Buffalo, N. Y., Aug. 25.—The fourth International Congress on School Hygiene, for which preparations have been making for many months, was opened in this city today with an attendance remarkable for its size and representative character. While the majority of the delegates, as was to be expected, come from the United States and Canada, there are many and eminent representatives here from the nations of Europe. Noted educators, scientists, physicians, health officers and civic welfare workers to a total running onto the hundreds have registered. For an entire week they will exchange views and listen to papers and addresses on every important phase of work having to do with improving the health and efficiency of school children.

The present meeting is the fourth triennial session of the International Congress on School Hygiene. The congress was organized at Nuremberg in 1904. The second meeting was held in London in 1907 and the third in Paris in 1910. Twenty-five nations have membership on the permanent international committee of the congress.

Among the topics that will be considered by the congress during the week are the following:—The relation between school hygiene and home conditions, rural school hygiene, school children as carriers of disease, the relation of athletics to health, eye diseases among school children, the hygiene of play, the hygiene of the defective child and the relation of spinal curvatures and flat feet to the health of the child.

The subject of "Open Air Schools" will be given particular attention. Speakers from numerous cities will deal not only with the work of the open air schools but also with the effect of the open air treatment upon the pupils.

A symposium on "Sex Hygiene" will be conducted under the auspices of the American Federation for Sex Hygiene. Prominent among the speakers who will be heard are United States Commissioner of Education Philander P. Knox, Dr. Hugh Cabot of the Massachusetts General Hospital, President William T. Foster of Reed College, and Dr. Thomas M. Balliet of New York University.

The Society for the Prevention of Blindness will conduct a symposium on the "Conservation of Vision in School Children," and the Illuminating Engineering Society will conduct a similar discussion on the subject of school illumination.

The president of the congress and the presiding officer at the general sessions is Dr. Charles W. Elliot, president emeritus of Harvard University. The vice-presidents are Dr. William H. Welch, the great pathologist of St. Johns Hopkins University, and Dr. Henry P. Walcott, chairman of the Massachusetts State Board of Health.

Many educators, medical men and health officials of prominence are included among the honorary vice-presidents of the congress. Among them are Sir James Grant, one of the foremost representatives of the medical profession in Canada; Dr. Rupert Blue, head of the United States Public Health and Marine Hospital Service; Dr. Abraham Jacob, president of the American Medical Association; Dr. David Starr Jordan, president of Leland Stanford University; Dr. Theobald Smith of the Harvard Medical School; Dr. H. There will be daily automobile tours of the city and excursion trips to the great industrial plants and to the scenic wonders of Niagara Falls.

THE MARKET STIFFENS UP

Canadian Pacific Had A Two Point Rise Since Saturday

According to Expert Opinion There is no Danger of a Further Decline in Stocks

New York, Aug. 25.—There have been two repressive influences at work in the Stock Market of late, the Mexican situation which, according to newspaper despatches, has now reached an acute stage and damage to the corn crop, which has proceeded to a point that can no longer be ignored. Unless President Huerta accepts President Wilson's plan of mediation, which requires the retirement from office of the former, a situation of great embarrassment will have developed and at this distance it is hard to see how armed intervention could be averted. As to the corn crop, there seems no doubt that the damage from drouth has been sufficient to materially curtail the season's cereal and cotton crops will equal that of last year. On the other hand the present level of prices in the Stock Market fully discounts this outlook and with the leading stocks well liquidated there seems no danger of any serious decline.

Six names are mentioned for the High Commissionership. They are: Hon. Clifford Sifton, Sir Hugh Graham, Sir Edmund Osler, Sir Edmund Walker, Sir Richard McBride and Sir Rodmond Roblin. All of these men are outstanding Canadians and any of them would admirably fit the post.

THAW WILL BE HIS OWN PUBLICITY AGENT

Slayer of Stanford White Gets the Best of Scrap With His Lawyers---Is Not worrying Over the Prospect of Going back to Matteawan---Habeas Corpus Proceedings on Wednesday---Thaw Likely to be Deported to Vermont

Sherbrooke, Aug. 24.—Harry K. Thaw, reconciled with his Canadian lawyers to the procedure to be followed on Wednesday next when, according to present plans, he will be arraigned in the Superior Court on a writ of habeas corpus, spent a restful Sunday in the Sherbrooke jail and announced tonight that no matter if William Travers Jerome did take charge of New York State's case he (Thaw) was not fearful of the outcome.

"I faced the death chair twice," said Thaw. "Why should I worry about going back to Matteawan?"

Mr. Jerome had not reached this evening and in the absence of Franklin Kennedy, deputy attorney general, in charge of the New York forces, no statement could be obtained as to the time of his arrival. E. A. Conger, Dutchess county district attorney, said he heard that Jerome was coming by motor but that he had not been told any more than this.

On the Thaw side, the arrival here of Roger O'Mara was just as indefinite. Today Thaw himself said he had not summoned the Pittsburg detective. Subsequently he amended this.

"I expect to see Roger," he admitted.

THAW WINS BOUT WITH LAWYER
Having found it useless to argue with them, Thaw's lawyers, headed by J. N. Greenshields, K.C., of Montreal, brought about a truce in the breach that for a time threatened by agreeing to let Thaw manage the "publicity end of his case."

Thaw has been told that he is likely to be deported to Vermont after the immigration authorities take him into custody and tonight he made a request for a list of the leading newspapers of the state.

"I may have some very important statements to give them," he said.

Two conferences—in one of which Thaw participated—were held today by the Thaw lawyers. His chief counsel, Mr. Greenshields, was absent. He will not return from Montreal until tomorrow, but Charles D. White, Harry Fraser, ex-Governor William M. Stone of Pennsylvania, and W. A. Blakeley of Pittsburg, ex-district attorney of Allegheny county, spent a good part of the day in going over the ground.

Mr. Blakeley was emphatic in saying that he had not come here in the capacity of a lawyer opposing New York State's interests but as a personal friend of the Thaw family.

WILL FIGHT DEPORTATION.
None of the Thaw lawyers cared to make any predictions tonight as to the unwinding of the legal phass of the case but it was understood that they would come into court with their habeas corpus writ on Wednesday, as agreed, and begin their real battle when the immigration authorities take up the question of deporting Thaw as an undesirable alien. This hearing might last for days. Should it result in Thaw's deportation, the Canadian counsellors would then drop the case and American lawyers begin an involved fight against Thaw's extradition from the state to which he may be sent. That this state will undoubtedly be Vermont was still the consensus of opinion.

Of the conference, in which he participated today, Thaw said: "My lawyers found me very reasonable but I am still in charge of the case. I am letting them do the legal work, though."

WILL DEPORT THAW QUICKLY.
Ottawa, Aug. 24.—E. Blake Robertson, assistant superintendent of immigration, returned from Sherbrooke Saturday, where he has been in connection with the Thaw case, reported to Hon. C. J. Doherty, minister of justice and acting minister of the interior, that matters are temporarily at a standstill and will likely remain so until Wednesday, then it is expected the habeas corpus proceedings will terminate. In Mr. Robertson's opinion matters will move more swiftly after Wednesday. It is the intention of the department, once the Thaw case comes into its hands, to see that the fugitive immediately leaves the country.
