

Children Cry for Fletcher's CASTORIA

Fletcher's Castoria is strictly a remedy for Infants and Children. Foods are specially prepared for babies. A baby's medicine is even more essential for Baby. Remedies primarily prepared for grown-ups are not interchangeable. It was the need of a remedy for the common ailments of Infants and Children that brought Castoria before the public after years of research, and no claim has been made for it that its use for over 30 years has not proven.

What is CASTORIA?

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is pleasant. It contains neither Opium, Morphine nor other narcotic substance. Its age is its guarantee. For more than thirty years it has been in constant use for the relief of Constipation, Flatulency, Wind Colic and Diarrhoea; allaying Feverishness arising therefrom, and by regulating the Stomach and Bowels, aids the assimilation of Food; giving healthy and natural sleep. Head Steamships On Atlantic and Pacific Oceans

Walter Maughan Fills New Post
Made Necessary by Growth
of the Canadian Pacific
Steamship Business

Walter Maughan, newly appointed Steamship Passenger Manager of the Canadian Pacific Railway.

THE appointment of Mr. Walter Maughan as Steamship Passenger Manager of the Canadian Pacific Railway has been officially announced at the Company's headquarters. The appointment includes the management of the Company's passenger business on both the Atlantic and Pacific Oceans. Mr. Maughan was born in Toronto in 1876, and joined the Canadian Pacific forces in 1892. In 1897 he was made City Passenger Agent at Toronto, and in 1913 District Passenger Agent. In the same year he was moved to Montreal as Assistant General Passenger Agent, and in December, 1922, became Assistant to the General Passenger Traffic Manager. He has risen to his present high position by outstanding ability as much as by long service.

During the war Mr. Maughan did valuable work as Chairman of the Demobilization Committee of the Canadian Railway War Board representing the Minister of Militia, and was made a Lieutenant-Colonel in recognition of his work in transporting troops from Canada and China to France.

Mr. Maughan's appointment results from recent remarkable growth of the Canadian Pacific Steamship fleets on both oceans, and those especially equipped for West Indies, Mediterranean and around the world cruises that are planned.

At present in regular service on the Atlantic Ocean between St. John, N.B. (winter season) and Montreal and Quebec (summer season) and Southampton, Liverpool, Belfast, Glasgow, Cherbourg, Antwerp, and Hamburg the Canadian Pacific have eighteen passenger steamships with an aggregate displacement tonnage of 560,800 tons. During the coming summer season the Company will have 100 passenger steamship sailings from Montreal and Quebec. These exclusive of the fleet of freight steamships.

In the Oriental trade four of the largest and fastest ships on the Pacific Ocean operate between Vancouver and Victoria and Japan and China.

In the year 1924 the Canadian Pacific will operate their own cruises to the West Indies, Mediterranean, Egypt, the Holy Land, and also around the world. Three of their finest and burning ships have been allotted to these services.

One result of these cruises is that the great Canadian Company not only bridges two oceans and links four continents but actually encircles the globe with its own ships and railways without being dependent on any other transportation agencies.

ACTRESS DIED OF INJURY

LIKE VIRGINIA RAPPE'S

New York March 30—Another murder mystery with principles drawn from Broadway life confronted the police of New York today. Examination of the body of Mrs. Frances Love Beckwith former chorus girl who died at Roosevelt Hospital yesterday revealed that her death had been caused by acute peritonitis under circumstances similar to the death of Virginia Rappe in the Arbuckle case.

When the autopsy report was communicated to the police detectives were sent out immediately to round up all persons known to have attended a liquor party with Mrs. Beckwith Saturday and Sunday. Detectives also began to explore the young woman's past in the hope of finding some thread of evidence that might aid them in the investigation.

Dr. Benjamin Schwartz chief deputy medical examiner performed the autopsy on Mrs. Beckwith. He found a long bruise on the left side of her chin, another on her thorax and a third bruise on her left thigh. Internal examination revealed that a vital organ in the young woman's abdomen had been ruptured.

The presence of the bruises led logically to the supposition that the rupture had been caused by the external application of force. It might have been caused in Dr. Schwartz's opinion by heavy pressure on the girl's abdomen by a fall or merely by excessive drinking of liquor.

Learn of Drinking Party.

As in the Arbuckle case in San Francisco the police have already learned of a wild drinking party at which large quantities of liquor were consumed and the women guests subjected to rough treatment. The bruises on Mrs. Beckwith's body are vitally connected the police believe with her death.

Examination of Edward Campbell revealed in a number of important occurrences in the story sequence of events that preceded the girl's death. Campbell lives at 308 West Eighty-second street. It was in this apartment that Dr. Davenport West of 19 East Sixty fifth street found Mrs. Beckwith in bed Monday afternoon complaining of pains in her abdomen and showing other symptoms of peritonitis.

Campbell told the police he had known Mrs. Beckwith two years and

that last Sunday morning at 11 o'clock he went to her rooming house in a response to a telephone call from a friend who said he had an engagement with Mrs. Beckwith and could not find her.

Campbell said he found Mrs. Beckwith alighting from a taxicab in front of her home at 144 East Sixty first street. She told him she had been at a drinking and seemed to be under the influence of liquor. She complained that she had lost her key and had no money. Campbell told the police and he took her to his apartment.

Dies in Hospital.

When Mrs. Beckwith complained of being ill Campbell summoned Dr. West, Monday afternoon the young woman's condition became so serious that Dr. West ordered her taken to Roosevelt Hospital. There she developed violent pains in the abdomen. Her pulse was so low that the house surgeons were afraid to operate to locate the trouble and she died yesterday.

LABOR M. P.'S DEMANDING CHEAP MEALS

London, March 31—Twenty-five cent dinners for members of the British Parliament in the House of Commons dining room are demanded by the Labor members. Parliamentarians express widely different views about improvements that should be conducive to improved legislation. One has raised the question in Commons whether, in view of the fact that potatoes of the finest quality can be purchased for \$7 a ton, the kitchen committee could not serve better ones than it does. The same member also demanded Welsh mutton instead of Canterbury lamb as a standing dish on the bill of fare.

The Labor plea for the twenty-five cent dinner is based on the fact that dinner was served at that price (one shilling) before the war. The Labor members have resented the statement that they are gradually becoming teetotalers because they are not ordering their drinks in the Commons restaurant.

Some people hold the key to the situation and are too lazy to turn it.
