PALMER'S
Moose Head Brand
Summer Packs & Plow Shoes

SLIP on a pair of Palmer's
Summer Packs or Plow
Boots, and you will realize what
Firm Foot Comfort really means. Added to this, you
have strength and durability, making a combination of
good features seldom found in one pair of boots.
Palmer's Summer Packs and Plow Boots are hand
made and hand sewed by expert workmen. The bottoms
and uppers are made from Palmer's Famous Skowhegan
Waterproof Leather, rich dark brown in color, very soft
and pliable. Bottom part of uppers runs clean under,
a great advantage over the laced under boot.
Soles are attached by special clincher nailing process
or sewed by lock stitch process.
A splendid boot for plowing or any kind of hard out-
door work.

Get a pair from your dealer, or order direct from us.
Write us for our catalogue No. 43.

OF INTEREST TO THE WOMEN

THE NECKLINES OF TODAY ARE
ALMOST CHILDLIKE IN
APPEARANCE.

The Boston Traveller says: How-
ever sophisticated most of our
frocks or our hats may be, there is
something beguilingly childlike about
our neckwear. The round collars of
school days are those we choose to-
day, and when these accompany a slip
or a sweater or finish the neck of a
simple summer gown it is about as
helpful in covering up one's age as
bobbing one's hair!

Paris which always looms up in
our minds when we are on the sub-
ject of clothes likes the simple neck
lines and is experimenting with dres-
ses which have some other neck fin-
ish than the heretofore inevitable
bateau neck. They approve of our
childlike collars and in this connec-
tion it is interesting to note how far
and no further Paris experts are in-
fluence on fashions for children. It
cannot be said that she dominates
this field as much as she does the
fashions for the grown ups.

PARIS DESIGNS ADOPTED

Undoubtedly our designers take
their ideas from Paris, but they
have found that to make a success
of them they must be adapted to
the needs and the tastes of the
American child.

The little Parisienne with her
very short skirt and extreme cos-
tume is an altogether alluring per-
son, but somehow our children do
not dress that way. A French
child is a bit too sophisticated in
her dress for the English or Ameri-
can child. The diminutive skirt is
really the chief difference between
their styles and ours and it will
never become popular over here as
American mothers feel it is too
impractical for the growing child and
it is said that the same objection is
also raised in England.

Our little girls are more athletic
for one thing and one of their most
distinctive features is their smart
tailored appearance which necessi-
tates the modifying the frillier
French models.

LITTLE CAKES FOR ARTER- NOON TEA.

Little cakes are more attractive
than the big ones for luncheon, very
often. Fresh little cakes with canned
fruit or with a cup of chocolate
make a delicious dessert. And they
are infinitely less trouble to prepare.

Any good cake batter may be
used, with the addition of various
spices, chopped nuts, raisins, dates
or citron from time to time to vary
the character of the cake.

The simplest sort of frosting may
be used, just confectioners sugar
mixed with milk or with beaten
white of egg.

Or you need use no frosting but
may sprinkle the cakes with sugar.
Sometimes you may place a nut
meat in a little white or chocolate
frosting. Sometimes you may sprink-
le the cakes before baking them
with granulated sugar and cocoa
mixed. This cooks into a most inter-
esting surface.

NUT CAKES.

Chop coarsely a cup of pecans
walnuts or hazelnuts. Add a cup of
sugar, the stiffly beaten whites of
two eggs, and sufficient flour to
roll. Roll thin cut into rounds and
bake in slow oven.

The Athlete's Remedy for Sprains and Bruises

THE sprains and
bruises encountered
in sport vanish with the
application of Minard's
Liniment. This fact is
confirmed by the fol-
lowing letter received
from W. E. McPherson, Secy. Arm-
strong High School Baseball Club:
"Since the start of the Baseball season
we have been hindered with sore
muscles, sprained ankles, etc., but just
as soon as we started using Minard's
Liniment our troubles ended. Every
athlete should keep a bottle handy."
This letter is only one of the many we
have received from well-known athletes.

YARMOUTH, N.S.

THE TORTURE OF INDIGESTION

Thousands Made Miserable
By This Trouble

"FRUIT-A-TIVES" Relieves It

What is indigestion and what
causes it? As you know, solid food
must be changed into a liquid by the
stomach before it can be taken up as
nourishment by the blood.

The stomach acts as a churn. It is
covered by a strong, muscular coat
and lined with a soft, delicate
membrane which secretes the Gastric
Juice which digests or dissolves solid
food.

When food enters the stomach, the
muscular coat squeezes and presses
the food from end to end, or churns
it, with the gastric juice to dissolve
or digest it.

But—if the stomach muscles are
weak—or if the dissolving fluid is
poor or insufficient—then food cannot
be digested properly and you have
Indigestion.

"FRUIT-A-TIVES" is the most wonder-
ful medicine in the world for strengthening
the stomach muscles and providing an
abundance of pure, full-strength dissolving
fluid to completely digest every meal.

"FRUIT-A-TIVES" does this because
it keeps the kidneys active, the bowels
regular and the blood pure, which
insures pure Gastric Juice.

"FRUIT-A-TIVES" will correct
your Indigestion or Dyspepsia and
enable you to enjoy every meal.
Try it.

FLIES TO AND FROM GOLF LINKS IN BABY BLIMP

Hampton, Va., June 29—Langley
Field today boasts of its first golf-
going "blimp." And Col. A. G. Fisher
of the airship school is confident that
the problem of reaching golf courses
quickly in the future has been solved.
A small hangar in the back yard or
on the roof, a pony blimp, a quick sail
across city and field to the golf course,
a convenient tree to tie the old buss
up to, and then 18 fast holes of the
ancient and honorable game, to say
nothing of the return home to dinner
on time and no trouble at all with the
golf widow.

All of this is not a theory with Col.
Fisher. It is a fact. "Lt. Anderson, the
engineer, and I went over to Virginia
Beach a day or so ago," said the col-
onel today. "Come on Anderson I sug-
gested, 'let's go over in the A-4.' That
suited him. We jumped into the car, or,
as you know, perhaps, the basket of
the dirigible, and started out. When we
got of the golf links we idled over the
18th green a while, beckoning to the
colored caddies. Slowly we came down.
The delighted caddies held the blimp
while Anderson and I got out. Then we
tied the ship to a couple of small trees
and played 18 holes. After the game,
we climbed aboard, the caddies untied
the ropes and we came home. It was
a fine trip.

"I believe that in the next five or
six years it will be considered nothing
unusual for a comparatively rich man
to have his own pony airship for
pleasure purposes. Just as I jump into
the A-4 to play golf over beyond Nor-
folk after a beautiful trip over the
waters of Hampton roads, so will
many others then fly from place to
place by day and tie their ships to the
back fence overnight.

TEA CAKES.

Cream one cup of butter with one
cup of sugar add a cup of milk two
cups of flour and half a cup of corn
starch sifted with two teaspoons of
cream tartar and one of soda. Flavor
to taste bake in patty pans and
sprinkle with powdered sugar or
spread with any preferred frosting.

A sweet little miss from St. Joe
Once had a deaf-mute for a beau
They couldn't hold hands,
As true love demands
He used his to talk with you know

TRUE, TRUE!

"Now gentlemen" began the pro-
fessor in the dental school that has
been opened in the vocational train-
ing area, "what class of persons
habitually suffer from acid mouth?"
And the class answered as one
man:

"First sergeants, sir!"

BEAUTY • STRENGTH • POWER • COMFORT

THE NEW 1922 FIVE PASSENGER
HAYNES 55
SEDAN

Advanced in design, irreproachable in
appointment, rugged in structure, powerful
of motor—this newest enclosed Haynes
typifies the best that is modern and desirable
in motor cars this year. Luxury and comfort
are blended in its richly upholstered inter-
ior—adequately heated, skillfully ventilated
through the cowl, windshield and roof,
illuminated with the soft rays of an over-
head dome light.

The Haynes instrument board brings con-
trol of the starting and lighting to the
driver's finger-tips

Its motor—the famed fifty horsepower
Haynes-built, light six—supplies a flexible
flowing power; surmounting the difficulties
of hilly or country drives; accelerating with
a response which dominates crowded traffic.

Exterior side cowl lights and cord tires are
standard equipment, which further accen-
tuate the low price of
