

BABY'S OWN SOAP

For Beauty—

Keep the skin clean, soft, and white, by regular use of Baby's Own Soap. Lather freely with tepid water—rinse well and rub gently with a soft towel—the skin is improved—the complexion heightened—and the lingering fragrance of roses radiates an added charm (only natural flower extracts are used to give Baby's Own Soap its exquisite aroma). Contrast this treatment which hundreds of thousands of Canadian Mothers have used and are using so successfully on the delicate peach-blow skins of their darling babies—with that of covering up the pores with cosmetics, choking off the air, hiding defects which therefore stand confessed.

Progressive Members Take Part in the Debate on Address in House

(Continued from Page One)

Assembly Chamber March 8th, 1922
The House met at three o'clock.
MR. KING submitted the first report of the Contingencies committee. Notices of enquiry were given for Tuesday text as follows:

By MR. FLEWELLING: As to whether Mr. E. S. Carter had made a trip to British Columbia on public business and as to whether his expenses were paid by the province and the amount of same.

By MR. YOUNG: As to work done on the Provincial Normal School building and cost of the same.

By MR. RICHARDS: As to whether the government has purchased the Queen Hotel property in Fredericton or taken an option on the same, also the purchase price and whether any payment has been made.

HON. MR. ROBINSON submitted

Pains After Eating

Today thousands are afraid to eat because of the pains that follow even a light meal of good and wholesome food. Mother Seigel's Syrup, taken after meals, has helped tens of thousands to enjoy their food, and put an end to the pains and miseries of indigestion. Sold in 50c. and \$1.00 bottles at drug stores.

PROBATE COURT County of York Province of New Brunswick

To Lillian Niles of Fredericton in the County of York, Spinster, Nettie Allen of the same place, Married Woman, George Niles of South Devon, in the County of York, Machinist, Earl Robert (L.S.) Niles of the same place, Locomotive Fireman, Ella May Aiken of Fredericton aforesaid, married woman, and Sarah Perkins and Marion Perkins of Sussex in the County of King's, all in the Province of New Brunswick and to all others whom it may concern.

Whereas Carrie Mooney hath filed in this Court what purports to be the last Will of Sarah Jane Niles, late of The City of Fredericton in the County of York, Widow, and hath prayed that the same may be proved in solemn form, you are therefore required to appear before me, if you so desire, at a Court of Probate to be held in and for the County of York at my office, 532 Queen Street in the City of Fredericton on Monday the twenty-seventh day of March, A. D. 1922, at the hour of eleven o'clock in the forenoon, to show cause, if any, why such will should or should not be proved in solemn form.

Given under my hand this eighteenth day of February A. D. 1922.

(Sgd) J. BACON DICKSON,
Judge of Probate pro hac vice
Estate Sarah Jane Niles
(Sgd) JAMES HOLLAND,
Registrar of Probate.

WHAT CAUSES SO MUCH SICKNESS

Constipation Responsible
for 90% of Disease

"FRUIT-A-TIVES" Corrects It

It is generally recognized among the medical profession that Constipation or Insufficient Action of The Bowels, produces more disease than any other one cause. Constipation is responsible for at least 90% of the disease in the world today—because Constipation is responsible for the Indigestion and Dyspepsia—the nervousness, Insomnia and Rheumatism—the Eczema and other skin troubles—the Headaches and Backaches.

Why is this?

As you know, it is the duty of the bowels to carry off the waste matter in the system. If the bowel muscles are weak or the liver inactive, then this waste matter remains in the body and poisons the blood. As a result, every organ in the body is poisoned by this waste.

"Fruit-a-tives" has been wonderfully successful in relieving Stomach Troubles, Nervous Troubles, Liver Troubles, Kidney Troubles, Skin Troubles and Blood Troubles, because "Fruit-a-tives" positively and emphatically relieves Constipation.

"Fruit-a-tives" will always relieve Constipation, even though the trouble has been chronic for ten, fifteen and twenty years. Thousands of grateful users proclaim "Fruit-a-tives" the greatest remedy for Constipation that the world has ever known.

50c a box, 6 for \$2.50, trial size 25c. At dealers or sent postpaid by Fruit-a-tives Limited, Ottawa, Ont.

the sixty-first annual report of the Department of Lands and Mines.

HON. MR. ROBERTS submitted the annual report of the Provincial Hospital for 1921.

Mr. Peck's Effort.

MR. PECK, on the order of the day being called, resumed the debate on the address. He congratulated the mover and seconder of the address and thought they had done well in their attempt to justify the extravagance of the government. He also congratulated the hon. leader of the opposition on his maiden effort and on the able way in which he had disclosed the financial condition of the province. The party press had endeavored to belittle the speech of his hon. leader and the government had put up its ablest member in an attempt to destroy it, but in both cases there had been failure. The speech of the Hon. Minister of Lands and Mines was both interesting and instructive; his thoughts seemed to hinge on the opposite side of the house and at times he spoke as if he would like to be there. The hon. minister spoke of the crown lands and when later he took up other questions and spoke of the need of economy the Hon. Minister of Public Works had looked up in astonishment. The Hon. Minister had spoken of in keeping the expenditure of the province within the income and to that the Hon. Minister of Public Works had said "rot" evidently not being in accord with that policy. He (Peck) had then cast his eye toward the Hon. Minister of Agriculture, a member of the administration who did nothing and said very little. The speech from the throne promised cooperation with the farmers. If the government did that and displayed no more ability than was shown in the conduct of public business every farm in the province would be boarded within five years.

He did not propose to discuss all the subjects which had been touched upon by other speakers, but he would say a word in regard to the question of prohibition. He did not know what the government's intentions were in regard to the future, but would deal with matters as they existed today. They had a liquor apportionment in the city of Fredericton and the people did not know what was going on there. The building was located on Queen Street and was known as the "Old Barracks."

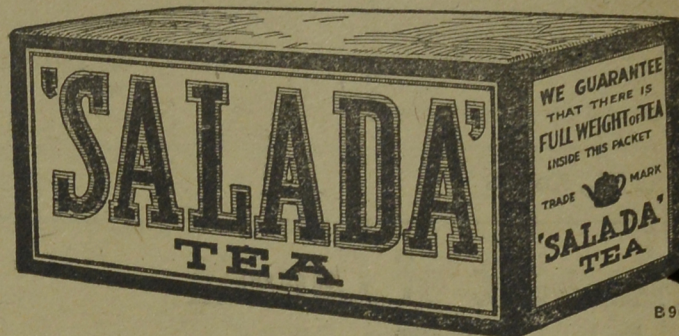

HON. MR. FOSTER "Do you want it in your town?"

MR. PECK said that he had visited the building in question and had been shown through it by Mr. Tweeddale, the Chairman of the Commission.

HON. MR. VENIOT "Did he treat you?"

MR. PECK said that he did not, but he took him through every room and showed him an immense quantity of liquor in barrels and boxes. There was a clerk and stenographer employed in the place and the organization seemed to be capable of carrying on a three million dollar business. There was liquor piled up on the premises to the value of three hundred thousand dollars. Now he wished to know by what authority the government had taken \$300,000 out of the revenue and invested it in whiskey. The members of the administration did not dare stand up and justify their actions, but remained as dumb as oysters. He thought it strange that in the present financial condition of the province the government could take \$300,000 from the revenue and invest it in liquor the government professed to be acting under an amendment to Intoxicating Liquor Act. That Act allowed for the appointment of a commission of three persons, and it gave the government the right to buy and sell liquors, but section nine set forth the amount to be expended for the purpose was not to exceed \$30,000. He contended that that sum was sufficient for the purchase of a stock of liquors for medical and mechanical purposes. The government had not only taken three hundred thousand dollars, but had violated their own Act. He would advise them to dispose of that liquor at once and to use the proceeds for working out the deficit they had made.

Now they had the hydro-electric scheme, which he looked upon as a sort of financial elephant. Perhaps it was not advisable for him to say much about it as the government was now seeking to unload it upon the city of St. John. If they were to do that he would say that it was the best thing that could happen in the interests of the province. The interest charge on the outlay was costing the province \$300 a day, and of the government could not call it the best thing they could do would be to give it away. In regard to the Public Health Act he and his hon. colleague had warned the minister that it was not popular in country districts, as the people felt they were not receiving value for the money. Personally he was not opposed to the Act, but he did object to the way in which it was administered. He regretted that the hon. minister of public works had made such a large over-expenditure in his department. The hon. minister of lands and mines in discussing the matter had placed the blame on forest fires, but they had been responsible for only \$144,000, while the deficit was half a million. He noticed that a paragraph in His

Its Rich Delicacy and
genuine all-round goodness makes
Salada the choice of millions and its
sales are ever increasing.

Honor's speech had stated that the current revenue for the year had exceeded the estimate. The actual revenue was \$3,105,179, which was \$209,423 more than estimate. The government had expended \$3,612,400, or \$507,132 more than was estimated. The speech from the throne should have stated the matter in that way, and the people then would have understood its meaning. The government took office at a favorable time, when the revenues were large, and had called themselves a business government. He would have been very much pleased had the government carried on the public business in a business-like way. They had been in office five years and today were raising revenue by the liquor business in violation of their own Act. The Health Act was unpopular and the judges were now busily engaged in issuing orders for payment

against the municipalities. The government came into office as a business administration, but had developed into a spendthrift government. He wanted the people to know that he was opposed to the raising of revenue by either the sale of liquor or direct taxation. He felt that if the administration were to practice real economy they would have no difficulty in making ends meet.
