HAS FOUND AN ABSOLUTE CURE FOR DIABETES

GOOD NEWS FOR MANY SUFFERERS

Physiologists at University of Toronto Have Conquered an Insidious Disease.

Philadelphia, Oct. 18—After ten years of scientific search for a remedy for diabetes physiologists at the University of Toronto have prepared a serum which is pronounced an absolute cure for the disease.

A small quantity of the serum was sent to the University of Pennsylvania a week ago for physicians to use experimentally on diabetic patients. Yesterday after several injections had been administered to three patients. Dr. Alfred Stengel, professor of medicine pronounced the experiments an unqualified success.

"I regard the serum as one of the big discoveries of the age in medical science," said Dr. Stengel. "So far as we have been entirely satisfactory. A small quantity was sent to the University in common with higher large medical centres of the country for experimental purposes. After using it we have found a great improvement in the patients to whom it was administered."

An Absolute Cure.

Dr. Stengel was asked if he regarded the serum to be still in the experimental stage.

"No I think it is an absolute cure for diabetes," he replied. "People must not imagine though that it is a cure for everything. For the treatment of diabetes a disease that has always baffled physicians it is a great step forward. The future treatment of the disease lies undoubtedly in that direction."

"The University of Toronto sent us a small quantity for experimental purposes. We shall make a report to physicians there of our observation of the effect of the serum on diabetes. We shall say we regard it as eminently satisfactory."

5,000,000 Interested.

The announcement that a cure had been discovered for diabetes will interest vitally 5,000,000 persons in the country for it is estimated that number are suffering from the disease. Diabetes is caused by the degeneration of certain little "islands" in the pancreas a gland back of the stomach near spinal column known as the island of Langerhans. Langerhans was a German histologist. He was the first to realize that the failure of the gland to act caused diabetes and his name was given to that part of the gland which secreted the juice for the oxidation of sugar in the blood.

Treatments used by physicians before this time included the injection into the blood of the pancreas of animals and in the stomach by feeding. Physicians said the results of that treatment for diabetes had never been successful.

Left for Boston

The Misses Dorothy Tweeddale, Elizabeth Howie and Margaret Howie left last evening for Boston on vacation. They will spend three weeks in Boston, Lowell, Lynn and other New England cities.

MURDER CASE IN CARLETON CIRCUIT COURT

Dr. Anglin Will Give Evidence on Mental Condition of Mrs. Boyd.

Woodstock, N. B., Oct. 17—Circuit court met this morning Mr. Justice Crockett presiding. There were two criminal cases submitted to the grand jury of which W. J. Dibblitt of Woodstock was foreman. These were the King vs Mary Boyd charged with the murder of her two infant children and the King vs Peter Foley charged with a serious offence. In both cases true bills were found.

The case against Foley was proceeded with this afternoon. C. J. Jones is representing the Crown and F. C. Squires is defending. It is thought that the case will go to the jury tomorrow morning.

In the King vs Boyd the prisoner being without counsel the judge assigned Mr. Squires to defend. Col. Jones is acting for the Crown. It is understood that his honor will direct that an issue be tried to determine whether the accused is sane enough to be tried. It is expected that Dr. J. V. Anglin will give evidence as to her condition.

The civil docket is as follows:

George F. Burpee vs C. P. R. an action for damages between an automobile in which the plaintiff was riding and a train; Messrs Jones and Jones for the plaintiff, Merrehs, Weldon and McLean for defendant.

Ontario Fertilizers, Ltd vs Roy E. Craig an action on a fertilizer note; F. C. Squires for the plaintiff M. L. Hayward for defendant.

Newman Black vs. C. P. R. an action for damage to the car and for personal injuries. This raises out of the same incident as the Burpee case. Jones and Jones for the plaintiff Weldon and McLean for the defendant.

Gallagher vs C. P. R. an action for damage for failure to carry potatoes safely, Jones and Jones for plaintiff Weldon and McLean for defendant.

Consolidated Rendering Company vs Ferry, M. L. Hayward for plaintiff F. C. Squires for defendant.

BASE BALL WRITERS ON A MOOSE HUNT

A party of American baseball writers were in St. John yesterday en route to Nova Scotia on a hunting trip for big game. While in St. John they were the guests of the C. P. R. at an informal dinner at the Union Club. The guests included Premier Foster, Mayor McLellan and others.

The members of the party include Frederick G. Lieb, sporting editor of the New York Evening Telegram; Sydney Mercer, sporting editor of the New York Evening World; Ed. Ballinger, sporting editor of the Pittsburgh Post; Denman Thompson, sporting editor of the Washington Star and Irving Vaughan, sporting editor of the Chicago Tribune.

Mr. Jas. McGaragle of St. John who has been spending a few days in the city returned home this morning.

Will Lloyd George Quit Premiership Of Great Britain?

MUCH DEPENDS ON THE ATTITUDE TAKEN BY HIS CONSERVATIVE FOLLOWING AT THE CARLTON CLUB MEETING TOMORROW — MR. CHAMBERLAIN WILL STAND BY THE PREMIER—FEVERISH ACTIVITY IN BRITISH POLITICAL CIRCLES.

London, Oct. 17—Whether Premier Lloyd George whose administration has long outlasted the administration of all the great statesmen concerned in the Versailles Treaty and the making of peace, will fall as a secondary effect of Mustapha Kemal's victory in Anatolia, still hangs on the result of Thursday's meeting of the Unionist members of the commons. In all political quarters in London, today there was a state of feverish activity, meetings and consultations occupying the entire day. The prime minister himself returned to town and besides consulting with the members of his cabinet presided this evening over a large meeting of Liberal ministers, under-secretaries, party whips and others.

No report of the proceedings has been issued, but it is supposed that Mr. Lloyd George desired to ascertain how far he could still depend upon support from the Liberal wing of the coalition in the coming developments and in the event of the Conservative revolt against his leadership proving dangerous.

MAY STAND BY PREMIER

Opinion tonight seems to be veering towards the belief that the rebellious Conservatives will at the last moment recoil before the prospect of breaking with Mr. Lloyd George, who clearly still retains the support of Mr. Chamberlain and that the latter may secure a majority at the Thursday meeting. It is understood that should the Carlton gathering vote against Mr. Chamberlain neither the Earl of Balfour nor Mr. Bonar Law would undertake to form a Conservative ministry should Mr. Lloyd George resign.

Mr. Bonar Law's health is restored through his prolonged absence from politics, but it is said that he lacks the physical endurance which would justify his undertaking the responsibilities of government. The Earl of Balfour has been so closely associated with Mr. Lloyd George in all phases of the prime minister's administration that he would probably not be inclined to take charge of a new administration almost certain to be short lived.

TO SPEAK AT LEEDS

No dissolution of the council has yet been arranged, nor any formalities even tentatively looking to dissolution, and nothing definite is likely to develop until the end of the week. The premier's speech next Saturday will be delivered at Leeds instead of Newcastle, as first proposed.

If the Carlton meeting registers a vote of confidence in Mr. Chamberlain, it is reported that Mr. Lloyd George will insist upon imposing his own strict terms as a condition of continuing to lead the re-united coalition. If dissolution is decided upon there is already evidence of many changes in the new parliament. Cecil Harmsworth, under secretary of the foreign office, is among those who have announced their intention not to seek re-election.

FORD PRICES ARE REDUCED

Detroit, Oct. 17—The Ford Motor Co. today announced a cut of fifty dollars in the price of all passenger cars, establishing record low prices. No change has been made in the price of Ford tractors.

Hereafter five passenger touring cars will list for \$298; roadster, \$269; coupe, \$530 and sedan, \$595.

The price of the self starter remains at \$70 and demountable rims are unchanged at \$25.

Death At Macnacnac

Mrs. Mary Jane Wilson wife of James Wilson died after home Macnacnac last night after a lingering illness. She was seventy eight years of age and is survived by her husband one daughter Mrs. Susie E. Jewett of Macnacnac two sons Alfred A. of Regina and James O. at home also thirteen grandchildren. The funeral will take place tomorrow afternoon with service at the home at one o'clock and at the Baptist Church Macnacnac at two o'clock. Rev. Mr. Moore will conduct the services assisted by Rev. Mr. Gillen. Interment will be made at Pickard Cemetery Keswick.

TO GET AFTER SMUGGLERS

Toronto Oct. 17—A special squad of customs officers has started operations along the Windsor-Niagara-Sarnia frontier to watch operations at smuggling wearing apparel raw silks and other textiles according to Hon. J. Bureau federal minister of customs who is in Toronto today.

This action follows statements made by prominent manufacturers that textiles to the value of million dollars annually were being smuggled into Toronto.

AT A PREMIUM.

New York, Oct. 17—Sterling exchange, steady. Great Britain, \$4.43, 15-16. France, 7.50. Germany, .03½. Canadian Dollars, one-eighth of one per cent premium.

C. P. R. EARNINGS.

Montreal, Oct. 17—Canadian Pacific Railway earnings for the week ending Oct. 14, \$5,147,000; increase, \$249,000.

Miss Lucy Morison has so far recovered that she was able to leave the hospital and return to her home yesterday.

KING AND QUEEN OF ROUMANIA ARE CROWNED

A Brilliant Pageant carried out in Public Square Without Incident.

Albajulia, Rumania, Oct. 18—King Ferdinand and Queen Marie were solemnly crowned yesterday in the vast public square amid the plaudits of thousands of picturesquely dressed Rumanians. The ceremony was carried out without incident.

Promptly on conclusion of the church services a procession was formed and the sovereigns escorted by the duke of York Prince Paul of Jugo-Slavia the duke of Genoa the infante Alfonso Marshal Foch and the foreign delegations and preceded by the metropolitan and bishops marched from the church to the richly decorated dais in the center of the square.

Stands had been erected around the square for the high personages of the kingdom and the rest of the space was dense with spectators.

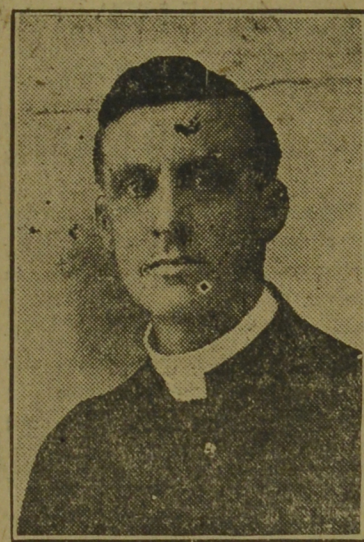

As soon as the sovereigns had taken their places on the dais the president of the senate received the crown from the president of the chamber and placed it on the head of the king.

The king in turn crowned the queen who knelt before him. The king and queen were then clothed in the royal mantles and other insignia.

The procession was loudly acclaimed at the conclusion of the ceremony Marshal Foch in particular getting a special ovation.

THE ANGLICAN SYNOD MEETS AT HALIFAX

Halifax, Oct. 18—The meeting of the Provincial Synod of Canada, which includes the four eastern provinces of Quebec, New Brunswick, Prince Edward Island convened in Halifax today under the presidency of the Metropolitan, the Most Rev. C. L. Worrell, D. D., Archbishop of Nova Scotia. Among those here are Bishop Richardson of Fredericton; Bishop Farthing of Mon-

BISHOP RICHARDSON

tréal, Canon Scott of Quebec, Archdeacon Paterson-Smyth of Montreal, Professor Abbot-Smith of Montreal, Chancellor Davidson of Montreal, Chancellor Campbell of Quebec, Dean Neales, Fredericton, Bishop Williams, Venerable Archdeacon Balfour, Very Rev. Dean Shreve, Rev. Phillip Callis and Rev. E. K. Moffatt of Quebec.

HALL FAMILY EXAMINED IN MURDER CASE

TRYING HARD TO SOLVE MYSTERY

Mrs. Hall and Her Two Brothers Were Closely Questioned by the Authorities.

New Brunswick, N. J., Oct. 17—Prosecutors seeking to piece the barriers of uncertainty about murders of Rev. Edward Wheeler Hall and Mrs. Eleanor Reinhardt Mills the wife of his sexton more than a month ago, today turned from a search of the premises and massed an attack against the families of the dead man and woman. The Hall family trio Mrs. Hall, Henry Stevens and Willie Stevens her brothers were examined one by one in the court house Mrs. Hall for a full hour and the others for shorter periods. Each was examined alone; only officials were present and the results were guarded.

But one aspect of Mrs. Hall's questioning was made known by her counsel Thomas N. Pfeiffer. Mrs. Hall was seated at the end of a long room alone Attorney Pfeiffer says. She was asked to remove her hat and to put on the gray coat she says she wore when at 2 o'clock in the morning of Sept 15 she went to search for her husband. She put on the coat.

Then the door opened at the end of the room and a woman of foreign aspect poorly dressed and alone entered and sat staring at Mrs. Hall her attorney says. For minutes she looked at the widow of the slain rector turning her head this way and that. Then without a word she left the room. Mrs. Hall was permitted to go soon afterwards. Whether the unknown woman identified Mrs. Hall was not announced.

The description of the silent figure allies in many points with that of the peasant woman whose home near the old Phillips farm long mortgaged was cleared of obligations by a recent entire payment. The peasant woman was brought into the case yesterday when she spoke of having seen several days previous to the murder a woman searching the fields near the spot where the couple were later found. Prosecutor Beekman of Somerset county today made public some of letters found on body of Mr. Hall. They were in the handwriting of Mrs. Mills he said although unsigned.

In this connection excerpts from Archdeacon Armitage's "story of the Canadian Revision of the Prayer Book" are interesting. He gives sketches of those who took part in that work, including:—

"The Bishop of Fredericton (Dr. Richardson, combining as he did a devout spirit with a most practical mind brought many useful suggestions to the work of revision. He was indefatigable in his efforts to bring the Prayer Book into closer touch with our church life in Canada, but at the same time his strong desire was to see a work accomplished which should have permanent value."

"Dean Neales of Fredericton, who had been a member of the general committee from the first, came on the executive in 1715. The dean's interest was constant, and he brought as a contribution a well-trained judgment, and a strong desire to bring the Prayer Book into more practical relation with daily life."

Fear That British Cattle Embargo May Not be Lifted

Ottawa, Oct. 18—The disturbed political situation in Great Britain with the probability of dissolution and a general election makes doubtful the removal of the embargo on Canadian cattle just yet.

Everything has been set for legislation at the fall session giving effect to the resolution for the removal of the embargo and a Canadian delegation is over there now in that connection. If parliament is dissolved it is obvious that there will be no enactment immediately and while the new Parliament might be influenced it would not necessarily be bound by the pronouncement of its predecessors.

Woman Says She Can Tell Sex of Fowl From Egg

Sunbury, Pa., Oct. 18—Mrs. Frank J. Pfahler, who lives near Catawissa, says that it is possible to determine with almost a certain degree of accuracy the sex of the fowl to be produced from any egg.

In recent experiments she succeeded in obtaining more than 70 per cent of pullets from a setting, which she had carefully gone over. The segregation was carefully made after she had failed in her first experiment. She marks the eggs which she proposes to hatch before placing them in the incubator.
