Marysville Reformed Baptist.
Rev. H. S. Dow, Pastor. Social Service at 10.30. Sunday School at 2.30 p.m. Preaching at 7 by Pastor. All are invited.

THE DUMBELLS FAREWELL

Captain M. W. Plunkett's world famous "Dumbells" will play a first and final engagement of two nights, at the Opera House commencing Monday, November 13th.

The entertainment which they are presenting on this goodbye tour is absolutely new and entirely different from anything which they have offered before. The title of the new show is "The Dumbells Revue of 1922", and it was first presented at the Grand, Toronto, last spring and continued there this fall until the boys had established a record of 34 weeks in that city in less than three years.

This new revue had never been played in the East prior to that time, therefore, it will be found to be entirely new to local theatregoers, who have heretofore gone to St. John to see the show.

The personnel of the "Dumbells" organization has remained practically the same throughout their three years in Canada. There have been some minor changes from time to time, boys have dropped out for one reason or another, and been replaced by others, but these changes have passed unnoticed because of the fact that the boys whom one remembers from season to season, because of their outstanding abilities, have been retained at all times and are still with the show.

"Chiropractic is a scientific mode of adjusting the real cause of disease."—U. A. Lyle, M. D., Logansport, Ind.

HEART PALPITATED And Was Short of Breath

Through one cause or another a large majority of people are troubled more or less with some form of heart trouble.

Many people may be unaware of having anything wrong with their heart till some little excitement, overwork or worry starts it to palpitate and throb, skip beats, beat fast for a time and then slow as to seem almost to stop, then it causes great anxiety and alarm.

To all such sufferers **Milburn's Heart and Nerve Pills** will give prompt and permanent relief. Mrs. Alice Bishop, 15 Hawthorne Ave., Hamilton, Ont., writes:—"I take pleasure in recommending Milburn's Heart and Nerve Pills to all persons troubled as I had been. I suffered from palpitation of the heart and shortness of breath; my heart would skip beats and in the night at times I would have to sit up to get my breath. I could not go up stairs without my heart fluttering and my nerves were all unstrung but since using your famous Pills I have felt like a different person."

Price 50c a box at all dealers or mailed direct on receipt of price by The T. Milburn Co. Limited, Toronto, Ont.

AROUND THE TOWN

Sportsmen and others who have been about the river a good deal during the autumn months claim that wild ducks have been more plentiful this season than for many years. This may or may not be due to more efficient outcome of a treaty between Great Britain and the United States. Under the law the sale of migratory game birds is now prohibited and there is a heavy penalty for trafficking in them. This includes wild geese, Brant and woodcock as well as ducks. The shooting of the gayly plumaged woodcock is now prohibited altogether. Local sportsmen who have visited the marshes of Sunbury and Queens all had good sport; they found the birds very plentiful and not overly wild. The meadows of the lower river counties particularly Sunbury and Queens are said to be the best resort for ducks in maritime provinces. It is good to know that the birds are more than holding their own. Ducks are generally plentiful early in the season and then all of a sudden they all seem to disappear. A veteran wild fowler in explanation of this says that the birds all go out to the salt water to rid themselves of lice and having done this they turn to the inland lakes and meadows, where they remain until driven south by the ice.

A rather good story is being told at the expense of a veteran merchant who is somewhat noted for his boyish pranks. He was in a meat store a few days ago and while there bumped into a well known spinster lady. He promptly introduced her to the proprietor as his better half and the proprietor being a stranger in the city readily fell for it. The lady back at the joker rather neatly. She was making a purchase at the time and as the dealer handed her the parcel she remarked in sweet tones, "My husband there will settle with you for this." She then walked out of the store and there was nothing for the erstwhile hubby to do but dig down and pay up.

The late Prof. Max Sterne who died at Amherst last week was well known in this vicinity having for some time filled the position of organizer of the handsome church at Marysville which the late Alex. Gibson built and presented to the Methodist conference. The professor accompanied the late Dr. C. W. Hewson of Amherst on a trip to Fredericton about ten years ago and while here they ran across an old friend in the person of the late Joseph Howe Dickson K. C., whose acquaintance they had made when he was a student at law at Dorchester. Prof. Sterne was a native of Germany and fought in the Franco-Prussian war. He became disgusted with things in Germany and before the war was over shook the dust of that country from his feet and immigrated to America. Some years afterwards it seems he took a notion that he would like to revisit the land of his birth but being afraid that he would be pinched for military service he consulted the versatile Joseph Howe as to the best means of procedure. Mr. Dickson was equal to the occasion and lost no time in taking out naturalization papers for the professor. Attaching a seal to the document as large as a hard tack biscuit he handed it to his client and assured him that he had nothing to fear from the German war lords. The professor made the trip to his native country and was permitted to depart in peace. He had a hearty laugh over the incident with Mr. Dickson and did not hesitate to say that the naturalization papers saved him a whole lot of trouble.

The late C. H. Giles of Kingsclear who died during the week was a very good type of the English gentleman farmer. He had one of the finest country homes in the province a place which always attracted more than a glance from passers by. He was a believer in pure bred stock and achieved quite a reputation as a breeder of Holstein cattle. Mr. Giles was in receipt of a substantial income from the old country and gave liberally to the church at Kingsclear and to other worthy causes. The fine church hall at Springhill

was largely the result of his beneficence. Mr. Giles had a great many friends, personal as well as political and like other easy going men of means he numbered among his acquaintances some individuals who returned him evil for good. It cost him a good many dollars to know certain people and of late years he found it good business to make just as few trips to the city as possible.

While the receipts from the sale of hunting licences this season are expected to run well up to last years total the number of non-resident sportsmen passing through Fredericton to the hunting grounds of the Miramichi has not been as great as was the case a few years ago. Fredericton used to see quite a number of English sportsmen but none have been here since the outbreak of the great war. Some of them may be going elsewhere for their big game hunting but in all probability many sportsmen are sitting tight at home trying to raise the wherewithal to pay their income tax. Unsettled business conditions in the United States have kept many Americans at home this season but even had they been able to make a trip there is no assurance that they would have visited New Brunswick. The Province of Quebec now has to be reckoned with as a pretty formidable competitor for sportsmen and tourists. The hunting season in Quebec opens on September 1st or a month earlier than ours and then it must not be forgotten that Quebec has attractions of a liquid nature which are very apt to appeal to men going into the woods to commune with nature and enjoy a holiday.

"The senseless, ruthless destruction of the tonsils is becoming each day a greater menace to the public good."—Jno. McKenzie M. D., John's Hopkins University.

HOW TO REGAIN YOUR GOOD HEALTH

It Can Be Done Through Keeping
The Blood Supply Rich
and Pure.

There is not a nook or corner in Canada, in the cities, the towns, the villages, on the farms and in the mines and lumber camps, where Dr. Williams' Pink Pills have not been used, and from one end of the country to the other kind words have been said for this medicine.

You have only to ask your neighbors, and they can tell you of some rheumatic or nerve-shattered man, one suffering woman, ailing youth or anaemic girl who has been benefitted more than a third of a century these pills have been known not only in Canada, but throughout the world as a reliable tonic, blood enriching medicine. The success of Dr. Williams' Pink Pills is due to the fact that they go to the root of the disease in the blood and by making the vital fluid rich, they strengthen the organs and nerves of the body. Mr. A. M. Large, Victoria, P. E. I., adds his testimony to that of thousands of others who have found benefit through the use of this medicine. He says:—"About three years ago I became dreadfully run down so much so that I had to stop work altogether, and being a carpenter, and busily engaged, the outlook was gloomy I became so reduced that I would have to rest even after a short walk. My appetite almost completely failed. The doctor whom I consulted told me that I would have to take a prolonged rest, and gave me a bottle of medicine, which however, did not help me. Then a good friend urged me to try Dr. Williams' Pink Pills, and I got a supply and before long felt an improvement. From that on I continued to gain and was able to resume my employment. I continued taking the pills for some time longer and now feel as vigorous as I ever did."

You can get these pills through any medicine dealer, or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

"The theories of removal of the appendix, tonsils and highly infective character of tuberculosis will soon be in the scrap heap."—Helen S. Gray in the Forum, May, 1915.
