John E. Dodson, noted comedian, 56 years old today.

Telephone in the Clouds

A telephone-exchange three miles in the air! This station, said to be the highest in the world, is in the meteorological observatory on the top of Mount Rosa, in the Pennine Alps, 15,450 feet above sea-level. At this elevation snow is always found, and advantage is taken of the high insulation given by dry snow, the wires in the last section, at the peak, being simply laid on the snow-covered

ABOUT WOOD-FILLERS

The Man Who Works About the Home Needs This Information

Open-grained woods require paste filling, being "hard woods." The varieties most in use are ash, beech, butternut, baywood, black walnut, chestnut, elm, mahogany, oak and rose-wood.

Close-grained woods such as bass, cedar, redwood, gum, poplar, spruce and whitewood are filled with liquid fillers, being soft woods.

There is another group of woods that occupy an intermediate place, though they might properly be classed with the close-grained woods, namely, birch, cherry, circassian walnut and maple. They are sometimes filled with paste filler, sometimes with liquid filler.

Chestnut and some oaks are very open-pored and not only require filling but often two fillings and a stiff paste. The purpose of the paste filler is to fill up the openings in the tissue of the wood, the liquid part of the filler saturating the tissue and so to some extent preventing the wood robbing the varnish coat and occasioning pinholing, etc. For this purpose it is best to sometimes apply a coat of liquid filler over the paste filling, and in some instances another coat of paste filler over the liquid is best. In any case the idea is to form a hard and impermeable foundation for the varnish coats that are to follow.

A filler should be colored to match the wood; but should be made a shade or so darker. The following is a very good formula for making a paste filler: Mix two parts of best coach japan and three parts of raw linseed oil, both by weight. To this liquid add enough finely pulverized silica to form a stiff paste. The mass needs to be thoroughly mixed.

A white liquid filler is sometimes desirable, and the following is a good one. In one gallon of raw linseed oil put two pounds of pale powdered resin, and place in a suitable vessel on the stove until the resin has melted, stirring meanwhile. Then remove from the fire and add one pint of white japan dried and two quarts of turpentine; stir well, then set aside to cool; when cold, stir in eight ounces of corn starch. After which thin with turpentine and pass it through a strainer.

An Ancient Bank Note

St. Petersburg's Asiatic Museum claims to have a Chinese bank note issued at Peking in 2800 B.C. It is similar to those now in use. It is of thick white paper, inscribed in blue ink. Round the border is engraved the counsel: "However much you may possess, strive to be thrifty." If its date is authentic it disposes at one blow of a number of seemingly well-substantiated facts. It throws back the use of written characters at least 1,000, and the invention of printing more than 3,000 years and proves that a highly developed state of civilization and an utterly unsuspected economic system must have existed under the Emperor Fu Hsi, who has hitherto been treated as a purely legendary monarch.

ADVERTISING TALKS.

One hundred cents make one dollar. Yet when you spend your dollar how efficient is it? Do you get 60c., 80c. or 100c. worth? The answer is squarely up to you. It depends upon your method of spending. If you are alive and interested in finding out for yourself the "what, when and where" of money spending, every purchase, every investment you make brings you the fullest possible returns for your dollar. The man or woman who reads advertising intelligently and continually makes a dollar do its full stint of work. If you are not already a careful reader of Mail ads begin today and be one.

FIRST PUBLIC OFFERING---500,000 SHARES

stock of the

Boston and Montana Development Company

(Incorporated under the laws of the State of Montana)

AT FIVE DOLLARS PER SHARE

This offer is based on known development of property; on the earning power accruing from this consolidation—admitted to be of great importance to the mining and business interests of Montana; and on the certainty of an efficient management.

OFFICERS AND DIRECTORS

President—Hon. W. R. Allan, Butte, Mont. Hon. Sir Frederick W. Borden, Ottawa, Can.
Vice President—W. C. Siderfin Butte, Mont. Joseph J. Wall, Boston, Mass.
Secretary—L. P. Benedict, Butte, Mont. William Wallace, Jr., Helena, Mont.
Treasurer—Arthur Perham, Butte, Mont. Charles E. Millar, Wisdom, Mont.

EXECUTIVE OFFICE

State Savings Bank Building, Butte, Mont.

The BOSTON AND MONTANA DEVELOPEMENT COMPANY, authorized capital 3,000,000 shares, par value \$5.00 each, is a consolidation of large copper mining properties in the famous French Gulch District, Deer Lodge County, and the Elkhorn District in Beaverhead County, Montana. The Company has taken over all the developed and known valuable claims in these districts, and to insure the permanent and economic development of which it will build a standard gauge steam railroad, to be known as the BUTTE, WISDOM AND PACIFIC RAILWAY, running up the Big Hole River to Ralston, Wisdom and Jackson, with branch lines extending to the French Gulch Mines and up the Wise River to the Elkhorn Mining District. In addition to furnishing transportation for the great quantities of copper-bearing ore from the French Gulch and Elkhorn Districts, this road will furnish transportation facilities to the entire territory known as the Big Hole Basin, the richest and most extensive agricultural, timber and mining District in the State of Montana, now without the benefit of railroad facilities. The Company owns water rights from eight streams in the French Gulch territory, with approximately fifteen miles of ditches and flumes, also large acreage of virgin timber.

PROPERTIES---OWNED AND CONTROLLED

FRENCH GULCH: Quartz Lode Mining Claims: Esther, Lone Star, Eureka, William McKinley, Lucky Strike, French Gulch, Golden Era, Golden Crown, Apex, First Chance, Swamp, Junction Fraction, Leo, Queen, Dixie Fraction, Margaret Extension, Margaret, Florence McKinley, Spain; Elorance Extension, Ruth Salt Lake, Trixie, Star of the West, First Chance Extension. Placer Claims: Spring Gulch, Old Channel, Legal Tender, French Bar, Phoenix Extension, Julius.

ELKHORN MINING DISTRICT: Quartz Lode Mining Claims: Central, Red Top, Red Top No. 2, Idanha, Idanha No. 2, Aspen No. 2, Boston, Boston No. 2, Central Tunnel Site, Central Tunnel Site No. 2, White Seal, Grotto Dubious, Leap Year, Blue Bell Blue Jay, Diamond, Aurora, Violet, Elkhorn, Lost Cloud, Lulu, Snowdrop, Red Sky, St. Louis, Wise River.

DEVELOPMENT AND EQUIPMENT—The development work on the French Gulch and Elkhorn properties is very extensive and the equipment is sufficient for all present requirements.

EARNING POWER

French Gulch has produced millions by crude and expensive mining methods, and with the application of modern economical mining methods the net profits on production of the French Gulch and Elkhorn Districts, added to the earning power of the railroad, should be large and permanent.

Applications for stock will be accepted at

FIVE DOLLARS PER SHARE

Cash or as follows: 10 per cent. with order, 40 per cent. on allotment, 50 per cent. may be carried at 6% interest until October 10, 1914, if desired.

This offering of stock will close on Friday, October 10, and application will be made to list the shares on New York Curb. The right is reserved to reject any or all applications.

This is the first and only offering at FIVE DOLLARS PER SHARE, and your application for stock, enclosing remittance of 10% on account, should be mailed at once to

DAVISON COMPANY

27 State Street, Boston, Mass.

NOTE—Copies of engineers' reports, maps and circulars regarding this property sent on application.
