GERMAN GIVEN HEARTY WELCOME ON PARIS TRACK

Sign of Change of Feeling — Wittig Professional Bicycle Rider — Finished Third in the Race.

Paris, March 25—Karl Wittig, the first German bicycle rider to appear at the Paris Velodrome since the World War was given a cordial reception by the Paris public.

The German rider was somewhat nervous as he took the track in the face of what he evidently was convinced would be a hostile demonstration against him.

The crowd however warmed up to him as Wittig, unmindful of several mishaps to his motor pace pluckily kept on riding and went after the leaders in the race with a great show of courage. He was loudly cheered when he finished third in a field of six after it had appeared he was hopelessly beaten.

The spectators then shattered tradition by calling upon Wittig to do an extra lap for honor something which is generally reserved for victors in races so that they may receive the plaudits of the crowd.

Wittig obliged and was presented with a bouquet just before he returned to his dressing room. The German evidently was deeply moved by the reception accorded him.

The race was won by Paul Sutter of Switzerland who rode 69 kilometers in 80 minutes in an hour.

TRYING TO OPEN YANKEE FOOTBALL

New York, March 25—Four radical changes in the football playing code all intended to speed up the game and increase its versatility were adopted yesterday by the National Intercollegiate Football Rules Committee at its annual meeting.

The abolition of all mud or artificial kicking tees the advancement of the kickoff from the 40-yard line to the centre of the field an increase from two to five yards of the penalty for excess time out and decision to try for point after touchdown from the three instead of the five-yard line were the most important measures approved. A number of others were made to clarify rules often misinterpreted.

Despite a recommendation by the Coaches' Association that the rule against the flying tackle to be abolished on the ground that it is admittedly seldom enforced the committee after a lengthy debate decided not to do so. It is understood members felt that if bars were let down in this request it might encourage rougher play.

DEMPSEY GIVES DENIAL

Los Angeles, March 25—Jack Dempsey who arrived here yesterday was dividing his time between establishing a training camp in the foothills and making vigorous denials of rumors concerning his plans for the future. STANLEY CUP WON BY THE CANADIENS

Ottawa, March 25—In one of the most thrilling hockey matches ever seen in Ottawa the Montreal Canadiens tonight shattered Calgary Tigers hopes of winning the Stanley Cup emblematic of the world's professional hockey championship when they defeated the westerners by a score of 3 to 0. Leo Dandurand's flying Frenchmen were too good for the western invaders who however treated the fans to a sparkling battle for the full 60 minutes. Realizing that it was do or die the Calgarys threw everything they had into a desperate attempt to pull the series out of the fire, but it was of no avail and the Canadiens marched off with their second straight victory of the series.

It was hard almost vicious hockey, played at a blinding speed throughout and the fans had not a dull moment from the time Rt. Hon. Arthur Meighen faced the puck until the final bell clanged the death knell of the eastern hopes. The body checking was terrific both landing out the avoirdupois without mercy and numerous penalties were inflicted by Referee Art Ross.

NO EXHIBITION GAMES ALLOWED

Montreal, March 25—Canadiens and Calgary will not play an exhibition series at Boston following the completion of the Stanley Cup series according to word received here. Officials of the arena in the United States city were unable to hold the ice long enough for the proposed games owing to the necessity of construction bowling alleys for a coming tenpin tournament there.

Ottawa, March 24—Reform of the Senate will be advocated by Senator Turiff, of Assinibona, when the Upper House resumes on April 1, according to the Citizen this afternoon. He will propose that while the reform should not affect the present body that its numbers be reduced from 96 to 64 by the process of not filling vacancies as they occur, continues the paper.

Moreover to guard against large majorities, Senator Turiff would have the Opposition Leader in the Senate given the right to nominate one in three as vacancies arise, added the Citizen.

Firpo has received a cablegram from Juan Homs who formerly represented Tex Rickard in Buenos Aires saying Homs sailed from New York Saturday with interesting propositions from Rickard and requesting Firpo not to enter into any engagements until Homs arrived in Buenos Aires. Firpo said however that unless he obtained a favorable answer from Los Angeles he would surely sail for Europe regardless of Homs' mission. He reiterated that he was through with boxing.

Her Children Had Whooping Cough

This is one of the most dangerous diseases of children. It starts with fever and cough. The cough is at first short and sharp, but gradually increases in severity and occurs in sudden spasms, vomiting follows, and sometimes there is nose bleed; the child turns livid in the face, the eyes appear as if they would burst from their sockets; and suffocation seems imminent till relief is brought on by the "whoop."
