Seed Catalogue Drops its Idealism

(New York Sun)

One of the hardest of American leg-
ends, and one that has a wide cir-
culation at this season, is to the ef-
fect that the illustrations in seed cata-
logues are as far from reality as
the two poles from each other. Joke-
smiths learn to lean heavily on this
legend. Like most legends, it has, or
did have, some reason for existence.

In the old days, before either photo-
graphy or paper making were, where
they are today, seed catalogues were
illustrated by wood cuts that had
more of art than truth in them. Buy-
ers of seeds and cultivators of gar-
dens who tried to equal the florid ex-
amples given in the catalogues helped
to establish the legend.

There is little truth behind the leg-
end today, according to the official
of one of the largest seed houses in
the country. Their own catalogue,
which is nearly as large as a popular
novel and which for a few months
each year has a circulation larger
than a "best seller," is illustrated
with photographs, bona fide photo-
graphs, not even retouched for the
occasion, except perhaps for a few
color enlargements. Satisfied cus-
tomers supply a few of these photo-
graphs, exhibits of what came from
one package of seeds. But the bulk of
the illustrations are from photographs
taken by the company of perfectly
normal vegetables and flowers. So
that realism, recognized in fiction in
the last few years, has also its place
in the seed catalogues.

Within the next few weeks the
seedsmen will have their one busy
season. Their selling begins in Janu-
ary and extends into the last of May
but thanks to the prevalence of pro-
crastination the bulk of their busi-
ness is concentrated in a few weeks.

For Hiccups and Heartburn Here is a Good Prescription

Nothing brings such satisfactory re-
lief as slowly sipping a few drops
of "Nerviline" in sweetened water.
Nerviline relieves those conditions
that cause the hiccups, just as it does
sour risings, gas belching, and fermen-
tation in the stomach. For acute stom-
ach pains, bloating, nausea and simi-
lar ills, rely on trusty old Nerviline,
the true friend of every family. Sold
by all dealers. 35c. per bottle.

A CASE WAS SETTLED AT EDMUNDSTON

(Edmundston Observer)

A great many witnesses and experts
were brought here in connection
with the suit brought by Mrs. Bur-
goyne against the Fraser Companies
Ltd.

This action was for \$29,000 alleged
damages to the Victoria Hotel owned
by Mrs. Burgoyne caused by the
water in turn caused by the building
of a dam by the Fraser Companies
across the Madawaska river.

The scene was all set for a legal
battle of wits. Witnesses and ex-
perts, surveyors and lawyers had
been waiting for days for the case to
be called in this sitting of the Mad-
awaska Circuit Court before Judge
Crockett. But the scene was never
enacted for ten minutes before the
case was to be called a friendly set-
tlement was reached out of court.

This hotel was unfortunate for af-
ter water had done its part in the
damage, fire had its turn and de-
stroyed it in October of last year.

It is not known yet whether Mrs.
Burgoyne will rebuild.

Anticipating Gardeners' Queries.

If gardeners put off buying, at least
when they once decide to have it
done, they know their own minds.
They know precisely what they
want, but it usually takes them sev-
eral months to decide when they
want it. Most gardeners, amateur or
professional, have pored over the
seed catalogues long enough to know
just what they want in the back yard
just what they want on the table
through the summer. They ask a great
many questions about the proper
methods of bringing the vegetables to
the surface so many, in fact, that this
particular house has had pamphlets
printed, designed to answer specific
questions about specific seeds. In-
stead of entering into a long explana-
tion the salesman merely reaches un-
der the counter hands the customer
a pamphlet, and is ready for the next
gardener.

THE EPISTLE OF JOHN TO THE PREMIER

Mr. J. D. Palmer who is supposed
to lead the opposition in the Provin-
cial Government outside the House
has a letter in the St. John Standard
denying some allegations made by
Hon. Mr. Veniot in a speech in the
Legislature a few days ago. He sup-
ports his denial with a telegram from
Mr. Richard O'Leary a fellow di-
rector of the Valley Railway in the
good old days. It is understood that
early this week Mr. Palmer handed
a copy of his letter to acting leader
Richards with instructions to read
the same for the edification of his
fellow members of the House. Mr.
Richards referred the matter to an
opposition caucus quietly but firmly
told him to let Mr. Palmer fight his
own battles.

Mr. Richards did not read the let-
ter to the House and it is now given
to a waiting world through the col-
umns of the St. John Standard. A
copy of the letter has been forward-
ed to the London Times the Daily
Mail and other great organs of pub-
lic opinion but was revealed to late
to permit of editorial comment on
afternoon editions the letter may be
added was addressed to Premier
Foster.

SO MANY PEOPLE ARE NERVOUS

"Fruit-a-tives" the Greatest of all Nerve Remedies

This Fruit Medicine Restores Health

The increase in the number of
persons suffering from Nervousness is
world-wide; due, in a measure, to the
reaction following the war, Sleepless-
ness, Headaches, Mental Depression,
Rheumatism, Nervous Dyspepsia,
Bad Heart Action, are the results of
a disturbed condition of the Nervous
System.

The nerves and the blood are so
intimately, so vitally, connected that
the condition of one is bound to affect
the condition of the other. If the
blood is laden with impurities, it is
impossible to have strong, steady
nerves.

The first essential in treating nervous
troubles is to purify and enrich the blood.
This, "FRUIT-A-TIVES" will do.

"FRUIT-A-TIVES" stimulates the
bowels, kidneys and skin and purifies
the blood. "Fruit-a-tives" improves
appetite and digestion and insures
food being properly digested, thus
enabling the blood to carry wholesome
nourishment to build up the body,
particularly the nerves.

Men and women who take "Fruit-
a-tives" for some form of nervous-
ness—because they cannot eat or
sleep or work or enjoy life—say that
this fruit medicine is simply marvellous
in its action.

50c a box, 6 for \$2.50, trial size, 25c.

SHE FOUND RELIEF AFTER FIVE YEARS

An Ex-Service Man Tells How His Wife Found New Health.

"I wish to testify," says Mr. R. A.
F. Hughes, of Hamilton, Ont., "as to
the efficiency of your Dr. Williams' Pink
Pills for the following reasons:
"When I returned home in May
1919, after nearly five years absence
on army service my wife had changed
from a healthy, robust woman, to one
whose life was a burden and ordinary
duties almost impossible. Through
war worries, loneliness and other fac-
tors contributed through my unavoid-
able absence, her health had been
steadily undergoing what I might de-
scribe as an undermining process, for
years.

"I was fully aware from her letters
that I would not find her the same
woman, but, when I reached home, I
was terribly shocked to find her in the
condition she was in. Her healthy
color had changed. She seemed blood-
less and her skin was sallow. She
was weak and listless, and with diffi-
culty moved about the house. She
hardly ever moved out of the house as
she became so short of breath and
feared she would fall during one of
her dizzy spells which she said were
becoming more frequent.

"The day I arrived home I visited
our doctor, who is an old friend, and,
later through his advice, consulted
with another physician of this city.
Everything was done that could be
done, and many medicines were pre-
scribed and faithfully taken. As these
were of no avail I trusted that time
alone would suffice to build up what
had gradually been undone in the
course of five years. After twelve
months, conditions had become worse.
Then I decided on change of air, gave
up my position in the city and moved
to the country. Even this did not do
any good. I think it added to her de-
pression.

"One day a friend visited us and as
a result of their conversation my wife
made up her mind to try Dr. Williams' Pink Pills."

"I had not much faith in what I
did, but procured three boxes. This
happened nine months ago. I was
surprised to hear my wife say, after
about the tenth day, 'I believe these
pills are doing me good.' A week or
so after that I certainly believed they
were, for I saw color returning to her
cheeks and the sallow, unhealthy
color disappearing. The pills were
certainly doing what they claim they
will do, and of her own free will she
continued them for about three
months. At the end of this time she
seemed quite a different woman. Life
was worth living. The listlessness
had gone and she could walk up the
steep hill, which is half a mile long,
leading to our house, without the
slightest inconvenience. At this stage
she discontinued the pills and she is
just as well now as ever she was.

"Now sir, I want to say I have every
faith in Dr. Williams' Pink Pills as I
have had proof, and I believe that
what this medicine did for my wife, it
can do for others."

You can get Dr. Williams' Pink
Pills from any medicine dealer or by
mail at 50 cents a box, or six boxes
for \$2.50 from The Dr. Williams' Medicine Co., Brockville Ont.

U. S. COLLEGE COMPILES LIST OF QUESTIONS

Madison, Wis., April 7—A new
intelligence test said by its compilers
to outclass the famous Edison
questionnaire has made its appear-
ance this month in the "Commerce
Magazine" published at the Univer-
sity of Wisconsin.

While its backers do not claim that
the 100 questions which it contains
will solve the problem of the intelli-
gence and ability of the student they
believe that it will at least give some
indication of the student's general
knowledge.

That the scope of the queries is
broad is indicated by the gap that
looms up between the seemingly in-
nocent, "Why is snow white?" and
the sociological, "Why do free meals
pauperize but not free libraries?"
Arithmetic, history, physics literature
and ethics all are called to the ser-
vice of the demon investigators, while
the helpless college student or in fact
any other victim with the possible ex-
ception of the compiler of an almanac
or encyclopedia sits squirming piti-
fully in his chair.

A few of the sample tortures ap-
plied in the improved mental in-
quisition run as follows:

Is Ireland a republic, a Free State
a dominion or what?

How did Tom Sawyer get his fence
whitewashed?

What are the four horsemen of the
Apocalypse and what did they stand
for?

What was Mr. Micawber always
waiting for?

What is meant by log rolling in
Congress?

Is George Bernard Shaw young or
old?

Name three common forms of house
architecture.

Who said "To be or not to be that
is the question"?

Is the word Utopia the name of a
country the name of a book or the
name of a man.

Why are raindrops spherical?

How is the freedom of the press
guaranteed in this country?

Can an iceboat travel faster than
the wind?

Who was Cicero? Name one of his
contemporaries.

Of what use are leaves?

A mother sent her boy to the river
to get seven pints of water. She gave
him a three pint vessel and, a five pint
vessel. Show how the boy can mea-
sure out exactly seven pints without
guessing at the amount. Begin by fil-
ling the five pint vessel.

Name six forms of money in cir-
culation in the United States.

FATE OF ROYAL WEDDING GIFTS IS PUZZLING

London, April 7—The vast number
and varied assortment of wedding
presents to Princess Mary and Vis-
count Lascelles caused many people
to wonder what the newly-weds would
do with the 66 jugs and bowls, 16 sil-
ver toast-racks and 22 clocks included
in the offerings.

The late King Edward after his
marriage, found himself the posses-
sor of 1500 teapots of all types and
descriptions and of more than 300
cruets. It is reported that some of
these are still stored in London.

Only persons who had been present
at court or who could claim per-
sonal acquaintance with either Prin-
cess Mary or her husband were per-
mitted to tender wedding gifts on
the occasion of the recent royal wed-
ding. Charitable and other public or-
ganizations and institutions were, of
course, expected.

This ruling perhaps saved Princess
Mary the embarrassment over dis-
posing of teapots and cruets suffered
by King Edward.

Only 28 Tea Services.

A classification of the gifts ex-
hibited at St. James' palace shows only
28 tea services were presented. Other
items are 158 articles of jewelry, in-
cluding bracelets, necklaces, pendants,
tiaras, brooches, rings, caskets, fans
and watches; a trayful of flawless,
unset precious stones; 893 gifts made
from precious metals, including 29
trays, 24 vases, 31 cups, 12 goblets, 18
inkstands, 25 statuettes, 14 card
trays, nine cigarette cases, eight trav-
elling cases and seven workboxes; 197
books and manuscripts, 22 candelabra
17 umbrellas, 14 lamps and shades, 17
rugs, 22 sets of cutlery, eight wall
brackets, 36 dinner services; 47 break-
fast table services, 18 silver salvers,
70 pairs of gloves, 10 wedding cakes
and seven hunting crops.

While correspondents invited to a
private view were being shown about
the state rooms where the presents
were on display, the 22 gift clocks all
began the chiming of 6 o'clock at al-
most the same instant—and the news-
paper party was ushered out, as it had
been invited to call "between 5 and 6
P. M."
