## INVESTMENT DEMAND FOR STOCKS

Recent Action of the Markets Reflects the Attitude of caution adopted by Traders

### INVESTMENT DEMAND CONTINUES BRISK

New York, Sept. 5.—The recent action of the Stock Market has reflected an attitude of caution if not outright apprehension on the part of financial interests. Adverse prospects and the ever present political factor have been the contributing causes of this revulsion from the spirit of optimism which prevailed a few weeks ago. If the underlying causes of this change of sentiment be closely analyzed it is probable that nothing more serious would be revealed than that which existed when bullish sentiment was at its highest.

As to politics there is nothing now threatened which was not anticipated six months ago. In fact the realization is likely to fall short of expectations in the way of drastic legislation. While due weight therefore, should be given to the more pessimistic sentiment which now exists in financial circles, it should be remembered that there is no dangerous speculation in progress and that the current level of prices is attracting a substantial investment demand.

## GERMAN ARMY MANOEUVRES

Seventy Thousand Troops Takes Part in Important Exercises

Eminent Military Leaders From Many Countries Attend Upon the Kaiser's Invitation

Berlin, Sept. 5.—On the historic plains of Silesia, where the armies of Frederick the Great carried the standards of Prussia just one hundred and fifty years ago, another great army carrying the imperial colors of a united Germany assembled today under the eye of Frederick's descendant, Emperor William II. For the next five days this modern army of 70,000 men, divided into two opposing corps, will engage in the annual Grand or "Kaiser" maneuvers, which are the most important army exercises of the year.

The maneuvers this year are regarded as the most important ever held by the German army. More men are engaged than ever before, while the tests to which they will be put will be unusually severe. Aeroplanes and dirigibles, the latter equipped with wireless outfits, will be employed for scouting purposes and the carrying of despatches. The German army is soon to have a bicycle corps for the first time and it is expected that the various types of machines will be tried out in a practical way during the maneuvers.

Eminent military leaders of many countries are to witness the maneuvers as personal guests of the Emperor. Among them are General Polio, chief of the general staff of the Italian army, and General Ramon Ruiz, chief of the general staff of the army of the Argentine Republic. All of the kingdoms, grand duchies, principalities and other component parts of the German empire are represented by their rulers or other distinguished dignitaries. The King of Saxony, the King of Wurttemberg, Prince Frederick William of Prussia and Prince Rupert of Bavaria are among the number.

Practically all of the commanding officers of the army are to attend, the list being headed by Field Marshals von der Goltz and Count von Haeseler. While the detailed program has not been made public, it is understood that the general idea will be to solve the problems of defence against an invasion of Germans from the east. The invading and defending armies will be represented by the 5th and 6th Army Corps, respectively. Until the maneuvers are well under way none of the generals-in-chief will be given any information as to where the Emperor's headquarters are located, that this knowledge may not influence their disposition.

## THAW LIKELY TO GET DEPORTED TODAY

Board of Enquiry Conducts an Investigation at Coaticook—Thaw Put on the Stand Admits That He Did Not Come Into Canada Through a Regular Port of Entry—Likely to be Deported Directly to Matteawan

Coaticook, Sept. 4.—Harry K. Thaw was not "railroaded" across the border by the immigration authorities today, as his counsel had predicted. A special board of inquiry sat on his case from 10 o'clock in the morning until nearly 5.30 o'clock in the afternoon, then adjourned until 9.30 o'clock tomorrow morning, when the prisoner will be recalled.

Thaw was on the stand most of the day, and made a good witness. Toward the close of the afternoon session his inquisitors gradually worked into the question of his sanity, and though his counsel violently objected, it was of no avail, and this line of interrogation will be taken up again tomorrow.

Though staving off deportation for the day, Thaw lost in two particulars. His lawyers were denied a writ of prohibition by Superior Judge Matthew Hutchinson at Sherbrooke, the same judge who sustained the writ of habeas corpus, which cast Thaw out of the Sherbrooke jail yesterday, and he failed to establish before the board the contention that he had entered Canada as a tourist, and like "Jack" Johnson, should be allowed to continue his destination. He could produce no through ticket to any point outside Canada. There was in his possession a ticket to Detroit, but unfortunately for Thaw it had been purchased at Coaticook.

THAW CONVICTS HIMSELF

Unable to show that he had come into the Dominion at any recognized port of entry, Thaw was practically convicted of entering by stealth, and on this charge alone he can be deported. But on this charge he could appeal to the minister of the interior, while no appeal would lie should he be found insane at the present time, or to have been in insane asylum within five years.

If found of unsound mind now it is in the board's power to deport Thaw direct to the New York state line, possibly to Rouse's Point. This would mean swift and certain return to Matteawan. Conviction on any other charges would mean deportation to Vermont.

## 37 YEARS IN STATE PRISON

Jesse Pomeroy "The Boy Fiend" Kept in Solitary Confinement

Got a Life Sentence When Sixteen Years Old For Murdering and Torturing Children

Boston, Mass., Sept. 5.—Jesse Pomeroy, probably the most notorious life prisoner in the United States, tomorrow will enter upon the thirty-seventh year of his confinement behind the gray walls of the famous State Prison in Charlestown. All of these years have been spent in solitary confinement. This does not mean, however, that he never leaves his cell. If he so desires he is permitted to exercise in the prison yard outside his cell for an hour every day in charge of a guard. But this is while the other prisoners are at work in the shops. He is never permitted to meet or see any person excepting his mother, who comes to see him once a month, the prison warden and occasionally the governor or members of his council.

Pomeroy was a boy of sixteen when he was sentenced to prison for life for torturing and murdering little children. He is now well past his fiftieth year. Much of his time has been spent in study and reading and he is said to be well informed as to current events. But he has never seen an electric car or automobile, never heard a phonograph, never talked through a telephone and has never ridden in an elevator.

So far as the records show, Pomeroy has served in solitary longer than any other prisoner in America and, unless the commitment order is changed, he will have to be kept in that manner until he dies. No great effort has ever been made to obtain a pardon for him but some years ago the American Society for the Promotion of Criminal Anthropology petitioned the governor to remit the solitary confinement clause of Pomeroy's sentence, on the ground that such a punishment is not in accord with modern public sentiment. But before the governor and his council had time to consider the petition an ingeniously-made tool was found on the prisoner and the matter was dropped promptly. More recently the famous prisoner made a desperate effort to regain his freedom and did succeed in escaping from his cell. With the aid of a tool or tools which the prison authorities have never located Pomeroy cut the bars of his cell door and was quite a distance down the prison corridor before he was discovered and captured by the guards.

## MAX BLANK AGAIN IN TROUBLE

New York, Sept. 5.—Max Blank, proprietor of the Triangle Short Company, in whose factory nearly 150 women and girls were burned to death in 1911, were arraigned in the Court of Special Sessions today on a charge of having the doors of his new factory in Fifth avenue, locked in violation of the safety laws. The complaint was made by inspectors of the fire prevention bureau, who swore they found the factory doors padlocked with 150 persons working inside. Following the destruction of the Triangle factory two years ago and the great loss of life, Blank was indicted on a manslaughter charge. After several trials he was finally acquitted.

## ROYALTY AT GATHERING OF THE CLANS

Edinburgh, Sept. 4.—The King and Queen motored today from Balmoral Castle to Braemar to attend the gathering of the clans, of which event the King is the chief patron. The gathering is the most important fete day in the highlands and never fails to attract a brilliant attendance. The scene presented of men in tartans and women in smart gowns, sashed with the colors of the different clans, is most picturesque.

## BORDEN GOVERNMENT IS SHORT OF CASH

Many obligations are maturing and Finance Minister White is trying to Raise the Wind

THE PUBLIC DEBT IS LIKELY TO BE INCREASED

Ottawa, Sept. 4.—The minister of finance, Hon. W. T. White, is finding some difficulty in paying for the successful attacks made on the public treasury at the last session of parliament. The revenue of the Dominion continues to grow but it is not growing nearly as rapidly as the expenditures, provided for by a lavish administration. In consequence the supply of ready money in the treasury is pretty well exhausted and there is not sufficient on hand to pay obligations now falling due.

Last session the government got parliament to vote \$2,000,000 to the Ontario government as a belated subsidy for the Temiskaming & Northern Ontario Railway; \$17,000,000 in subsidies to MacKenzie & Mann, and \$15,000,000 by way of a loan to the Grand Trunk Pacific.

Naturally the beneficiaries have been pressing for the money. But it is understood that they have all been told that there is a financial stringency in the Dominion treasury just at present and pending some new loan arrangements in London or Paris payments can only be made "on account."

In addition to these maturing obligations, the minister has to arrange to meet a Dominion 4 per cent. loan of 1873, amounting to \$1,700,000, falling due October 1 next.

In his last budget speech, he intimated that this last high rate loan would be extinguished and that hereafter Canada would stand before the world as a country which could borrow at the most favorable rates.

However, it is understood that Hon. Mr. White has not been able to convince the controllers of the London money market that Canada should have money at 3 per cent. at the present time. As a result this 4 per cent. loan, which is now maturing, will likely have to be renewed at 4 per cent., and the government will have to pay a bonus to get the money at even that rate.

Though the government's revenue will be larger by probably \$8,000,000 or \$9,000,000 this year than ever before, it is now probable that in his next budget speech Mr. White will have to announce a substantial addition to the public debt.

## CENTENNIAL OF A NAVAL BATTLE

Portland, Me., Sept. 5.—One hundred years ago today the United States ship Enterprise and the British cruiser Boxer met off the Maine coast and engaged in battle. The British were defeated and their vessel captured. The victory of the Americans came but five days before Perry's triumph on Lake Erie and was peculiarly welcome since it relieved the popular depression caused by the capture of the Chesapeake by the Shannon three months before.

The engagement of the Enterprise and the Boxer attained a mournful celebrity by reason of the fact that both Commanders Burrows of the American ship and Blyth of the British ship were slain. Longfellow, then a child, heard the booming of the guns over the tide and as a poet celebrated the tragedy of the two captains who lie buried side by side in a Portland cemetery.

A HEARING FOR MATTEWAN ATTENDANT  
Poughkeepsie, N. Y., Sept. 5.—Tomorrow is the day set by Justice Morschauer for the preliminary hearing in the case of Howard H. Barnum the Matteawan Asylum attendant who was on duty at the gate when Harry K. Thaw escaped on August 17. On the day following Thaw's escape Barnum was arrested on a charge of bribery to aid the famous prisoner in securing his freedom. Since his arrest he has been at liberty on bail.
