

**PALMER'S**  
Moose Head Brand  
Summer Packs & Plow Shoes

SLIP on a pair of Palmer's Summer Packs or Plow Boots, and you will realize what Comfort really means. Added to this, you have strength and durability, making a combination of good features seldom found in one pair of boots.

Palmer's Summer Packs and Plow Boots are hand made and hand sewed by expert workmen. The bottoms and uppers are made from Palmer's Famous Skowhegan Waterproof Leather, rich dark brown in color, very soft and pliable. Bottom part of uppers runs clean under, a great advantage over the laced under boot.

Soles are attached by special clincher nailing process or sewed by lock stitch process.

A splendid boot for plowing or any kind of hard outdoor work.

Get a pair from your dealer, or order direct from us. Write us for our catalogue No. 43.

NOTE: Owing to the unusual demand for seats in all other centres, the management request patrons to make early reservations.

## Good Speeches Heard at the Opening of the House Yesterday

(Continued From Page One.)

Assembly Chamber, March 2, 1922.

The second session of the Eighth Legislative Assembly of New Brunswick was formally opened at three o'clock this afternoon with the usual ceremonies. The certificates of election for Restigouche and Northumberland counties were read by the Clerk and Abram Vanderbeck, who was returned for Northumberland at a bye-election was introduced by Hon. Mr. Foster and Mr. Martin. The Speech from the Throne was then read by his Honor.

HON. MR. FOSTER moved for leave of absence for Hon. J. E. Hetherington for two weeks on account of illness, and for leave of absence for Mr. Melanson of Kent until Wednesday next, for the same cause.

HON. MR. BYRNE introduced a bill to consolidate and amend the Schools Act. He explained that there had been no consolidation of the Act since 1903, since which time there had been many amendments, and it was proposed to embody the same in one Act.

The Address in Reply.

The Address in reply to the speech from the throne was moved by Mr. Estabrooks of Westmorland, and seconded by Mr. Leger of Gloucester and was as follows.

To His Honor William Pugsley, D. C. L., L. L. D., K. C. P. C., Lieutenant Governor of the province of New Brunswick:

May it please your Honor.

We, His Majesty's most dutiful and loyal subjects of the Legislative Assembly of province of New Brunswick now in session, beg leave to extend our thanks to Your Honor for the gracious speech which Your Honor has addressed to us, and we assure Your Honor that all matters which may be submitted to us during the session will receive our most careful consideration and attention.

Mover of Address.

MR. ESTABROOKS, in rising to move the address, said he wished to express appreciation on behalf of his constituents for the honor which had been conferred upon them. That honor, he could say, was appreciated all the more highly because of the fact that a similar distinction had been conferred on another hon. member from Westmorland only two sessions ago. In looking over the House he wished to say that he was struck with the many changes that had taken place since last session in its personnel. It was with deep regret that they learned during the recess that Almighty God in His infinite wisdom had seen fit to remove their late colleague, Mr. J. W. Vanderbeck of Northumberland. They would miss his buoyant spirit and ready sympathy, and while all regretted his removal from the assembly, they felt that he had been called to the council hall of the Great Premier above, and he felt sure his hon. colleagues would join in welcoming his son as his successor. He noted the loss of the former member for Madawaska, Mr. Daigle, who had accepted an office of emolument; of the member for Kings, Mr. Jones, who had entered the federal arena, also the leader of the opposition during the last session who had been called to a position in the federal cabinet. He felt sure they would miss the versatile gifts of the late leader of the opposition as well as his ready wit, his humor, and his biting satire. While hon. members opposite would keenly feel the loss of their former leader, all realized that his presence in the House was a distinct asset to it in the moulding of legislation in the best interests of the common weal. To the junior member for York he (Estabrooks) wished to extend his sincere congratulations upon his elevation to the position of leader of the official opposition.

The Governor General.

Reference had been made to the departure of the Duke of Devonshire and he believed all would endorse his remarks when he said that on account of his democratic views and his ready assimilation of Canadian ideals, he had endeared himself to all Canadians and the best wishes of the people would follow him. In welcoming Baron and Lady Byng he felt that the Imperial government had made a very happy choice of a successor. In the hero of Vimy all would feel a special interest from the fact that so many Canadians had near relatives who paid the supreme penalty during that memorable siege from which His Excellency derived his title. He felt sure that one who could emerge from the battlefield the idol of his followers would be able to guide the destinies of Canada in a highly satisfactory manner.

Referring to the disarmament conference he said it almost seemed as if the dream of Jules Verne and the great poet who had written "hitch your wagon to a star" had almost come to pass. The conference had been a great success, had done much to promote international good will, and the result would be productive of great good to mankind.

Our Basic Industry.

In referring to agriculture he said that while the past season was remarkable for lack of moisture, there had been abundant crops of potatoes and apples. He was pleased to note that New Brunswick had captured some coveted prizes at the London Fruit Show, and he considered apple culture a branch of agriculture that was deserving of very great attention. All would heartily approve of

the attention the government was giving to the cause of agriculture, and he was glad to note that there was to be legislation for the encouragement of co-operative selling and marketing of farm produce. He would suggest that the government seriously consider the development of the great markets of the West Indies. The people of those islands were anxious to trade with Canada and some were favorable to a political union. With the markets of the United States practically closed the West Indies would provide a natural outlet for a great quantity of farm produce. In order to secure that trade Canada should have representatives in the West Indies who would look closely after her interests. Any measure that stood for the advancement or betterment of the farming classes would have his hearty support. He felt sure that the farmers as a class appreciated the assistance the department of agriculture had rendered them.

The Stumpage Rate.

He felt sure that the people of the province approved of the action of the government in reducing the stumpage rate on the cut of infected lumber. All were aware that vast areas of lumber lands had been infected with the bud worm and other diseases. When trees became affected they soon died and the lumber became valueless. It was only common sense, therefore, to reduce the stumpage on that class of lumber to enable the greatest possible cut to be made. In view of the depressed condition of the lumber market the question of a general reduction of stumpage was entitled to some consideration.

## Latin Americans Are Gathering Their Fruit

The flowers don't bloom in the spring down on the slopes of the slopes of the Andes. At least not in the months when spring is set to arrive on the North American plan. Nor do April showers bring May flowers and blossoming fruit trees in the Amazon valley or across the pampas of the Argentine. To the average New Yorker it seems pleasantly topsy turvy to hear how busy they are just now below the equator gathering in the big harvest of fruits and nuts.

Instead of sitting around waiting for strawberries to get a little lower in price and for the spring poets to have their annual outburst and wondering whether it is not safe enough to go without an overcoat such a warm day, the Latin Americans are sitting in the shade cutting great big yellow melons and drinking coffee. Or they are picking and packing plums and peaches and beginning to get in the grapes.

They haven't forgotten their neighbors to the north who have arrived at the dead of winter. In the matter of the pleasure of the palate. So they are sending New Yorker's fresh fruits now so plentiful below the equator.

Peaches, plums and apricots are in the first consignment, which has just arrived; grapes and melons are expected later. The fruits will continue to arrive, say commission merchants until our own early fruit is plentiful in the market. One of the most neighborly things about these shipments of cheer for a jaded palate is that the fact that they are a luxury not clear beyond the reach of the average purse. Dealers say they should not be much higher in price than early shipments of our own domestic fruit. But they are careful to qualify this pleasant prediction by saying that "it will depend of course on the packing."

"The better the packing the lower the price," is the slogan with which some of them end all discussions of overseas fruit shipments but they explain that profit to the shipper also depends most largely on this one factor. The best refrigeration and the most rapid transportation and the most careful freight handling in the world cannot make up for inaccurate sorting and careless packing. This was the problem of Western shippers and is the problem of Western shippers and is the problem of the South American shipper, which is being overcome with the cooperation of their Government departments of commerce and agriculture.

The best packing in the world is of no avail unless the laborer who took the fruit from the tree knows just how ripe it should be and in picking and sorting handles it with the greatest care. A heavy hand in the orchard of the Andes or of California means a piece of bruised fruit in New York.

## For TENDER SKINS & SORE HANDS

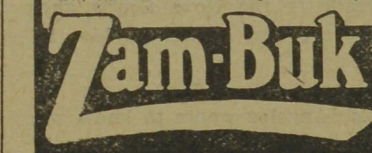

KEEN winds make the skin harsh and rough. Lips get sore; hands crack and chap; faces itch and smart and "break out" into those blotchy eruptions known as winter eczema.

To restore the skin to a clear, healthy flexibility there's nothing like Zam-Buk. Rub it into the face, arms and wrists at night—let it work while you sleep.

Zam-Buk's refined herbal essences soak into, and purify the tissues. They soothe irritation and smarting pain; heal raw sore surfaces and prevent "infection" of the broken skin.

Cold-creams with no medicinal value, or coarse fatty ointments, are powerless to give you the clear healthy skin you desire. You need Zam-Buk—the most soothing and successful skin remedy ever discovered.

Also a wonderful healer for Burns, Scalds, Cuts and all Sores, Wounds and Injuries. Of chemists, 25c. per box or direct from Zam-Buk Co., Dupont St., Toronto. Trial sample 1c. stamp.

One wonders if the girls of the future will take much pride in telling their friends that grandmother was a flapper.

The only thing we know of that doesn't get anything out of publicity is the first robin. It doesn't boost the worm supply worth a cent.

It is fair to surmise that the Pittsburgh girl who vainly tried to kill herself by swallowing twenty-seven cents now feels like thirty.

## Notice of Legislation

Notice is hereby given that application will be made at the next session of the Legislature for the passage of an Act to amend Section 105, sub-section 13, of the Schools Act, to fix the amount which may be required for the maintenance of schools in the City of Fredericton, as provided by said section, at a sum not exceeding eighty thousand dollars.

R. D. HANSON,  
Secretary to School Board.

Dated February 24, 1922.

## THE TORTURE OF INDIGESTION

Thousands Made Miserable By This Trouble

"FRUIT-A-TIVES" Relieves It

What is Indigestion and what causes it? As you know, solid food must be changed into a liquid by the stomach before it can be taken up as nourishment by the blood.

The stomach acts as a churn. It is covered by a strong, muscular coat and lined with a soft, delicate membrane which secretes the Gastric Juice which digests or dissolves solid food.

When food enters the stomach, the muscular coat squeezes and presses the food from end to end, or churns it, with the gastric juice to dissolve or digest it.

But—if the stomach muscles are weak—or if the dissolving fluid is poor or insufficient—then food cannot be digested properly and you have Indigestion.

"FRUIT-A-TIVES" is the most wonderful medicine in the world for strengthening the stomach muscles and providing an abundance of pure, full-strength dissolving fluid to completely digest every meal.

"FRUIT-A-TIVES" does this because it keeps the kidneys active, the bowels regular and the blood pure, which insures pure Gastric Juice.

"FRUIT-A-TIVES" will correct your Indigestion or Dyspepsia and enable you to enjoy every meal. Try it.

50c. a box, 6 for \$2.50, trial size 25c. At all dealers or sent postpaid by Fruit-a-tives Limited, Ottawa.

## Frozen Delight

## NOTICE OF LEGISLATION

Public Notice is hereby given that application will be made by the City Council of the City of Fredericton at the next Session of the Legislative Assembly for the passage of an Act to enable the said City Council to grant to the Chestnut Canoe Company Limited, exemption from all taxation, except school taxes, on its factory, plant, machinery and stock-in-trade, manufactured and unmanufactured for a period of twenty-one years from the first day of May next.

Dated this sixteenth day of February, A. D. 1922.

(Sgd.) G. R. PERKINS,  
City Clerk.

## Notice of Legislation

Notice is hereby given that application will be made to the Legislative Assembly of New Brunswick at the next Session thereof, for the passing of an Act authorizing the Town of Devon to exempt from taxes (except School Taxes) new residences erected in the said Town, for periods of five years; and also to authorize the said Town to impose a license fee upon every person, who not being a rate payer or resident, shall engage in or carry on any labor, work, calling or occupation within the said Town.

Dated this 22nd day of February, A. D., 1922.

WILLIAM A. JAFFREY,  
Town Clerk.

WINSLOW & McNAIR,  
Solicitors.
