McCAFFERY WANTS NEW TYPE OF SPIKES

Toronto, Sept. 9.—The long list of accidents to the players of the Toronto team this season has moved President McCaffery to drastic action. He will suggest that the clubs of the International League each hold a meeting and appoint one delegate to attend a meeting in the offices of President Barrow to discuss the adoption of different spikes from those now generally used on the shoes of the players.

President McCaffery has offered to try lacrosse spikes, which are of hard rubber and with the permission of those concerned he will equip the Leafs and the teams yet to visit Toronto this season with specially made shoes of this kind. It is doubtful whether a fit substitute will ever be had for the present contrivance.

JOE PAGE HAS DISCOVERED PHENOM IN REVELSTOKE

Tells Montreal People He Has Signed
Pitcher George Webb for Chicago
Americans

(Montreal Herald)

Canada possesses a great many promising young ball players. Players who, with a little more experience, will be capable of making good in the major leagues within a very short time. Such is the opinion of Joe Page, a well known local baseball promoter, who at the present time is engaged as a scout for the Chicago American League Club. Page has been looking over the ground in the west. In fact, he has just returned home to the city from an extended tour out west, and states that he was greatly surprised at the class of ball played in many of the western cities. "They have quite a number of promising players out west," said Page, "and I expect that the West will very shortly prove a regular hunting ground for the big leagues."

"Yes, I saw a few games of baseball out west," said Page, "and was surprised at the class of ball the teams out there are putting up. They have several fast men, who, with a little more experience, I expect to see in the major leagues within a very short time."

The most promising ball player I saw was a young fellow who was playing for the Revelstoke Club team. I journeyed to the game, and sat in the grand stand to see just what kind of ball the teams played. This young fellow was selected to do the twirling for the Revelstoke team, and after the game had gone five innings I was greatly impressed by his work. His name is George Webb, and during the contest he fanned no less than eleven of the opposing swatters. He had speed and very fine curves, and looked a good proposition for the big leagues.

"When the game was over I immediately got into touch with the young twirler, and have secured his signature to a contract of the Chicago American League Club. He has accepted my terms, and will take part in the spring practice next season."
