## Of Interest to the Women

### FANCIES OF FASHION.

The straight silhouette prevails in Paris modes.

Much embroidery appears as a decoration on latest models. Bulgarian embroidery is exceedingly smart.

French women are buying lavishly and choose bright colors instead of black.

Colored shoes have no place in the wardrobe of the smart Parisienne. She chooses black patent leather shoes of fancy cut or with a buckle. Light colored stockings are universally worn.

### SLEEP BRINGS BEAUTY.

Modern girls are apt to overlook the importance of getting as much sleep and rest as possible.

If your sleep is of the right kind it should help to beautify you, for sleep is Nature's sweet restorer and one of the most reliable wrinkle removers in the world.

As the years go by the prettiest woman loses her charms but she can retain them longer if she lets Nature restore each night what each day has lost.

The old idea about sleep before midnight being essential to good looks is an exploded theory; science has taught us that sleep at any time under the right conditions is both healthy and beautifying.

The girl who wishes to retain her youthful beauty and freshness of complexion must allow herself eight or at least seven consecutive hours of sleep out of every 24.

No one who does not take sufficient rest can hope to be beautiful.

They cannot have a clear skin, a good color or bright eyes—and a tired, strained look will spoil the prettiest face.

The highly strung, nervy woman needs far more sleep than her more placid sister, but, too, often she gets far less.

### THE SLEEVELESS JUMPER IS HIGH STYLE NOTE OF TODAY.

Rest coat sleeves? The order seems to have been given out and the sleeveless jacket prevails. Rest backs, and we see only plain backs and patterned fronts.

Sleeveless sweaters rule the moment and if you pick out one with a plain white back and patterned or plain colored front, you are doing all that could be expected of you.

These sleeveless jumpers, jackets, or whatever you want to call them, are the high style note, to be sure and if the day demands a long-sleeve one the woman of good taste, that is of supreme good judgment is going to put it on regardless of any sleeveless craze.

Being modish isn't being altogether a copycat, so don't junk your good, fully-armed sweaters. The on-rushing breakers are bringing in only sleeveless ones to be sure but the undertow of fashion may carry the excess out just as speedily.

### CORNS SOFTEN IN FOOT BATH

Pain Stops, Misery Ends Quickly.

Hot water extraction of corns and callouses offers the only perfect way to rid yourself of these painful troubles. Take just a minute or two and spread a few drops of Putnam's Painless Corn Extractor over the sensitive surface of the corn or callous, and the pain is stopped at once. Then you will forget your corns, because they will not pain. Later you use a hot foot bath for five or ten minutes. Putnam's Painless Corn Extractor. It glories in feeling that you get from minutes. Corn crumples up and costs but little, and is sold by all druggists.

Soothe the sore ligaments by rubbing in Minard's Liniment. It penetrates, soothes and heals. It eases inflammation and rapidly brings back the use of the limb.

### Here and There

In 1922 Canada produced minerals estimated to be worth \$180,622,000, an increase of practically \$6,000,000 over the previous year.

A British silk manufacturing firm has decided to establish a large plant near Quebec city for the manufacture of artificial silk yarn.

A train nearly a mile long and drawn by a single locomotive recently carried 165,000 bushels of grain over the Canadian Pacific western lines.

Almost sixteen and a half million bushels of wheat were exported from the port of Vancouver during the period September 1, 1922, to May 31 of the present year, according to figures issued by the Merchants Exchange.

Among the large number of unaccompanied women on the last westward voyages of the Canadian Pacific liners "Montclare" and "Melita" were twenty-three who were coming to Canada to be married in various parts of the Dominion.

An official in charge of the cattle shipments from the Port of Montreal recently stated that nearly 40,000 head of store cattle would be shipped from the port this year. He declared the rush seasons would be the months of August, September and October.

On her last eastward voyage the Canadian Pacific liner "Empress of Canada" established a new trans-Pacific record of 8 days, 10 hours and 55 minutes from Yokohama to Vancouver. The previous record, 8 days, 18 hours and 31 minutes, had been held since 1914 by the "Empress of Russia" of the same line.

If public deposits in banks and loan companies can be taken as a fair indication, the Canadian is the world's richest man, according to a statement made by F. A. Hatch, retiring president of the Ontario division of the Canadian Manufacturers' Association. These deposits amount to more than two billion dollars, or \$250 per capita.

According to a report of the minion Bureau of Statistics, 62,169 tons of railway freight originated in Canada in 1922, and 26,631 was received from foreign connections, making a total of 88,800 outgoing. Also 62,548,578 were terminated in Canada and 25,433 were delivered to foreign connections, making a total of 87,987 tons.

A distinct type of sheep, adapted to prairie range conditions and said to possess superior wool and sheep qualities, has been developed by R. C. Harvey, an Alberta sheep raiser. It will be known as the "Romney" and has been evolved after eleven years' experimenting with crosses of the Romney-Marsh with the Rambouillet. As evidence of the wool production from this species, Harvey's annual clip is 120,000 pounds.

That Canada was gradually becoming more and more of an industrial country, and that Canadians themselves were not truly aware of the fact, was the opinion expressed before the Winnipeg Rotary Club by Prof. R. C. Wallace, of the University of Manitoba. He stated that during the past twenty-five years the population of Canada had increased 80 per cent., the railway mileage 120 per cent., while the industrial life of the country increased 700 per cent.

St. Hyacinthe, Que., has the distinction of having developed the world's largest organ plant, and by native invention and improvements evolved an instrument which receives praise from the world's first artists. An organ recently shipped by Casavant Freres of that place to Paris, France, is absolutely the first to leave the American continent for Europe, the movement having heretofore been in the opposite direction, and was so shipped because the purchaser desired the finest and most up-to-date instrument that could be secured.
