# SOME RAZOR BLADES FOR RURAL SUBSCRIBERS

The Mars Hill, Maine, Review hands out the following dore to its rural subscribers:

"There are some, not many, thank God, Aroostook subscribers to The Mars Hill View, who "kick" at the half dollar raise per year, on the price \$1.50 instead of \$1.00.

ook here, you toad-stabbers lousekinners, neighbor-cheating, Godcheaters-you Ethiopians who run a farm in Arcostock County, and disoy calling YOURSELF an Aroostook armers, flook here for a minute.

For years and years we village copie bought butter for from 14 to 6 cents per pound. What is it now? 5 and 35 cents and as much more as one of you newspaper-s preezers can et. There is no limit to the cetgrace the other Aroostook farmers by calling YOURSELF an Aroostook farmer, look here for a minute. There is no limit to the geting price because your conscience has been buried long ago with the corpse of your grandfather. We used to buy wood for 85 cents a Tommy d, now it is \$1.75 and \$2.25. ARTIFICIAL PEARLS

Most of Them Merely Glass Balls With Lustrous Coating Inside

The indudstry of manufacturing artificial pearls has developed enormously of late years, both in extent and in the remarkable degree of perfection which these imitations of the natural which these imitations of the natural gem have attained, some of them almost detying detection save under the close scrutiny of the keenest experts.

The simplest forms are uniformly spherical and are merely glass balls blown by means of tubes of varying sizes. More ingenious and more natural-looking are the irregular pearls or peries goitrenses. To produce these the workman sometimes merely touches the ball momentarily with the

### THE NEW WELLAND

Twenty-five Miles Long With a Fall of 325 Feet

As finally located the enlarged Welland ship canal will conform closely to the route of the present canal from Lake Erie to Allanburg, a point about midway between Lakes Erie and On midway between Lakes Erie and Ontario. From Allanburg an entirely new location will be followed. This will cross the present canal twice, finally reaching Lake Ontario at the foot of Ten Mile Creek—three miles east of the present terminus at Port Dalhousie. The total length will be 25 miles. The fall of 325½ feet will be accomplished by seven locks, each having a lift of 4614 feet. Feet leak be accomplished by seven locks, each having a lift of 46½ feet. Each lock will be 800 feet long and 80 feet wide, with a minimum depth of water over miter sills of 30 feet. The canal will be 200 feet wide at the bottom, designed for a depth of 30 feet, but excavated for only 25 feet for the present. This will permit dredging out the remaining 5 feet at any future time. At Pert Colborne, the Lake Erie terminus, a new breakwater will be built on the west side of the entrance to insure quiet water in the harbor daring storms. The present
