ECZEMA ON FACE AND HEAD FOR FIVE YEARS

Eczeema or salt rheum, as it is so often called, manifests itself in little round pimples which contain an extremely irritating fluid. These break and subsequently a crust or scale is formed and the intense burning, itching and smarting at night or when the part is exposed to a strong heat, is almost unbearable and relief is gladly welcomed.

There is only one way to get relief and no remedy like

BURDOCK BLOOD BITTERS
Take it internally and it gets at the seat of the disease in the blood and drives it out of the system.

Apply it externally and it takes out the itching, stinging and burning, and promotes healthy healing.

Mr. J. Sage, 215 Princess Ave., Vancouver, B. C., writes, "Having suffered with eczeema on the face and head, for the last five years, I consulted several doctors, and tried various kinds of salves and lotions, but I derived no benefit from any of them. I did not know what to do until a friend advised me to try Burdock Blood Bitters, and after I had used two bottles I began to get better and now after taking 8 bottles I have not even a blotch on me. I feel that I cannot praise B. B. too highly. I hope you will make full use of B. B. put up only by The T. Milburn Co., Limited, Toronto, Ont.

fit of those who are suffering from this terrible complaint, eczeema."

NEW FACTORY IN MONTREAL FOR COLGATES

New York, Jan. 9.—Colgate & Co., of New York and Jersey City, one of the oldest and the largest makers of fine soaps and perfumes in the world, is still expanding rapidly.

Less than six months ago, they acquired the Indiana State Reformatory property at Clarksville, Ind., U. S. A. This, shortly, will be converted into an up-to-date plant to help relieve their huge Jersey City factory.

Now comes word that they have purchased another new plant at Montreal to increase their Canadian production and speed up Canadian deliveries. The new property is located at 72-74 St. Ambroise St., and was selected only after the most careful consideration of many places in Canada. It consists of a modern two story and basement brick structure with a light, airy main building and two large wings.

Manufacturing in Canada will begin about January 1st, after a few slight alterations are made. The output can be quickly and easily shipped over the Dominion, as the Grand Trunk R. R. runs right through the backyard.

Evidently the Colgate business is booming. Established 115 years ago, the business has grown to its present size, employing 3,000 or more people in the main plant, with agencies all over the world. The main factory and offices in Jersey City comprise forty buildings, which cover parts of seven city squares. The present heads of the concern are the four grandsons and one great-grandson of the founder of the business. This record is unique in the history of American business life.

One difference between men and women is that the former regard a pongee handkerchief with too much respect to use it like an ordinary handkerchief, while the women—God bless them—can use one to wipe their pretty little noses without batting an eye.

The old reliable remedy for rheumatism, neuralgia, sore throat and sprains.

Best Liniment Made

Mr. A. E. LAGNEY, Edmonton, writes:—"I fell from a building and received what the doctor called a very bad sprained ankle, and told me I must not walk on it for three weeks. I got MINARD'S LINIMENT and in six days I was out to work again. I think it the best Liniment made."

Minard's Liniment always gives satisfaction. For any ache or pain. It gives instant relief.

COLUMBIA PROFESSORS IN A SCRAP

New York, Jan. 6.—The principals in this Police Court tale are Columbia University professors, celebrated in "Who's Who." They are Prof. Ralph Culver Bennett, A.B., D.C.L., LL.D., who it seems, rang the door bell of Prof. Wm. H. Carpenter, A.B., Ph.D., too long and persistently in the small hours of December 19. As the story was told in Washington Heights Court today, Prof. Carpenter resented this action by striking Prof. Bennett with a cane almost sufficiently hard to knock of an LL.D., and Prof. Bennett retaliated with equal vigor.

Eight witnesses—all doctors of law or philosophy, or bachelors of science or art—testified against Prof. Bennett who was held in \$100 bail for a hearing on January 12 on a charge of "disorderly conduct." He is president of the Metropolitan College of Law, Inc., of Dover, Del.; a former Professor of Law in Webster Law School, Chicago; a former Assistant State's Attorney in Illinois, and a former member of the faculty of the University of Wisconsin.

IF YOU HAVE NEURALGIA RUB ON "NERVILINE"

In a little while you have forgotten it, the soreness has actually gone. For neuralgia, sciatica, rheumatism, Nerviline is a boon. Large 35c bottles. Sold everywhere.

CHEESE SOUFFLE.

Place in a saucepan
One and one half cups of milk.
Seven level tablespoons of flour
Stir to dissolve and then bring to a boil. Cook slowly for five minutes and then remove from the fire and add:
One half cup of grated cheese,
One teaspoon of salt,
One half teaspoon of paprika,
One teaspoon of grated onion,
Yolks of three eggs.
Beat hard to mix thoroughly and then let cool. Then fold in the stiffly beaten whites of three eggs. Turn in well-buttered baking dish. Set in a pan of warm water and bake in slow oven for twenty five minutes. Finely minced chicken, rubbed through a sieve, may be used for chicken souffle.

SORES SPREAD ALL OVER FACES AND BODIES

Mrs. Howard Houlette, Waskatenau Sask., writes: "I wish to tell you of the benefit we have received by using your valuable medicine Burdock Blood Bitters."

My children started to break out on their faces in small white pimples which kept getting larger each day. Pus would form under the scabs and they would come off, and each time the sores would be larger; some were as large as a twenty-five cent piece, and would spread all over their bodies. I was nearly in despair and sent to the village for a bottle of good blood medicine. The druggist sent me a bottle of Burdock Blood Bitters which I commenced giving them at once.

In about ten days I saw an improvement and they grew steadily better each day, and in one month the sores had all disappeared."

All blood and skin diseases are caused by bad blood, and to get pure and keep it pure you must remove every trace of the impure and morbid matter from the system by a blood cleansing medicine such as

BURDOCK BLOOD BITTERS
without an equal for all diseases and disorders of the blood.
Manufactured only by The T. Milburn Co., Limited, Toronto, Ont.

THE INFLUENCE OF ADVERTISING ON THE PUBLIC MIND

HOW MANY PEOPLE know the names of the highest mountain peaks in the world?

FOR INSTANCE, "Kinchinjanga" is the name of one of the highest mountains in the world. It is 28,156 feet high.

PIKE'S PEAK is only 14,108 feet high—but it gets credit for being higher because it is advertised.

ADVERTISING will bring many unknown things into prominence during the coming years.

NOW IS THE TIME, when so many articles and commodities of trade are flooding already overstocked markets, for the man with goods to sell to let the people know all about it.

THE BEST WAY to let the people know is to advertise in the newspapers.

YOU HAVE SEEN THIS in the Daily Mail—let the public know what you have to sell through the advertising resources of this newspaper.
