Sport News

MONTREAL
LOST 8 TO 0 AT
HALIFAX

Halifax, N. S., Nov. 19—Wanderers of Halifax proved themselves the better in an exhibition game here Saturday by defeating the English rugby team of Montreal, holders of the McTier Cup 8 to 0. The locals had the game well in hand from start to finish. Hard and fast tackling by the Upper Canada men, combined with a muddy field and slippery ball, broke up fast passing plays because the Wanderers' quarter and half lines prevented what looked like almost sure scores on several occasions. In addition to their tackling the Montreal men excelled in dribbling, using their feet like soccer players to the bewilderment sometimes of the locals. They made long gains in this manner and on two or three occasions threatened for scores. The McTier players were also very fast in following up their kicks and forced quick returns. On the other hand, Wanderers were more expert at kicking into touch and made long gains in this way. The local seven man scrim heeled better than the eight man formation opposing them.

Maritime Trophy

Halifax, Nov. 19—Hon. F. B. McCurdy, former Canadian minister of public works, stated here last night that he would present a trophy next year for competition among Maritime Provinces rugby teams, and which would be emblematic of the maritime championship. Mr. McCurdy made the announcement at a banquet given by the Halifax Wanderers to the Montreal English rugby team.

QUEEN'S UNIV.
WON THE TITLE;
PRINCETON WON

Montreal, Nov. 19—By defeating the famous varsity eleven 12 to 6, Queens University for the first time in years captured the Canadian intercollegiate rugby title and earned the right to contest for Dominion honors here on Saturday afternoon.

Princeton 3; Yale 0.

Princeton, N. J., Nov. 19—By the narrow margin of a field goal kicked by Smith, of Princeton, and the resultant three points Princeton defeated Yale here yesterday in the annual football battle.

SEMI-PRO HOCKEY

Sydney, N. S., Nov. 19—Organization of a three-team semi-professional hockey league for Cape Breton was effected at a meeting here last night. Glace Bay, Sydney and North Sydney will each enter a team. The winners of the league will challenge the winners of the Nova Scotia Independent League for the championship of the province.

DEMONSTRATION
OF BACON-HOGS
GREAT SUCCESS

(Continued From Page Eight)
Wiltshire Sides

The Wiltshire sides produced by Mr. Stafford opened the eyes of those who witnessed his operations. That form of dressing hogs is not practiced at all in New Brunswick as the local market does not require it. For the British market it has been found however, that the Wiltshire side is the best form in which to ship and market the hog. All of the animals were not dressed in that manner but for the requirements of the local market.

The work of Fred W. Robinson in killing the animals elicited most favorable comment from Mr. Stafford. Supt. G. F. Bailey of the Experimental Station deserves great credit for the success which attended the demonstration. Mr. Stafford leaves tonight for Montreal.

"Love is everything" remarked the Man on the Car. Take a goat for example it doesn't smell the same to the boy who owns it as it smells to the boy's mother."

"The spinal column is the distributing center of vitality when these nerves are pressed upon the organs they supply become deceased."—U.A. Lyle, M.D., Logansport, Ind.

Roumania to Pay Off
Its Debt to Canada

Satisfactory Arrangements Made by Hon. W. S. Fielding and Ratified by an Order in Council—Over Twenty Million Dollars is Involved—Roumanian Commission Visits the U. S.

Ottawa, Nov. 19—A Washington despatch recently appeared in various Canadian papers claiming a diplomatic victory by Secretary of State Hughes for the United States treasury in the arrival at Washington of a Roumanian debt commission, which had come to discuss the \$39,000,000 debt which Roumania owes to the United States. The victory, it appeared, lay in the fact that the arrival of the commission was due to a protest made by Secretary Hughes against Roumania floating a \$175,000,000 loan through a syndicate of French, British and American banks without taking cognizance of the debt it owed to the United States.

Judging from information acquired today, Canada has achieved an even more substantial "victory." As long ago as last September the Minister of Finance Hon. W. S. Fielding, was able to report to the government that he had concluded with the Roumanian government an arrangement for the funding of Roumania's debt to Canada such as the United States is now trying to effect. On Oct. 16 an order in council was passed ratifying the agreement.

Under the agreement between Canada and Roumania dated on March 6, 1919, a credit of \$25,000,000 was extended to Roumania, and that country deposited with the Bank of Montreal in London to the order of the Minister of Finance a bond dated April 18, 1919, and payable at Ottawa in five years from that date for \$25,000,000. With interest at five and one-half per cent, payable each six months. The Roumanian government was to deposit debentures repaying in dollars the amount of the monthly advances plus interest, such debentures to bear interest as above mentioned.

Canada's Advances

The total advances made by Canada were \$20,449,104.49, which with interest at five and one-half per cent, and interest compounded at six per cent, amounted on Aug. 1 of this year to \$23,725,923.94 on which no payment of any kind was made. The proposal of the Roumanian government to the pressure Canada has been making for payment, and which has now been accepted, was that this debt should be funded by issuing an equal amount of bonds payable in Canadian dollars with interest at four per cent, payable half yearly being part of this

loan of \$175,000,000 for the funding of its external debt and on which the United States is now making arrangements to be included.

The terms provided that at the expiration of the fifth year from the date of issue the bonds will be redeemed by half yearly payments so that the whole of Canada's debt should be paid at the latest by 1967. Roumania agrees to include in its budget a special article earmarking for the payment of the principle and interest of the above issue the export taxes, which will be payable in gold or other monies, abroad. The funds arising from the export taxes will be deposited in the National Bank of Roumania to be remitted to London to the British and Overseas Bank and thence to the Bank of England to be used for the payment of principle and interest on the above mentioned issue of bonds. If export taxes should be abolished or reduced so as to be no longer sufficient for the purpose the Roumanian government will pay in equal monthly installments the amount of the deficiency. The redemption of the bonds will be made half yearly by drawings when the bonds are at or over par and by purchase when they are at a discount.

Committee Working

The Canadian High Commissioner in London reports that the owners of the bonds have appointed a committee to safeguard their interests and on this committee W. L. Griffiths, recently secretary to the high commissioner's office has been made a member to keep the Canadian minister of finance in touch with all matters having a bearing on the issue. Hon. W. S. Fielding, Minister of Finance, says that the proposal has been strongly recommended by the British treasury as a good arrangement and one which in view of the present position of the account, is advantageous to Canada.

The United States claims that the debt to them constitutes a first lien on Roumanian assets and is objecting to the floating of the new loan until provision has been made for covering this indebtedness. It is apparently willing and anxious to come in under the new arrangement as the other creditors of Roumania have been although the new rate of interest is one and a half per cent, lower than that originally agreed upon.

A MURDER
MUSEUM TO
BE OPENED

New Brunswick, N. J., Nov. 20—An enterprising odd job man about town, Walter Masterson, has rented the old Phillips farmhouse for \$30 a month and is planning to capitalize the Phillips-Hall murder site by turning it into a sort of museum.

With hammer and saw Masterson was repairing the broken down porches of the farmhouse today and putting it in shape for the rush of curiosity seekers who visit the farm in hordes every Sunday.

Masterson said that he was going to rearrange the furniture in the Colonial dwelling and charge twenty-five cents admission to all who want to go inside.

"It should be a good business venture," he told reporters.

The ancient old piano, a classic piece of Colonial construction, and a settee, which were a part of the furnishings of the farmhouse, have been sold to a New York dealer in antiques for \$250. They already have been carted away. Samuel L. Levin, a New Brunswick real estate man, owns the farm.

New York, Nov. 20—Rain insurance cost too much; prayers didn't so the directors of the beauty pageant held in Atlantic City decided against insurance and for prayers. As everybody now recalls the pageant had three days of perfect weather.

In a discussion of plans for next year's pageant it became known that the directors had awaited until midnight before deciding not to invest in rain insurance. A hurry call was put in for the Rev. Robert Arthur Elwood and the Rev. H. S. Bayliss. They did the praying.

THE UNUSUAL
IN LOCAL EVENTS

HE'S JUST LIKE THEM ALL

"My husband is the darndest man", says a charming Fredericton young woman. "He gives me an allowance every week and then about two days before pay day he begins to 'borrow' from me, and of course never pays it back. Then he roasts me for not saying."

"HOUSEWIFE'S KNEE" IS GONE

A local doctor says that "Housewife's knee" is almost a thing of the past. Women do not get down on their knees, and scrub, as they used to do a few years ago.

FREDERICTON IDEAL PLACE

A commercial man, who is representative in the Maritime Provinces of one of the largest Canadian industries says that he is interested in the idea of having one large University for the Maritime Provinces. He says he found the sentiment in Nova Scotia, that if there was one University it should be in Halifax. He has found the sentiment in New Brunswick to be absolutely against moving the University of New Brunswick or Mount Allison to Nova Scotia. He said to his mind there were two places in the Maritime Provinces where such a University should be placed if such a scheme matured. He said they were Truro in Nova Scotia, or Fredericton in New Brunswick. He considered Fredericton had many advantages over Truro, and therefore was the ideal place.

A Boston Visitor

Mr. Page Goodine of Boston is among the visitors to the city today and he is receiving a hearty welcome from many old friends. Mr. Goodine is a native of Myshraal Settlement, Parish of Kingsclear and has been residing in Boston for many years. He holds a responsible position with a large construction company and is making good in the land of his adoption. He will visit his former home before returning to the Hub.

ONE MAN'S EXPERIENCE

"On a Philippine expeditionary trip, medical doctors laid absolute rules that no soldier should drink water until it had been boiled, or take a bath in any river or lake for fear of cholera. All except myself obeyed the rule. I drank from streams and lakes and refused to boil water. I was the only man in the expedition who returned in fine condition."—Henry Savage Landor, Paris, France.
