U. S. OLYMPIC SHORT \$73,000 OF REQUIREMENTS

Team on Its Way and Money Must be Raised — Will Train Aboard Ship.

New York, June 18—Even as the main body of United States Olympic athletes sailed for France, it was revealed the American Olympic fund is \$73,000 less than the amount required. Secretary Rubien of the A. A. U. announced that the campaign for funds to defray the expenses of the athletes had fallen that much short of the \$350,000 set when the nationwide campaign started.

Bidding good-bye and good luck, a crowd of 1,000 admirers, who gathered at Pier "A" in Hoboken to see them off and escorted as far as the Statue of Liberty by a squadron of city tugboats, 262 athletes and 100 handlers coaches and trainers sailed for the Olympic games on the United States liner America, chartered for the purpose.

There were 26 boxers, 53 swimmers, 13 gymnasts, 17 wrestlers, 15 fencers, 12 scullers and 121 track and field men. About 100 athletes are in France already. The America was decorated gaily. A ring for the boxers and wrestlers had been erected on the boat deck and a linoleum track one-fifth of a mile long, had been built on the "A" deck.

Col. Robert M. Thompson, Chairman of the Olympic Committee sailed in charge. To date approximately \$277,000 has been received to defray the expenses of U. S. Olympic participation, and the major part of this fund has been spent in expenses incident to the advance preparation for the team.

The departure was accompanied by a din made by every kind of craft in the North River and upper harbor and by persons along the piers. The ship was a floating gymnasium. The only thing missing for training on the way over was a pool for the nineteen girl swimming champions aboard. There are about 150 U. S. entrants already in France, which brings the total to 500.

THREE VETERAN PITCHERS RETIRE

Three veteran pitchers who saw service in the major leagues have voluntarily retired. The latest bulletin issued by the National Association of Professional Baseball Leagues shows that Marty O'Toole, famous as a \$22,500 bust with the Pittsburgh Nationals Pitcher Larry Cheney of Philadelphia and Pitches Pertica, St. Louis Cardinals moundsman of other days, have said farewell to the sport. O'Toole and Cheney were with San Antonio and Pertica with Houston.

MARITIME BOYS CHOSEN FOR OLYMPICS

Maynes, Miller, McDonald, and McAuley to Sail for France on Friday of This Week.

Montreal, June 19—Two New Brunswick athletes, William Maynes, St. John's great young quarter-miller and A. I. Miller, of Sussex Canadian high jump champion, were selected here last night as members of Canada's track and field team at the eighth Olympiad at Paris, July 6 to 13, and will sail on Friday morning on the liner Montclare from here with 21 other members.

The third Maritime Province boy to make the Olympic grade was Phil MacDonald, of Charlottetown, whose fine performance in the 400 metre hurdles here today warranted sending him. Never before in the history of track athletics in New Brunswick and the Island have athletes from these provinces made the Olympic trip and only once before has a Maritime Province man gone across he being Dr. McDonald, of Nova Scotia, in the hop-step-and-jump. Victor McAuley, the distance runner from Windsor, N. S., is the fourth Maritime representative.

Although winning the shotput event here this afternoon in impressive fashion, Andrew Malcolm, of St. John, was not included on the honor list as his distance in the event hardly warranted sending him. Malcolm never expected being selected for the team owing to his lack of practice for this event. He was well pleased in winning here today—the only Maritime athlete to come through for first place, and he leaves for home Thursday night well satisfied. He completely outclassed his opponents here today.

DANFORTH NOT BELIEVED TO USE TRICK BALLS

Has Been Doing Some Great Work in Strike-outs — Examination Has Shown Nothing.

New York, June 18—Every time Dave Danforth, the St. Louis south-paw shut out a ball club the players hint that he is using some mysterious trick ball. When Danforth loses a ball game the players say nothing against his delivery. Dave whitewashed the Yankees the other day, and Manager Huggins and his board of strategy are conducting an elaborate scientific research to find out what magic he employs to embarrass the hard-hitting Yank batsmen.

Umpires, detective agencies, chemists and efficiency engineers have been on Danforth's trail for a long time. Every once in a while Dave uncorks a curve which simply waves its way to the plate. It takes a sort of billowy course and makes a hard-swinging batsman look silly when he misses. But up to the present time no one has been able to discover anything wrong with his pitching methods. As far as any one knows, he uses nothing but his nimble fingers of his left hand.

Russell Ford, when he was with the Yankees in the old days, discovered the emery ball. He had a bit of emery paper hidden in his glove and rubbed a rough place on the smooth cover of the ball. By this method his gers obtained a firm purchase on the ball; and he was able to produce curves which took tantalizing dips. That started a vogue of trick pitching which became so general that a batting famine resulted. The trick pitching was legislated out of the game.

The ball players now think that Danforth has devised some new substitute for the old emery ball. Frequent trips to the plate without producing a hit have established the fact firmly in the minds of numerous American League players. Up to now the only evidence they have against Danforth is that he can strike them out.

Numerous baseballs used by Danforth and questioned by the players have been put through the severest tests, but no evidence has been found that Danforth is not using a legitimate delivery. As a matter of fact, Danforth has been pitching a long time and has a wide knowledge of batsmen. He has a deceptive south-paw delivery which is naturally misleading. When any left-hander has good control he is likely to win a ball game.

BEATTIE RAMSAY HOCKEY COACH AT PRINCETON UNIV.

Was with Granites at Chamonix—Formerly with University of Toronto—Is Great Coach

Toronto, June 18—Princeton University athletic authorities have secured Beattie Ramsay, the great defense man of Canada's world championship hockey team, to act as coach. Official announcement was made here yesterday to this effect, and thus, for a time at least, one of the best amateur players in this country will be lost to Canadian hockey. Ramsay will take a post-graduate course in engineering while at Princeton.

The new coach will report to Princeton next November and his hockey duties will keep him busy until the middle of March. Princeton has an artificial ice rink and about 100 candidates for the team, which plays against Harvard, Yale, Annapolis, West Point and other United States colleges. Princeton would also like to arrange international games against McGill, Queen's and University of Toronto.

Great Record.

Ramsay has been one of the outstanding stars in Canadian amateur hockey since 1915, when he played for the University of Toronto juniors, O. H. A. champions. After the war he joined the U. of T. seniors and played for that team for several seasons. He was with the Blue and White when they won the Canadian championship of 1921. In 1923 and 1924 he was coach of the University of Toronto teams and also played for Granites and the Canadian Olympic team. He was one of the stars of the great team which won the world's time at Chamonix last February.

In securing Ramsay, Princeton University gets one of the fairest exponents of the sport imaginable. Ramsay insists on clean and scientific play and should get results.

DUNDEE MUST FIGHT KAPLAN

New York, June 18—The State Commission at its regular meeting will order Johnny Dundee, the featherweight champion, as well as boss of the junior lightweight brigade, to accept the challenge of Louis Kaplan of Meriden, Conn.

Kaplan has been after Dundee for a long time, but Dundee had been granted an extension of time by the commission to reply to the Connecticut boxer's challenge. The bout between Dundee and Kaplan will probably be staged at the Velodrome early next month.
