

The world of music—what a gift!

Suppose you should wake up Christmas morning to find that some one had put the world of music in your stocking.

That's precisely what you can do for any member of your family, or any of your friends, if you give an

Edison Phonograph

The new types, without horns, are especially popular just now. They are made in artistic designs from a variety of beautiful woods. The one shown here is extremely moderate priced. It is called the Amberola VI. It plays the new Blue Amberol records, with all their remarkable beauty of sweetness and volume, with all their range of program. It is fitted with the

diamond reproducing point that never needs changing. An Edison is a permanent gift—one that will be a lasting pleasure for years to come. Can you imagine a more practical gift—or one that will bring more real delight to those you love?

WITHIN AN ANT HILL

Tiny Insects Have Their Homes Carefully Planned

When you step on an ant hill you crush ruthlessly a complicated architectural structure far more wonderful in its way, than a modern skyscraper. Entering the hill at the hole in the top an invader instantly encounters a soldier ant, always on guard. The first floor is the guardroom. Floor 2, counting downwards, is the summer sleeping room for the workers. In the third floor the workers live and dine. No. 4 is storage room, while the fifth floor provides the barracks for the ants' standing army.

They form the guard for the queen, who lives and lays her eggs on the floor below. Next—floor 7—come the storage rooms of fodder and grain for the milk-cows—the aphids, who suck up "milk" from blades of grass with their feet, so that the ant milkmaids can afterwards "milk" them by stroking their legs until a drop of "milk" falls. Other little insects collect honey, and are "milked" in the same way.

The stables, where they are kept, are shown on floor 8. Then, below the earth we come to the ninth floor, the nurseries, where the milk and honey which the milkmaids have secured is handed over to the baby ants, just hatched as larvae, from eggs. Below—floors 10 and 11—are other nurseries, where the baby ants are cared for in various stages of their growth.

Next we find the winter quarters of the ant kingdom, and on the same floor is the graveyard; for the ant city in a hill is complete even to a cemetery. Last of all is the queen's winter apartment.

SAFETY IN THE STREETS

Don't cross an intersection at an angle; cross squarely. It takes a few seconds longer, but it is safer.

Don't stop in the centre of the pavement.

Don't hesitate when crossing a street. Keep going.

Don't attempt to read a newspaper when crossing a street.

Don't step abruptly off the curb, look for passing cars.

Don't step from a moving car. Wait until it stops and the motorist will stop.

Don't dodge to and fro if in danger. Stand still and the man in the auto will know which side to take.

Don't allow your children to run wild on the street. A little restraint exercised with children will avoid accidents.

PAIN NEARLY DROVE HIM MAD

Suffered Horribly Until He Turned To "Fruit-a-tives"

J. A. CORRIVEAU

DRYSDALE, ONT., June 15th, 1913

"I am a general storekeeper at the above address, and on account of the great good I have experienced from using 'Fruit-a-tives', I recommend them strongly to my customers. They were a great boon to me, I can tell you, for about two years ago, I was laid up in bed with vomiting and a terrific pain at the base of my skull. The pain nearly drove me mad. Doctors feared it would turn to inflammation of the brain but I took 'Fruit-a-tives' steadily until I was cured. I have gained fifteen pounds since taking 'Fruit-a-tives' and I verily believe they saved me from a disastrous illness."

J. A. CORRIVEAU.

For Headaches, Neuralgia, Rheumatism and other diseases arising from an impure condition of the blood, 'Fruit-a-tives' is invaluable and infallible.

GUARDING AGAINST EVIL EYE

Syrian child wearing charms to ward off evil.

That the evil eye may be visited upon their children is the especial fear of Palestine and Syrian mothers and many "charms" are hung upon the little ones to ward it off. The more of these amulets a child has the better mother it is considered to have! Two beads on the neck are supposed to be particularly effective. The rest serve as ornaments as well and accord their small owners very much pleasure. They form the most important part of their costume.

FROM THE LATEST BOOKS

"The plain man on a plain day wakes up, slowly or quickly according to his temperament, and greets the day in a mental posture which might be thus expressed in words: 'Oh, Lord! Another day! What a grind!'"—From "The Plain Man and His Wife" by Arnold Bennett.
