FRIDAY, SEPTEMBER 28, 1923.

SOUND PREPAREDNESS.

Mandy was eating her lunch when a neighbor came in with ill tidings. "Mandy," the visitor warned her, "prepare yo'self fo' some pow'ful bad news. Yo' husband, he just been in the worst accident—"

"Land sakes," broke in Mandy. "Ef Rastus am dead yo' shore am gwine to hear some awful wailin' soon a finish dis yere meal."

Europe—according to solemn announcement, the threats of statesmen and the excited words of magazine writers—is about to gird up its loins again and start a fight that will make all previous fights, including the World war, look like a movie rehearsal. The continent has been going to do this since the last signature was blotted on the Versailles treaty. But first of all Europe purposes to get a good meal stowed away under its belt. The scrapping and the wailing will be done on a full stomach.

THE OPPORTUNIST.

Bulgaria is the world's most interesting example of the practice of opportunism as a policy of state. She took advantage of her allies in the first Balkan war and promptly brought on the second Balkan war thereby. Her alliance in the great war went to the highest bidder. Today she is endeavoring to use the Grecian-Italian crisis as an excuse for obtaining a modification of the treaty of Neuilly. Under the terms of this treaty the army of Bulgaria is reduced to 25,000 men, no military aerial forces are to be maintained and 50,000 tons of coal are to be supplied annually to Jugo-Slavia for five years as compensation for the destruction of Serbian mines. The Bulgarian government is not likely to get very far with its request for already Jugo-Slavia has filed a protest against it.

REWARDS.

The Toledo Blade says: The men and women who deserve the greatest rewards from their fellows are not the tradesmen and manufacturers and professional folk who deal in established commodities. They are the men and women who produce a new thing for the benefit of the race. Canada is granting a life pension to Dr. Banting. Banting is the man who discovered insulin, the new diabetic medicine. He has made more tolerable the condition of mankind. He has prolonged human life. Other nations might do well to spend more freely in these wiser ways.

It is said that New York people shivered when the mercury dropped recently. The importance of this bit of news is that it reveals the remarkable information that New York folks do some things in common with the people of other sections of the country. After this it won't be surprising to hear that New York folks sweat in hot weather.

President and Mrs. Coolidge don't want their boys given any publicity at the academy. But they don't think do they, that it can be kept off the sport pages if John runs 70 yards for a touchdown?

A barber wire fence 1,000 miles long is being erected along the Mexican border, but almost anyone can learn to pass a bottle through a barbed wire fence.

An article about men's clothes prophesies that the new styles will mark the passing of the Sheik. But it does not say when he is going to work.

Everything seems to be loose in Europe but change. Haste makes waste, and speed cost lives.

Well, it cost Berkeley just about \$10,000,000 to prove that California can have a big fire without an earthquake.

Soon, big, strong men will be seen weeping silently as they are led off the field and to the sidelines.

New York, deprived of newspapers finds advertising is news. And no advertising is bad news.

Died, Sept. 21, one fair and mildling summer.

During Fire Prevention Week—and other weeks—step on the stub.

Why the delay in naming a cigar after Mr. Firpo?

No "Keep on Smiling" poem ever filled a coal bin.

What you pay for coal would take you to Florida. But one must eat.

However, a petrified skull can be found without a pick and shovel.

The trouble with most third parties is that they usually are.

Here and There

Russia has more illiterates, and at the same time, more bookshops than any other country in Europe.

The largest consignment of silk from the Orient for many months, consisting of 5,500 bales, valued at \$9,000,000, formed part of the cargo of the "Empress of Russia" recently.

A shipment of silk from China, consisting of ten carloads, valued at two million dollars, went forward from Vancouver to New York under special guard over the Canadian Pacific lines recently.

The first of a series of six new seaplanes being constructed for the Canadian Government has just been delivered. The new planes are to be used in forest patrol for the prevention of destruction by fire.

Following the disastrous earthquakes and fires which devastated large areas in Japan, the Canadian Pacific liners "Empress of Canada" and "Empress of Australia" were thrown open to the accommodation of thousands of refugees, while the officers and men of the vessels did splendid work in organizing and assisting rescue parties.

The rapid increase in the export butter trade of Saskatchewan during the past year or two, has been the outstanding feature of the Provincial dairy industry. Recently the Saskatchewan Co-operative Creameries made a shipment of 25,000 lbs. of butter to China.

For almost two decades the major portion of the world's supply of cobalt has been derived from the silver-cobalt-nickel arsenides of the Cobalt district, according to figures compiled by the Dominion Bureau of Statistics. The cobalt production of Canada in 1922 was 569,960 pounds, which at \$3.25 a pound, would be worth \$1,852,370.

Canada's trade within the Empire is increasing. For the twelve months ended July, Canada exported to other parts of the Empire goods amounting to \$453,437,899. This is in comparison with \$354,992,074, the figure for the corresponding twelve months previous. Imports from British Empire countries during the two twelve months' periods were: Ended July, 1923, \$195,811,190; ended July, 1922, \$153,185,581.

A wheat crop of 382,514,000 bushels is forecasted in a report issued by the Dominion Bureau of Statistics. The report is based upon the condition of crops at the end of July, and indicates that the Prairie Provinces will produce 357,295,000 bushels of wheat if weather conditions continue favorable. Manitoba, it is expected, will have a total wheat yield of 44,463,000 bushels; Saskatchewan 211,051,000; and Alberta 101,776,000 bushels. Alberta is the only province to show an increased yield as compared with 1922.

A party of five journalists, representing the leading newspapers of Switzerland, who recently arrived at Quebec, are the guests in Canada of E. W. Beatty, President of the Canadian Pacific Railway. They will tour the Dominion in the interests of Swiss colonization. Stops will be made at different points where Swiss people are farming, and opportunity will be given to members of the party to converse with them and get first hand knowledge as to the desirability of Canada as a place for Swiss colonists.

In a letter on "Canada and Land Settlement," published by the Morning Post, Sir Geo. McLaren Brown, European manager of the Canadian Pacific Railway, says that the agricultural salvation of Western Canada lies in mixed farming, which calls for smaller and more numerous agricultural holdings than wheat growing does, and results in closer settlement and better communication. The bigger and more densely settled the rural population, the more social amenities there are and greater advantages generally, he says.

CANADIAN PACIFIC RAILWAY.

General change of Time Tables on the Canadian Pacific Railway becomes effective on Sunday, September 30th. Full particulars are in hands of local agents.

TO LET — Rooms in "Grosvenor" House, opposite Officers' Square. Newly finished. Suitable for offices, apartments, etc. Apply 564 Queen Street or Telephone 145-21.

Sweater, boys—F. Myshraill.

Pillow cases—1st, Mrs. Gartley; 2nd, E. J. Douglass; 3rd, J. G. Douglass.

Spread, afghan—Mrs. R. Stuart.

"Second Fiddle" is the Photo Play at the Gaiety for Friday and Saturday with Glenn Hunter the featured player. Glenn Hunter is the young man in this picture "Second Fiddle" who at his best does some work rivaling Richard Barthelmess. Townsend Martin plays the selfish brother and does excellent characterization. Mary Astor as Polly Crawford and William Nally as Gregg do capable work. The plot centers around a younger brother who is always having to "play second fiddle" to his conceited elder brother. The two are interested in the same girl but young Jim fears that he has but little chance against his college-educated well dressed brother Herbert in the course of various thrilling happenings however Jim proves himself a hero and Herbert turns coward. And in the end the "second fiddle" wins the girl and is shown to be his brother's superior in every way.

Two bits of the picture are really exquisite; one photographically, the gathering of the storm which is the climax; the other humanly where Jim Bradley imagines himself to be a dashing Rodolfo Valentino dancing tango in an Argentine cantina.

A comedy completes a pleasing programme.

The law is off on certain game now. The woods will soon be full of hunters. Let us help to equip you with those things which we sell such as vacuum bottles, liniments, pipe, tobacco and soap.

Out in the woods is a long way from your Drug Store. Come and see what we have and get your game license at the same time.
