BANKERS OF TAMMANY LOST MUCH MONEY

Believed That Several Hundred Thousand Dollars Changed Hands on the Result of the New York Elections--Appointment of Married Women as Teachers in Gotham Makes Trouble for Trustee Board--S.P.U.G. Society Getting Busy

(Special Correspondence.)

New York, Nov. 15.—There is always something "going" in New York, always something going on to stir up excitement and to give the people something to talk about. Last week it was the election with everything that goes with it in a big city and the spectacular war show at Madison Square Garden and this week the opening of the great National Horse Show. It is true, the sensational feature is a trifle late this week, the big show opening today, but there were plenty of smaller excitements scattered throughout the week.

The election is over and has passed into history, but the usual aftermath of every election, the paying off of the silly election bets, will probably furnish amusement to many people for some time to come. Betting was pretty heavy on the election just held and although the odds on the victorious candidate for mayor were heavy, these were enough enthusiasts ready to put up the required cash. It is estimated that several hundred thousand dollars were lost by the backers of the Murphy ticket.

A QUEER GAME.

Politics is a queer game and often it is extremely difficult to foretell what the outcome of an election will be. Yet, as a general rule, the sound common sense of the masses may be relied upon to a great extent. A showman in this city, who has several burlesque companies on the road, evidently has the utmost confidence in the sound common sense of the people. On the morning of election day he bet one of his shows against a box of cigars on Mitchell. He is probably not more pleased than the rest of the respectable citizens of New York that his opponent did not get an opportunity to collect the stake.

The great military spectacle at Madison Square Garden last week attracted enormous crowds and proved a remarkable success in more than one way. If it was intended to help the universal peace movement by demonstrating clearly the horrors of war, the show must be adjudged a complete failure. Instead of inspiring the spectators with fear and horror the spectacle aroused in a most unexpected manner the martial spirit dormant in many apparently commonplace and peaceful persons. It must be attributed to this stirring exhibition that during the week of the show the recruiting stations of the United States Army in this city, usually quite deserted, were crowded with applicants anxious to exchange their civilian garments for Uncle Sam's military uniform.

MARRIED SCHOOL TEACHERS.

The lot of the Board of Education of New York City is by no means enviable. By its attitude concerning the employment of married women as teachers in the public schools of the city the board has stirred up a veritable hornet's nest and brought upon itself a peck of trouble. A tremendous amount of perfectly good sentiment is wasted in the agitation which is carried on against the Board of Education in this case. It cannot be truthfully asserted that the Board of Education is perfect and never makes mistakes; but why the board should be so viciously attacked by a lot of soft heads and weak-kneed old women in trousers because it wishes to keep married women out of the teaching force is difficult to understand. In the first place, it is still an extremely doubtful question whether it is for the best of the interest of education to employ women as teachers. In the second place,

STOCK MARKET STIFFENS UP

Mexican Situation Seems to be working towards favorable Issue

The Market is Apparently Receiving Better Support--Canadian Pacific Firm at 225

New York, Nov. 15.—The Mexican situation which for a long time has been the dominating stock market influence, seems to be gradually working towards a favorable issue. It will be some days yet perhaps until the outcome can be accurately forecasted, but it begins to look as if President Wilson will accomplish his aims along pacific lines. The stock market has given repeated evidences of late that the general list has been well liquidated and that any favorable developments would meet prompt response in the shape of a smart recovery. While large interests will very likely discourage attempts to bid up prices against the short interests at the present time, there nevertheless are signs that the market is receiving better moments of weakness.

SPECIAL MEETING TO REPEAL MARKET BYLAW

Rumored That Section Against Fore-stalling May be Considered by City Council in Special Session

It is rumored that the agitation to repeal the market bylaw which prevents the purchase of country produce by butchers, grocers, and those in like business before the hour of 10 a. m., has reached a point at which the intention has been expressed to have a special meeting of the City Council for the purpose of dealing with the bylaw. It is said that enough of the aldermen are in favor of repeal to have a special meeting called, also that some of the aldermen who opposed the repeal at the last Council meeting have changed their minds and that the by-law will be repealed. A change in this bylaw will not come without a strong expression of public opinion in favor of its retention. The City Council at its last meeting retained the bylaw on the mayor's casting vote. It is argued by those in favor of repeal that the great majority of citizens do not patronize the market but buy from grocers or butchers and that it would be to the advantage of those citizens if merchants were permitted to buy freely in the city market.

BUTTER FIRMED UP SELLING FOR EXPORT

Toronto, Nov. 14.—Fresh Creamery butter firmed up at the local market yesterday. It is being quoted now on a slightly different basis. Creamery prints, fresh made, are selling to the trade at 29c to 30c with solids at 27c to 28c. Storage prints bring 27c. to 28c and storage solids at 26c. to 27c. Dairy butter is unchanged.

This advance follows a general strengthening of the situation. American buyers have been in the Ontario market for supplies, and some country dealers have sold their holdings, instead of sending them to Toronto. The way butter is selling on the other side favors holders of butter here just now. Bought at 28 cents at Ontario points, and selling at New York at 33c to 34c, leaves a fair profit, after a 2c duty and other costs have been paid.

STRONG EGG MARKET

Eggs are several cents higher, new-laid are going to the trade at 37c to 40 per dozen, with select storage at 32c to 34c, and cold storage steady at 30c to 31c. So scarce are eggs now that almost any price might be named for new-laid. Trade

NEW YORK'S HORSE SHOW

Great Society Event Began Today in Madison Square Garden

Interior of Mammoth Building Has Been Made to Look Like a Roman Amphitheatre

New York, Nov. 15.—The thirty-first annual exhibition of the National Horse Show Association, the famous "Horse Show," which is held upon as the beginning of the winter's social season, opened today in Madison Square Garden, which was gorgeously dressed up to represent a Roman amphitheatre. In all its essential features the big annual exhibition is much the same as in the many years of the show's earlier history, with the only difference that this season there is to be a little more variety in the character of the ring contests than in former years and some few additional classes will stir to enthusiasm the horse lovers and horse owners in the boxes and around the tankard arena.

The harness horse, which lost much of its popularity with the advent of the automobile, has apparently been restored to favor, for the high-steppers are more in evidence at the present show than at any exhibition of the past half dozen years. The saddle horse classes, also have filled this year better than ever. It seems as if the women have striven to outdo the men with saddle horses and many new exhibitors have come to the front.

But, most interesting of all, are the jumping competitions, for it is this feature of the program that gives the big show its international flavor. These competitions are to be more representative this year than ever before. No less than seven countries are to be represented and as the conditions require that the officers shall ride in the uniforms of their own country the scenes in the ring are expected to be very attractive. This year Russia and Norway are entered, together with England, France, Belgium, Canada and the United States.

Among the largest exhibitors this year in all classes are Alfred G. Vanderbilt, Judge William H. Moore, Hon. Clifford Sifton, E. T. Stotesbury, William Zeigler Jr., Miss H. D. Attenbury, F. Ambrose Clark and William Du Pont.

HUERTA HESITATES TO TAKE THE PLUNGE

Friends are Urging Him to Accede to the Demands of the United States and Make Way for a New Government--President is Anxious to Reopen Negotiations With the United States--Opinions of the British Press

Mexico City, Nov. 14.—President Huerta's attitude towards the demands of the United States that he make way for a new government, is that of one only half convinced, notwithstanding the fact that a few of his closest friends and political advisers are urging, although with due caution, that he accede.

The representatives of this element in the cabinet conferred today with Nelson O'Shaughnessy, the American charge d'affaires, but were given no assurances that President Wilson has unhesitatingly to warrant hope that the negotiations will be reopened. In spite of this, however, these friends of Huerta who are now convinced that the United States government is not bluffing, believe they will be able to bring about the destined changes in time to prevent a complete rupture of the diplomatic relations. This conviction is based upon the fact that Washington as yet has not put into effect its implied threat to remove the embassy or announced any new course of action.

Sir Lionel Carden, the British minister, has conveyed to Huerta an intimation that the United States is said to have told the President that the British government is disposed to back the United States morally. For publication, Sir Lionel was reticent regarding his representations to Huerta, but it is an open secret that they were made and Huerta is said to have been deeply impressed when he realized that the nation which he had believed would stand by him indefinitely had joined with one that he already regards as his enemy.

Tomorrow is the date fixed for the preliminary meeting of Congress and tonight there appears to be no reason to believe that it will not convene, notwithstanding the unquiver-

cal demand of the United States that it should not do so.

INTERVENTION MEANS ANNEXATION.

London, Nov. 15.—Discussing the Mexican situation, The Spectator says that even if President Wilson succeeds in inducing President Huerta and his government to retire, it is impossible to believe that a reformed administration such as the Americans earnestly desire can be established. A far more likely result of Mexico's humiliation, the paper adds would be the establishment of some sort of national party with the purpose of shaking off American domination and war would only be postponed until Mexico was better prepared to fight.

In one way or another, sooner or later, The Spectator continues, "the present American policy must lead, in our opinion, to armed intervention followed by annexation. There is no other way in which one state can permanently control another. If an invasion comes, all President Wilson's well meant resolves to make clear to foreign nations that nothing will induce the United States to acquire territory as a result of intervention will come to naught. We made just the same kind of a declaration and in just as good faith when we went to Egypt, but we never have been able to carry it out and never shall be."

"If the American troops once enter Mexico to put down opposition to their will by force, they will never permanently leave Mexico. They may and no doubt will, go out temporarily in obedience to some vagary of public sentiment, but they will soon be back again in order to prevent the fruits of good American government being thrown away."

QUIT BUSINESS IN TWO STATES

Madison, Wis., Nov. 14.—The Independent Order of Foresters of Toronto, Canada, which has 4,500 members in Wisconsin, surrendered its charter to the state insurance department today. The same order withdrew from Minnesota last Monday. The action was taken because of strict requirements demanded by the state for writing business. Fifty per cent. of the order's membership is in the United States. Under a law recently passed by the Canadian parliament only thirty-five per cent. of the organization's assets can be invested outside of Canada. The assets are \$20,000,000.

The withdrawal of the order does not affect the insurance held by present members. No new business can be written, however.

REISINGER-McKEE WEDDING

New York, Nov. 15.—The marriage of Miss Mary Lodge McKee, daughter of Mr. and Mrs. James R. McKee, and granddaughter of the late President Benjamin Harrison, and Mr. Kurt Reisinger, son of Mr. and Mrs. Hugo Reisinger, took place this afternoon in the Central Presbyterian Church. Owing to the recent death of Adolphus Busch, grand father of the bridegroom, only relatives and intimate friends were invited to witness the ceremony. The bride's only attendant was Miss Lowry Gillett. Walter Reisinger attended his brother as best man.

Mrs. John Machum and young son of St. Mary's, who have been visiting Mrs. Machum's daughter, Mrs. F. L. Orchard at Boston, are expected home this evening.

JUAREZ TAKEN BY THE REBELS

Mexico City, Nov. 15.—The rebels have taken Juarez. Private official messages confirm the report that they obtained control of this important northern gateway at 4.45 o'clock this morning. No details were given but possession of the town gives the rebels access to and places them in control of the Custom House which is the most important institution of its kind on the northern boundary.

SEAT SALE FOR HARKINS PLAYERS OPENED TODAY

This morning the sale of seats for the W. S. Harkins Players opened at Ryan's Drug Store. A word of advice to those who intend going might not be out of place. Nearly everybody has a favorite seat or seats and in many cases several favor the same seats. One thing is certain, two persons cannot receive the same seats for the one performance, therefore those who apply early get the first choice. The opening play, "The House Next Door," is one of the most delightful comedies ever given in Fredericton. There's a laugh in almost every line. The story is a most delightful one. You'll laugh at the humor, yet you'll sympathize at times with Sir John Cotswood, as played by Harry Stubbs, and you'll admire the character of Sir Isaac Jacobson as played by C. N. Stark. As for Ulrica Cotswood, as played by Miss Van Dusen, it's enough to say that Fredericton people have not forgotten her. You'll appreciate her love troubles and also those of Cecil

STEAMER ON FIRE AT SEA

Cape Race, Nfld., Nov. 15.—The Cunard Liner Pannonia has sent a wireless message to the effect that the Spanish steamer Balnear is on fire in the North Atlantic. The Pannonia is taking off the Balnear's passengers.

AT THE COUNTRY'S EXPENSE

Col. H. F. McLeod, accompanied by Mr. H. M. Blair, secretary to the Board of Works, and Mr. N. P. McLeod, have gone to Quebec to attend a military banquet. Afterwards we are told, Mr. Blair will go to Ottawa on business for the Flemming government. This means that he is travelling at the public expense and is being paid for his time. When he was sent to Carleton County a few months ago on business for the department, he was allowed \$150 for extra services, on the plea that his office work had got behind during his absence. Many people are wondering if he will be able to work a similar deal on this occasion. The fact of the matter is that Mr. Blair can do about as he pleases and Premier Flemming is afraid to say a word for fear of getting himself into trouble.

SCOTT ACT CASES.

A number of Scott Act cases, in which the chief of police will be the informant and local parties the defendants, are to come before the police court Monday morning.
