THE WEATHER

Moderate northeast winds with occasional showers. Tuesday northerly winds fair and cool.

VOL. XXVIII., No. 169

FREDERICTON, N. B., MONDAY, JULY 24, 1922

TWO CENTS PER COPY

N. B. ROADS ARE IN FINE CONDITION

ARE PRAISED BY AMERICANS

Interesting Reports Have Been Made to the Automobile Association of Maine.

The highways throughout Maine as well as in New Brunswick, are now in excellent condition according to reports received by the Tourist Bureau of the Maine Automobile Association. With the exception of certain unimportant secondary roads the damage resulting from the heavy rains has been repaired and deport in circulation that the roads of the State were so badly washed by the downpour that they will be unfit for travel throughout the entire summer are untrue. Of New Brunswick roads it is said:

The New Brunswick roads are in excellent condition or at least the main arteries of travel the ones used by tourist traffic. The main highway between Houlton, Maine and Woodstock, N. B., is in good condition, but strange to say, this important inlet of travel is rougher than the majority of the other roads in the Province. There is a fine new provincial highway between Woodstock and Fredericton, along the St. John River. This is now being built in one or two spots but traffic is not interfered with. The main road between Fredericton and St. John is also in good condition. There is a good road between Fredericton and Newcastle, via Doaktown and Blackville. A large crew is at work on the Miramichi Wood road between New castle and Bathurst distance of about 55 miles, and for the first time this road this year is in very passable condition.

Approximately three-quarters of it has been constructed and is in fine shape while the balance has been smoothed up, preparatory to being built. It is now no longer necessary to take the shore route between these two important towns. This latter however is in good condition and runs via Newcastle, Neguac, Caraquet and Grand Anse, to Bathurst.

The road between Bathurst and the famous Restigouche and Matapedia rivers fishing country is now in fine shape.

HELPING THE 'CLONE VICTIMS

Aurora, July 24—Though farmers everywhere are very busy just now, regular work being dropped to assist the men of Whitechurch whose buildings were wrecked in the recent win storm. Building bees are the order of the day, and barns damaged by the storm will all be restored in time to house the season's crop.

The district around Vandorf was particularly hard hit. Today farmers from this section turned out to an old fashioned bee to aid Simmons Atkinson repair his buildings. Other bees will shortly be held to repair the barns of Albert Preston, Arthur Van Nostrand and Ezra Armstrong.

BOY PASSED BAD CHEQUE

Detroit, July 24—Edward Gibson, aged 16, of Sunnyside, Ont., stepped into a store on Woodward ave where they sell second hand autos, and, with a bad cheque for \$250, bought the little red roadster a girl friend was admiring.

A patrolman stopped him two hours later. He admitted to Judge Marsh in the Recorder's court today that he forged the name of Paul Smylie, son of a prominent Detroit banker.

Earnest W. Way, manager of the used car store, who caused Gibson's arrest, later sought clemency for the youth and he was released. Way says he will give him a good job.

PHYSICIAN OF EASTON, ME. IN TROUBLE

Under Arrest Charged With the Murder of Mrs. Lyndon Oak of Caribou.

Houlton, Me., July 23—Dr. John T. Dilling, the Easton physician who is in jail here tonight, will be taken to Caribou tomorrow morning and arraigned before Judge Robertson on the specific charge of the murder of Mrs. Lyndon Oak, of Caribou, on July 9. He has engaged as counsel Herschel Shaw, son of the attorney general, Ransford Shaw, which will bring father and son in opposition if the case comes to trial. According to Dr. Dilling's counsel, the hearing at Caribou will be brief, as Dr. Dilling will plead not guilty and a continuance will be asked for two weeks.

There seem to be no new developments today and many wild rumors appear to have but little foundation. The result of the examination of the exhumed bodies of Mrs. Oak and Miss Ramona Conant, of Presque Isle, made yesterday by Dr. G. B. McGrath of Boston, and the medical examiner S. W. Boone, of Aroostook county, will not be announced by County Attorney Roix who also declines to say whether any others will be exhumed. Dr. Dilling is sixty-five years old and has, up to this time, enjoyed an excellent reputation as a kindly and honorable family physician and the present prosecution comes as a great surprise.

More than to declare that he intends to go to the bottom of the case and find out the facts in the matter, County Attorney Roix had nothing to say today.

Dr. Dilling, after his arrest in Massachusetts, waved extradition and came home in his own car with a deputy sheriff. He appears under a heavy nervous strain and is closely guarded tonight.

SLEPT ON THE ENGINE PILOT

Hammonton, N. J., July 24—When a Pennsylvania Railroad train from Atlantic City passed through here at high speed last night there was the motionless form of a man on the front of the engine. When the train stopped at Broad Street Station, Philadelphia, railroad officials and others were horrified to find a boy 17 years old lying inert on the front of the locomotive. He was alive, but asleep and had made the ride, almost 70 miles, in this dangerous position, the train sometimes rushing through the darkness at 70 miles an hour. He was Frederick Herbert of Shawnee, Okla., homeward bound without the formality of paying regular rates. The Philadelphia police took him in tow.

WILL TRY A LONG FLIGHT

London, July 24—Major Morgan, the British aviator who is to attempt a Pacific flight from San Francisco to Sydney, N. S. W., for the £10,000 prize offered by Thomas Ince of Los Angeles, has planned his route. Starting from the California capital probably October 2, Morgan hopes to make a non-stop flight to Honolulu 2,080 miles.

TO TAX BOOZE.

Kingston, Jamaica, July 23—Customs statistics show a great increase in the whiskey export trade. In consequence the government has decided to levy a tax of \$1.25 on each case of whiskey exported.

Mandate System of Government Is Now Effective

FINAL CONFIRMATION GIVEN THE PALESTINE AND SYRIAN MANDATES BY THE COUNCIL OF THE LEAGUE OF NATIONS—EARL OF BALFOUR SAYS CUSTODY OF THE HOLY PLACES IS OF GREAT INTEREST TO THE WORLD.

London, July 23—Final confirmation was given the Palestine and Syrian mandates yesterday by the council of the League of Nations.

This means that the mandate system of government becomes effective throughout the world almost immediately. There remains for settlement only certain minor points between France and Italy, respecting Italian schools, immigration and some economic features in Syria.

The Earl of Balfour, Rene Viviani and Marquis Imperiali, respectively the delegates of England, France and Italy, will make declarations on Monday regarding the future policy of their governments in the mandate areas.

Regarding the confirmation of the mandates, the Earl of Balfour said yesterday that their immediate adoption was imperatively needed in order to allay the unrest among the different racial elements in the mandate areas. He said that while custody of the holy places was of great interest and importance to the outside world, they were of relatively little concern to the inhabitants of Palestine. M. Viviani endorsed the view. He said that France desired that the mandates should be accepted immediately. Marquis Imperiali, who contended for the definition of the Vatican's rights to the holy places, yielded on this point.

THREE YEARS' EFFORT

The action of the council marks the culmination of three years' effort and negotiation on the part of the league to institute the mandate system in the Pacific Islands, Central Africa and Asia Minor. It is construed as a victory for Earl Balfour and is giving further effect to the establishment of a Jewish national home.

The mandate for Mesopotamia automatically disappears with the creation by Great Britain of an independent state in that country. There was no real divergence of opinion regarding the Syria mandate, but article 14 of the Palestine document defining the functions and powers of the commission for the custody of the holy places, is now revised to meet the wishes of all the parties and the text will be announced on Monday.

The composition and competency of the commission will be determined by Great Britain before the next session of the assembly in September. It became known today that the Vatican approached the council regarding the safeguarding of its interests through Count De Leon, Spanish ambassador to France. It is probable that Mgr. Cerretti, papal nuncio in Paris, will be heard on the claims of the Holy See on Monday.

SCORNS HIS WIFE'S LURE

Paris, July 24—The amazing adventure of a modern Joseph and Potiphar's wife has just been revealed in the case of a woman who called in the police, seeking revenge and then confessed when closely questioned, to a deliberate frameup.

Dispatches from Oloron in the Pyrenees district state that neighbors, becoming alarmed at not seeing a woman around a house, which was shuttered and locked up, informed the Mayor and police. They broke in and found a woman roped to the bed, everything in the room indicating signs of a struggle.

When released the woman made accusations against a young man of the village. Her evidence was taken but just as the officer announced that he would proceed to arrest the accused the woman broke down and confessed. She had bound and gagged herself with the intention of revenging herself on the man whose only crime was that he had imitated the example of Joseph when she had played the role of the wife of Potiphar.

Lumbermen Were in Session

At Chatham last week the N. B. Lumbermen's Association was in session and discussed the stumpage-rate the Workmen's Compensation Act and other matters connected with the lumber industry.

MURDER ON A SCHOONER

Maimi, Fla., July 23—The boarding party which raided the British schooner William M. Albury and killed Captain Edgecombe, negro master, off Gun Key, Thursday, was made up of three white youths from the auxiliary schooner Falcon and only \$2,000 was taken from the large amount in the schooner's safe, British Vice-Consul Jenkins has been informed in a message from Bimini Island. Maimi police are searching for the Falcon's crew. The vessel was found abandoned in port.

SYDNEY COAL IS MOVING

Sydney, July 23—During the week ending Friday night 85,000 tons of coal were shipped by the Dominion Coal Company from International Pierre here, a record quantity. Of the 85,000 tons, more than 31,000 were for American ports, the largest tonnage shipped from Cape Breton to the United States in many years.

Left By Motor

The Fredericton Baseball Club left at ten o'clock this morning by motor for St. Stephen and Miltown where it will play today and Tuesday.

The slow and sure overtake the swift.

OFF TO ENGLAND ON MISSION OF IMPORTANCE

Hon. J. A. Robb Will Try to Promote Trade With European Countries.

Ottawa, July 23—Hon. J. A. Robb, minister of trade and commerce, leaves this week for England on a mission designed for the development of trade between Canada and European countries. The policy of the government contemplates commercial relations with every country willing to trade with Canada and Mr. Robb will look into the situation generally and consult with the commercial agents overseas.

He will also inquire into the desirability of co-ordinating the trade agencies and immigration offices.

While in London he will interview the corn exchange respecting complaints recently made in that quarter that a few cargoes of Canadian wheat shipped through an American port with seaboard inspection there were mixed with lower grades after leaving Canada. The case has been looked into by agents of the department and the complaint appears to have been justified.

The department policy is for grain shipments through Canadian channels and the need of this is accentuated by the alleged disclosure.

The Canadian government will shortly appoint a trade commissioner and an assistant trade commissioner to report upon and investigate openings for Canadian trade in Mexico. The order in council containing the authority for the appointments says that "Mexico offers a field for organizing and extending healthy trade relations between that republic and Canada."

TO REPAY THE WAR DEBT

London, July 23—Much prominence is given here today to American press comment applauding Lloyd George's debt and reparations policy already published. In the British mind the repayment of American war debts is considered more important than the reparations settlement.

Whatever the reason, whether it is a sudden desire to retain prestige, or is based on solid economic grounds, there is much haste and great determination of the Government to discharge the American debt. Suggestion has been made to Lloyd George that as much of the money lent to Great Britain was for her European allies he should go easy on the repayment of this part.

DESTROYED BY LIGHTNING

Richibucto, July 23—During the course of a severe thunder storm which passed over this section at about 7 o'clock on Saturday evening the fine Roman Catholic church at St. Charles, eight miles from here, was struck by lightning and totally destroyed by fire. The church was one of the finest structures on the north shore. It has been only recently repaired at great expense, and contained a wonderful chime of bells which had been imported from France. The fire was plainly visible from Richibucto.

HIGH SCHOOL PUPIL AT 10

Brockville, July 24—At the age of 10 years, Miss Ida Hilda Symington, daughter of Roy Symington of Jellyby, Leeds county, has passed the entrance examinations with honors for the Athens High School. She has attended public school for scarcely four years. Her teacher is Miss Helen C. Jelly.

JAZZ BUSINESS IS OUT OF DATE SAYS EDISON

MANUFACTURERS ARE WAKING UP

Are at Last Finding Out What It Costs Them to Run Their Business.

West Orange, N. J., July 24—"Jazz business" is going out of date soon. The American manufacturer is waking up. So said Thomas A. Edison in an interview to-day.

"The American was always in a big hurry to make a lot of money," the inventor explains. "If he couldn't become a millionaire in fifteen minutes he wasn't satisfied. Jazz business, that's what it is."

"For the first time in his life the American manufacturer is beginning to know what it costs him to run his business and he's beginning to appreciate that it isn't the first cost but the last cost that really counts," declared Mr. Edison, pointing out at the same time, that the English and Germans do business on a "much firmer basis."

"When a German manufacturer puts up a building he builds for all time—solid, tremendous, foundations tessellated floor and everything possible to make for permanence. When we build a factory we build a shack," the inventor said.

"This hurry to get wealth was the fundamental basis upon which the American manufacturer went into business. Put as little you can in, get as much as you can out. But it's changing now. We're beginning to see that it doesn't pay for one thing, and then there is more available money. The American manufacturer is beginning to wake up."

FORMER PASTOR OF ST. PAUL'S PASSES AWAY

St. John, July 24—Rev. Willard MacDonald, B. A., died suddenly last evening at 7.45 at the General Public Hospital. For several years his health had been impaired and precarious, but the news of his death will come as a great shock to his many friends throughout the maritime provinces. He had been identified with the Presbytery of St. John during the whole of his ministry. He was ordained by the St. John Presbytery in St. David's church on May 4, 1886, the late Rev. George Prince, D. D., conducting the ordination service, and was then assigned as ordained missionary to St. Martin's. Afterwards he was transferred to Hampton, Hammond River and Rothesay. He was next called to St. Paul's church, Fredericton and after a pastorate of many years at St. Paul's church, he resigned on account of illness. He had filled charges in all sections of the province. He was a lovable man and his ministrations were duly appreciated in the several sections in which he served. He was a true pastor, an interesting and forcible teacher, a sound preacher and a warm friend. His removal will be felt keenly by many to whom he had endeared himself, or the past few years he had resided at St. John, leading a retired life. Occasionally, when sought for, he had aided in giving supply and for the past two years he had conducted an adult Bible class in St. David's Sunday school. The reverend gentleman was born in Brooklyn, Hants county, N. S., His only living brother George S. MacDonald, of Boston, is now visiting his niece, Mrs. Samuel Kerr, 174 Duke street, having been called to St. John by the illness of Rev. Mr. MacDonald.

(Mr. George S. MacDonald spent yesterday with friends in Fredericton and received the news of his brother's death while here. When he left St. John the Rev. gentleman's condition was unchanged, but he had a turn for the worse soon afterwards.)
