I am prepared to supply during the present season a limited number of settings of Barred Plymouth Rock Eggs for Hatching. I breed from yearling hens with trap nest, records ranging from 175 to 267, and my pen is headed by a cockerel whose dam made a record of 247 eggs in ten months in the New Brunswick egg laying contest in 1921. Already this season, eggs from this pen have shown a fertility of ninety per cent.
