OF INTEREST TO THE WOMEN

COLD BEVERAGES FOR AUGUST.

The success of all home made beverages will depend upon the coldness of the drink served.

1. Have syrup and all ingredients prepared early in the day and chilled.
2. Use tall dainty glasses.
3. A package of straws costs very little and adds much to the real pleasure of the home made beverage.
4. When you desire an especially attractive appearance first brush a band about one inch wide about the outside of the glass, using the unbeaten white of egg, and then roll the edge of the glass that has been covered with egg in powdered sugar. Stand away in a warm place and dry.
5. Neat paper doilies cost but few pennies and when placed on the plate underneath the glass improve the appearance of the service.
6. Have everything ice cold, ice chopped or scraped in a fine snowy mass, then add a few pieces just sufficiently large to tinkle against the glass.

Blackberry Nectar.

Wash and sort over carefully two boxes of blackberries, place in saucepan and add one pound of sugar. Crush and heat slowly until the mixture comes to a boiling point and then cook for ten minutes slowly. Now turn in a sieve lined with a piece of cheesecloth, and when cold press out all the juice. To this add one quart of water and the following spices tied in a piece of cheesecloth. One teaspoon of cinnamon, 1½ teaspoons of ginger, one-half teaspoon of allspice, one-quarter teaspoon of nutmeg.

Tie the spices closely before adding the nectar, simmer slowly for fifteen minutes, then strain. To serve fill glass about two-thirds full of the nectar and add sufficient crushed ice to fill glass.

This is a delicious and satisfying thirst quencher.

Blueberryade.

Select either blueberries or the mountain blueberry. Wash berries and look them over carefully. Place two boxes of the berries in saucepan and add one quart of water and one pound of sugar.

Simmer slowly for twenty-five minutes then turn in a sieve that has been lined with piece of cheesecloth and when cold press out the juice. To serve fill a tall, thin glass half full with crushed ice, then fill about two-thirds full with the prepared syrup. Fill glass to the top with ice water and garnish with either a spoonful of whipped cream or marshmallow whip.

The above syrup will keep about one week and must be kept sealed in the coldest part of the refrigerator.

Silver Fizz.

Beat the white of one egg stiff, whipping into the egg two tablespoonfuls of powdered sugar.

Now place in bowl large of three lemons, one-half cup powdered sugar, three cups of ice water, three quarters cup of sugar.

Beat with egg beater to blend and then whip in the prepared white of the egg. When well whipped turn at once into tall, thin glasses and serve.

THE CARE OF ALUMINIUM.

Nothing is more unsightly than spotted and dirty aluminium kitchen ware. If properly cared for it will keep its bright color and will always be an attractive utensil in the kitchen. It should not be washed with washing soda since alkalines turn aluminium dark. To clean and remove discolorations use a weak solution of vinegar and water in the proportion of one teaspoonful of vinegar to a quart of water. Let the preparation boil for five minutes. No. 6 steel wool may be used to polish the aluminium and there may be applied to the outside silted whitening with a damp piece of flannel or chamamois.

TO LAUNDER CURTAINS.

To prolong the life of the curtain when being laundered, fold each curtain lengthwise twice, then crosswise three times. Place them in a tub, cover them with cold or lukewarm water and let them stand for several hours or over night. Squeeze or put them through the wringer. Pour over them hot suds and let stand another hour or more, then with the hands force the suds through them carefully. Rinse and starch lightly. Do not unfold the curtains until you put them on stretchers.

He who wants content can't find an easy chair.

ALBERT SOAPS LIMITED - MONTREAL

CROP REPORT OF THE BANK OF MONTREAL

Conditions generally are favourable in Eastern and Prairie Provinces but in British Columbia drought conditions still obtain.

Prairie Provinces

Edmonton District—Wheat crop has suffered severely from drought; oats a short crop; hay, poor. Recent local showers have slightly improved feed situation but more rain is needed; harvesting is commencing this week.

Calgary District—Showers and warm weather have hastened maturity of grains, cutting has commenced. Conditions in Northern section are poor to fair. Good average crop is probable in South.

Lethbridge District—Crops are making good progress and are reported to be filling well. Rye harvesting is general. Wheat cutting has commenced. Extreme heat has lowered yield in Bow Island and Medicine Hat localities and crops are poor.

Saskatoon District—Heavy general rains have helped late grains, wheat cutting has commenced and will be general by 15th instant. Yield Saskatchewan and West will be below average. Prince Albert, Tisdale, Humboldt and tributary localities report good average crop in sight.

Regina District—Extreme heat has been experienced recently relieved by general rains. Average yield of all grains expected. Wheat cutting will be general 20th instant.

Winnipeg District—Heavy rain has delayed harvesting but will be beneficial to late sown grain, a better than average crop is assured.

Province of Quebec

Cereal crops are looking well and with warm weather from now on should produce a good yield. Hay has all been harvested and generally speaking the crop is heavier than usual. Root crops are doing well and pasture continues in good condition.

Province of Ontario

Prospects are still generally favorable although warm, dry weather is needed for all crops. Heavy rains during the last few days have delayed harvesting. Fall wheat crop is about average, and is mostly harvested.

Barley and oats are all cut and are good crops. Corn is a heavy crop with long straw, but is threatened in some districts, cutting has commenced. Corn, more heat needed for an average crop. Potatoes promise to be above average. Hay indicates that second crop will be heavy. Fruit is a good crop. Weather conditions are good for pasture.

Maritime Provinces

Prospects continue favourable throughout Maritime Provinces for food hay and grain crops. Prince Edward Island anticipates best all round crops in years. Reports indicate potatoes are suffering in St. John Valley District and yield will be below average. Root crops in other Districts are doing fairly well. Apples are progressing favourably in Annapolis Valley. Weather has been unfavourable for harvesting in Nova Scotia and New Brunswick.

Province of British Columbia Serious drought conditions still obtaining. Hay crop harvested is 50 to 60 per cent of normal. Grain cutting is general and crop is 60 to 70 per cent of average. Roots are suffering, but crop of Ashcroft potatoes above average. Hops are 95 per cent of normal. Okanagan apples are 80 per cent of normal, and are sizing up well. Tomatoes are in good condition. Fraser Valley tree fruits are 90 to 95 per cent of normal and crops are of fine quality. Pasture is burnt, and live stock prospects are poor. Forest fires continue. Telegram received today states rain falling steadily in Vancouver and vicinity and appears to be general.

NO SUCCESS.

"Where have you been?" asked the first dry agent.
"Ah," grunted the second, "on a wild juice chase."

THE NEW IMPROVED TWO PASSENGER
HAYNES 55
ROADSTER

Style, reliability, value—these are the outstanding characteristics sought and attained by Haynes engineers and designers in the new, improved Haynes 55 Roadster.

Extremely modern and modish is the arrangement of individual fenders and individual aluminum steps, as well as the searchlight design of head lamps and cowl lights. Special compartments for luggage and parcels increase the utility, while the tested and supremely reliable Haynes-built light six engine furnishes an abundance of flexible power.

Like all Haynes cars of the present season, this smart 121-inch wheel base roadster is equipped with four cord tires and the exclusive Haynes electric button starting system, which represents the maximum refinement of convenience.

The genuine leather upholstery of the seats is another token of the superior manufacturing excellence throughout, which emphasizes the value at the low price of

St. John, N. B.

PALMER'S
Moose Head Brand
Summer Packs & Plow Shoes

SLIP on a pair of Palmer's Summer Packs or Plow Shoes, and you will realize what Farn, foot comfort really means. Added to that, you have strength and durability, making a combination of good features seldom found in one pair of boots.

Palmer's Summer Packs and Plow Boots are hand made and hand sewed by expert workmen. The bottoms and uppers are made from Palmer's Famous Skowhegan Waterproof Leather, rich dark brown in color, very soft and pliable. Bottom part of uppers runs clean under, a great advantage over the lasted under boot.

Soles are attached by special clincher nailing process or sewed by lock stitch process.

A splendid boot for plowing or any kind of hard outdoor work.

Get a pair from your dealer, or order direct from us. Write us for our catalogue No. 43.
