TOURIST TRAVEL.

Mr. C. C. Arvard, of Sackville, the new president of the New Brunswick Tourist and Resources Association, has issued an appeal to the people of the province, calling their attention to the great importance of tourist travel and urging them to lend their support to the organization of which he is the head. New Brunswick certainly possesses many attractions calculated to appeal to outdoor men and women and there is no reason why it should not have a greatly increased volume of tourist travel. The Fordney tariff has shut New Brunswick farm products out of the United States market, but the tariff wall is not high enough to prevent New Englanders from coming to the province for health and recreation. Thousands now make the trip each season but there is room for many thousands more and every effort should be made to induce them to come. President Arvard seems determined to make the New Brunswick Tourist and Resources Association function for every section of the province and may his efforts be attended with success.

Voting in the provincial elections in Ontario takes place on Monday of next week. There are some 300 candidates in the field for 111 seats and at this distance it looks like a grab game. It is scarcely likely that any party will have a clear majority of the seats, in which case there is likely to be a coalition government. Ontario is the only province in Canada where the Tories have any kind of a foothold and it is possible that they may return the largest group in this election in which case the Liberals and Progressives would probably unite in forming a new administration.

The salesmen who disposed of the stock in the L. R. Steel concern seem to have been able to clean up a good thing out of the enterprise. They were paid commissions ranging from a half of one per cent to two per cent and one man was able to clean up \$132,000 in the year 1920. The same man realized \$64,480 in 1921 and \$46,248 in 1922. Another salesman scooped in \$84,000 in 1920, \$25,706 in 1921 and \$10,448 in 1922. The Steel concern was a steal pure and simple and lived up to it.

The Halifax Chronicle, Nova Scotia's leading newspaper has just issued a special tourist edition which is a highly creditable production. It contains sixty-eight pages and is replete with information setting forth in a most interesting way the manifold attractions of the Bluenose province. Nova Scotia is certainly making a big drive for tourist travel and the special edition of the Chronicle is bound to give a stimulus to the movement.

The members of the Canadian Bisley team will sail from Montreal for England tomorrow on the S. S. Montclair. One of the members is Col. W. O. Morris, son of Mayor William Morris, a former resident of Fredericton who afterwards served in the Mounted Police. The Major was a member of the Wimbledon team, in 1873, just fifty years ago.

A dispatch from Chicago says there are 178 women in the United States who preach regularly from pulpits. There are millions who have no pulpits, however, and who preach intermittently, but to the point.

Well, Sunday was Bunker Hill Day in Boston and the watchman who has been on duty at the monument for 40 years is understood to have resolved again to climb to the top some time before he dies.

The Soviet government acknowledges no God, so it would be interesting to know to whom these reported prayers for Lenin are being raised.

It doesn't seem possible, but New York's murder rate is one the lowest among large cities in the coun-

try; due no doubt to her policy of having fewer and better murders.

Airplanes have grown smaller until the smallest one is called the "Wren." They won't be within the means of the average man until he can call his the "Humming Bird."

An employee whose idea of his importance is that the universe might stop should he take a vacation, could talk to advantage with a few of our ex-kings.

Asked for an apology, Japan sent four battleships to China. And a battleship is something that can look apologetic only with the greatest effort.

Shelby, Mont., must expect a little adverse publicity with the boosts. It has just leaked out that one of the natives plays the saxophone.

THROUGH OUR SIEVE

So far as our observation goes constructive criticism makes em as mad as the other kind.

HAD BAD PAINS IN HER HEART

Nerves Were Very Bad

Mrs. John Case, R. R. No. 4, St. Catharines, Ont., writes: "I wish to say that I have been bothered very much with my heart and nerves. I doctored with two different doctors but did not find much relief. I would have such bad pains in my heart, at times, I would be almost afraid to move or breathe, and at night I could not sleep. I f the pains in my heart were gone, my nerves would be so bad I could not lie still and would only get a little sleep by being tired out. My stomach was also very bad and I could eat but very little, and then only certain things or I would have so much distress which always made my heart worse.

I had been suffering for nearly two years until one day I was talking to our druggist about the way I felt. He advised me to give Milburn's Heart and Nerve Pills a fair trial. I have now taken five boxes and am feeling so much better. I am able to do my own work, and can eat anything I wish. I cannot praise

LITTLE STORIES OF THE TOWN

Bridge Table Talk.

Why didn't we see Mary Pickford and Connie Talmadge any more at the Movies? They are my favorites. To me they are in a class by themselves! Double two no trumps.

My husband says that it sometimes seems to him that Fredericton has no community spirit, but in times like last week when called upon to entertain strangers they rise to the occasion and do themselves proud. I bid three clubs.

Did you see Governor Todd dancing with the girls at the reception to the Newspaper delegates? I liked that, as it showed he was democratic. I hate to see a Governor who lets the honor give him a swelled head. Now don't glare at me Edith I hadn't a thing.

What a lot of clever women were here last week from all over Canada. I thought the speech made by Mrs. Todd at the Reception to the newspaper delegates the best delivered. It was short and to the point. Play from dummy.

Everybody has been talking about the cold summer we are going to have, when along comes a scorching smitherens. The play is in your hands. My husband says that he likes style up to a certain point, but there should be a closed season for some of the women who wear short skirts. He does not like them when they are sprung on too thin. Well here comes the eats. Give me the scores.
