SORE FOOT LUMPS, CORNS, CALLOUSES DISSOLVED AWAY

Wonderful Hot Foot Bath Treatment is Giving Quick Results.

Just a few drops of Putnam's Painless Corn Extractor spread over the stinging corn or callous, and followed later by a hot foot bath, brings off your corns without discomfort. You will find your foot or toes as smooth and sound as a baby's. It does not cost much, and the time required is very short, because relief comes promptly. Be sure you get Putnam's Painless Corn Extractor, that wonderful antiseptic remedy. Enjoy its painless, effective, and thoroughly hygienic results. Sold by dealers everywhere.

Running For Mayoralty

Dr. James W. Inches, police commissioner of Detroit, Mich. has announced his candidacy for the mayoralty in that city. There are three other candidates. Dr. Inches is a former Fredericton man and a frequent visitor to this city.

WHEN NERVES ARE NEAR EXHAUSTION

The Right Thing to Do is to Take a Tonic for the Blood.

When you become so exhausted after a day's work that you cannot sleep, or sleep fails to refresh you, it is time to look after your health. Failure to act at once means a steady drain on your health reserve, which can result in but one thing—a nervous breakdown.

Do not wait for a breakdown. The treatment is simple enough if you do not let your condition become too far advanced. The treatment is one requiring an effective tonic to enrich the blood and feed the starved nerves. The most effective tonic known is Dr. Williams' Pink Pills which act directly on the blood, and with proper diet have proved of the greatest benefit in nervous troubles and all conditions due to impoverished blood. Mrs. Mary Hanson, Braeside, Ont., has proved the value of Dr. Williams' Pink Pills and says:—"I was taken ill with what doctors whom I had consulted called neuralgia of the tissues of the system. I was a complete wreck from constant pains in my body and limbs, dizzy headaches, fainting spells and constipation. So intense was the pain that at times it caused vomiting and I would have to go to bed for two or three days, only to get up so dizzy and so weak that I could not cross the bedroom without aid, and while these spells lasted I could keep nothing on my stomach. I doctored for almost a year, but with no beneficial results. Finally the last doctor who attended me said medicine would not benefit me. I must have perfect rest, and spend most of my time in the open air. He gave me very poor encouragement. Knowing that the mother of four children could not spend all her time in idleness, I told my husband I was through with doctors and was going to try some other remedies. I got one, but after taking it for a month found no benefit. Then I decided to try Dr. Williams' Pink Pills, and at the end of two weeks I found these were what I needed. With nerves worn threadbare from all the suffering of the past I continued the use of Dr. Williams' Pink Pills for three months and by this time I was able to do most of my own housework. In fact I soon felt well and was able to do any kind of work without feeling tired. Since that time I have continued to do all my own work and have had no return of the dreadful pain I suffered before. I have recommended the pills in many cases and have always seen good results from their use."

You can get these Pills from any medicine dealer or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams Medicine Co., Brockville Ont.

AROUND THE TOWN

Winter carnivals seem to be all the rage this season and is there any good reason why Fredericton should not get into line for something of this kind. It is to late now to do anything for the present winter but shouldn't we get things into shape for a big carnival here during the year 1924. There is not a city in Canada, with the possible exception of old Quebec, which is better adapted for the joyous and invigorating outdoor sports which enter into a carnival than Fredericton. We have an ideal winter climate, we have a natural toboggan slide on the hill at the rear of the city and we have right at our door the river, which is the real thing for ice sports, including horse racing. As a citizen remarked to The Mail yesterday, "We have all the natural equipment for a winter carnival, yet about the only thing in the way of winter sport which seems to go here is bridge whist. "Nature certainly has given us the equipment, and we ought to wake up and make an effort to convert it into sport and dollars. A winter carnival in Fredericton with a duly elected queen and attendants, would attract visitors not only from all parts of the province but from the United States as well. There is nothing more health giving than winter sports such as skiing, snow-shoeing, skating and tobogganing, and why should not this kind of sport be exploited to the advantage of the city. Preparations should be made to put on a real winter carnival here during January or February of next year, and have it last an entire week. The men and women and boys and girls of the city with red blood in their veins should take hold of the project and put it through. By all means let us exploit our unexcelled winter attractions.

The announcement that Hon. P. J. Veniot had been offered and had accepted the Premiership of the province was well received by the Minister's numerous friends in this city. While Fredericton is the capital of the province it does not see very much of the members of the government. True they are here while the House is in session, but during the remainder of the year very few of them are seen oftener than once a month and then they are necessarily very busy. The Minister of Public Works is an exception to the rule. Since his appointment to office in April, 1917, there has scarcely been a week in which he has not been a visitor to Fredericton. When absent from here he makes it a point to keep in close touch with his officials and he has all the details of his department at his finger's ends. He has visited every hole and corner of the province and is familiar with every road and bridge. It can also be said that there are few officials in the outside service of the department who are not personally known to the minister. There has been a tendency among local politicians during the past twenty years to get away from the fact that Fredericton is that capital of the province, but Mr. Veniot can scarcely be classified among the number. As Minister of Public Works he has spent much of his time here and as premier he will do even better. In fact it would not be a matter for surprise should he decide to establish a residence in Fredericton during the winter months at least. In the other provinces of the Dominion when people want to see the premier on public business they go to the capital to interview him.

Since the establishment of the fox ranches on the old road above the city, snaring rabbits has become quite an industry in some parts of the rural districts. About the only capital needed is sufficient to purchase a few coils of rabbit wire and this may be bought at the local hardware stores for a few cents. The rabbits are brought to the city and disposed of to Jewish speculators who in turn hand them over to the ranches at a fair profit. Occasionally a shipment is made to the Upper Provinces where higher prices prevail than in the local market. Not long ago a resident of the city while cutting wood on the Hawell Road snared fifty rabbits. In Nova Scotia there is a close season on rabbits but they are not mentioned in the game laws of New Brunswick.

The verbal exchange between Principal Foster of the High School and Ald. Olts has created quite a lot of talk about the city and differences of opinion prevail as to who has the right end of the argument. Perhaps it may be said that the alderman's attack on the principal during the discussion on school mat-

ters in the council chamber was not in the best of taste, and on the other hand it cannot very well be said that the principal displayed the very best judgment when he went after the alderman while the latter was on an official visit to the High School building. Each having expressed in very forcible language his opinion of the other the subject might now very well be allowed to drop. Dr. Foster is known to be rather quick tempered and during his forty years of service in the public schools of the city he may have made some enemies among unreasonable parents, but his ability as a teacher cannot be called in question. Indeed there are few High School teachers in the province who can measure up to him in either knowledge, experience or ability to impart instruction. The Fredericton High School owes to him more than to any other individual the proud record it has so long enjoyed.

As the rural correspondent would say, "shovelling snow is the order of the day during the present winter." We have certainly had a lot of snow during the past six weeks, and those who claim to be weather prophets declare that the worst is yet to come. Already this month there has been two thaws, which caused the snow to settle considerably but it was not long in coming back. The city is doing its own snow plowing this winter and perhaps it is just as well for those who used to contract for work of this nature that such is the case. There has been altogether too much snow this winter to make the work of removing it profitable for contractors, as the only chance they have to come out ahead of the game is when snow is scarce. The service was never performed in such a satisfactory manner as is the case this winter. Keeping the sidewalks clear of snow has been a man's job and it may be costing a lot of money but the goods are being delivered.

A "buy at Home" campaign has been inaugurated by the customs authorities on the International bridge at St. Stephen and the merchants of St. John, Fredericton and Woodstock have been given the credit for having started it. A lady customs official, evidently an expert has been stationed on the bridge, and has already succeeded in rounding up a number of St. Stephen shoppers, who are protectionists in theory and free traders in practice. The chances are if the lady official is kept on the job during the motoring season the merchants of Calis will experience quite a slump in international trade. Those caught with the goods and compelled to pay double duty on same will probably see the wisdom of buying at home.

Health Improved

The friends of Mr. John A. Young M.P.P. of Taymouth who has been in poor health for several months will be glad to hear that his condition is improved. Mr. Young was among the visitors to the city yesterday.
