grain lying on the field on the experimental farm, completely ruined, wants to know if farmers generally are expected to do the same with their grain. He says he understood the experimental farm was established to teach the farmers the right way to raise grain of the right kind. He understood also that seed grain would be distributed from the experimental farm, and he is wondering whether the seed of the particular grain which he saw would be considered of the right quality.

"I am not finding fault, you understand," said this farmer, "but merely calling attention to what strikes me as peculiar. I think we had all been led to expect that the Borden government and the St. John Standard could produce the finest quality of weather or anything else at any time, in any part of the country, but especially on an experimental farm. We're quite disappointed."
