FOR FLOUNCES AND PLEATS.

Flounces and pleatings are now very fashionable and many garments this autumn will be trimmed with them. When adding a flounce allow half as much material again as the length to be covered. To insure that the fullness is evenly distributed the flounce should, before being gathered and sewn on, be divided into halves, quarters and subdivisions and pinned into place. Material measuring three times the width of the finished article will be required to make a pleated skirt, dress or blouse.

"FENCE" COLLAR IS NEW.

New York—The "fence" collar is a feature of some afternoon frocks shown today. It is more nearly circular than boat-shaped and as its name implies it stands away from the neck, with a fence like attitude.

ODD COLLAR EFFECTS.

London—Fantastic collar effects are ushering in the much heralded vogue for high necks. The first preliminary symptoms include a collar high in back and tying in a square bow across the throat above a deep V-shaped neck.

GRILLED ALMOND.

London—"Grilled almond" is a new shade. It is a tint between brown and green with more of the brown cast.

BROWN LEADS FOR FALL.

London.—In spite of the intrusion of other and brighter colors brown today is pre-eminently the correct shade for autumn wear. The women who take afternoon tea in such places as Claridge's are unanimous in their choice of brown shades. They range from almond shell to Africa.

RAISIN CORN BREAD.

Stir in 1/2 cup of floured seeded raisins then add 1 tablespoon of butter melted and baked about 1 1/2 hour in moderate oven.

SCOTCH EGGS.

Simmer six eggs twenty minutes in water just below the boiling point put into cold water let stand ten minutes and remove the shells. Cook one-eighth cup of stale bread crumbs to a smooth paste with half a cup of milk add one cup finely chopped ham, half teaspoon of mace mustard a dash of cayenne and one well-beaten egg. Mix thoroughly cover the eggs with this mixture and fry in deep hot fat.

Prospect—No I don't think I'm going to buy a car now. Only the other day a friend of mine ran over a man. Salesman—You couldn't even notice a thing like that with this car. It has the most sensitive springs on the market.

THE HUNTER knows the value of MINARD'S

ELLISON Gray, a well known Nova Scotia guide, writes:

"Have used MINARD'S LINIMENT in my home, hunting and lumber camps for years and consider it the best white liniment on the market. I find that it gives quick relief to minor ailments, such as Sprains, Bruises and all kinds of wounds. Also it is a great remedy for coughs, colds, etc., which one is liable to catch when log driving and cruising during the winter and spring months. I would not be without MINARD'S LINIMENT and cannot recommend it too highly."

DOCTORS OF LONDON MAY GO ON STRIKE

London, Oct. 18.—A strike of several hundred British physicians on January 1 next was decided upon today. The strikers are members of the Panel doctors' union which serves 15,000,000 men and women contributors to the National Health Fund. The decision to strike was taken at a conclave of the doctors in London as an act of refusal to accept a reduction in fees.

At present the doctors get 9s. 6d. annually for each patient registered on their respective lists. The minister of health has proposed reducing the rate to 8s. 6d. The conclave had been considering the proposal for several days.

The health fund is an outgrowth of the National Insurance Act passed when Mr. Lloyd George was Chancellor of the Exchequer in 1911 being one of his many measures aimed to help the masses. During employment the workers pay five pence in the case of men and 4d. in the case of women, weekly, the employers contributing an equal sum into the fund. Heretofore the approved societies to which all the contributors belong had paid from their reserve funds 7s. 3d. annually for each member, the Government making up the difference between that sum and the doctors' fees.
