Trying Hard to Settle the Strike of Textile Workers

Boston, Feb. 16—Developments today in the New England textile strike situation were limited to continuing steps toward mediation in various sections. No further additions to the ranks of the striking textile workers were reported.

In Rhode Island the board of conciliation and mediation named yesterday, to seek a settlement of a strike of some 15000 operatives in the Pawtucket and Blackstone Valleys, today summoned representatives of the mill owners and strikers to appear before it in Providence Saturday morning and outline their demands. In Pawtucket, the card and spinning employes of the Jenckes Spinning Company employing about 500 which closed on Monday resumed operations today.

WANT 48 HOUR WEEK

Governor Brown of New Hampshire today announced he would lay before the governor's council next Thursday a suggestion made by Mayor Waldron, of Dover, N. H., that a special session of the state legislature be called to pass a law prescribing a forty-eight hour working week for women and minors. Such legislation, its opponents claim, would meet some of the difficulties in the Manchester textile situation.

Officials of the textile workers' union in Fitchburg, Mass., announced that they had advised members of the union to remain at work despite the recent 20 per cent wage cut. Leaders say that only 300 of the 5000 operatives in that city are organized.

WAMSUTTA CURTAILS

New Bedford, Mass., Feb. 16—Notices were posted in the Wamsutta cotton mills today that the mills would close tomorrow night for the rest of the week. Hereafter they will operate on a five-day a week schedule. They employ 5,000 hands.

DOAKTOWN IS A BUSY PLACE THIS WINTER

Doaktown, N. B., Feb. 16—The lumbermen on the Miramichi have about completed their winter's operations, and the cut is very small in comparison with the transactions of previous years.

Boiestown, which for many years was the base from which a large proportion of the Southwest Miramichi cut emanated, has during the present winter been almost devoid of its usual activity. Doaktown from general reports seems to be the busiest village on the line. We are told there are running in Doaktown the large mill of James Holmes & Son cutting white birch; F. D. Swim and Alex. Storey are running a lath mill, cutting laths two miles from the village; Everett Weaver and L. B. Amos are also running a lath mill which is going night and day. In addition to this Henry Swim's woodworking factory is working up to its fullest capacity supplying material for the various contracts he has in Fredericton. It is worthy of note that Mr. Swim has secured seven contracts since going to Fredericton in December last some of which he has completed and has others well under way. He has been offered other contracts which no doubt he will accept as he claims to be able to handle any amount of work which offers and if more men are needed he knows where they are to be had.

Mr. Swim in addition to his other activities has lately fitted up a lath mill at Doaktown which is doing good work. He finds it necessary to run his engine at night as his factory and lath mill are run by the same power and there is hardly sufficient capacity for the whole at one time.

From all of Doaktown's five industries there is a regular pay day for the men and thus a goodly amount of money is distributed. Doaktown is also the base of the lumbering operations of the Miramichi Lumber Company, and they make their starting and stopping points at the Aberdeen Hotel. This hotel is also owned by Henry Swim and seems to be doing a rushing business as the writer observed the two nights he was there last week, that the house was full to capacity. The Murray Hotel, another hostelry in Doaktown, is also doing a good business.

Your Home Town Paper What it Can Do for You--

First of all, it can bring to you the NEWS of your own home town. Week after week, it prints in detail the happenings of the community. Faithfully it sets forth the goings and comings of its people, giving careful attention to the homely little items that are ignored in the overcrowded dailies of the big cities.

It can furnish you with more interesting information about people you know, or used to know than could a dozen private correspondents. The one who writes to you may know only a few of your friends at home—but your Home Town Paper knows them all. It tells you about people you are interested in.

Finally, in a good, hard business sense, your Home Town Paper is of value to you. It keeps you posted as to the industrial and commercial growth of a community which familiarity may have caused you to neglect. It often reveals that keen people see, right in your home town, a mine of golden opportunity. The moral is obvious—
