### Of Interest to the Women

ACCESSORIES MAKE  
FOR SMARTNESS.

New York.—Short jacquets of colored velvet embroidered in all over stitchery with collar and front facing of white fur are being worn over simple crepe frocks.

JEWELRY.

Heavy oriental jewelry with semi-precious stones is sponsored by those who prefer semi-precious jewels to cheap imitations of precious ones. Painted wooden beads are the only inexpensive accessories worn by better groomed women. Red and black Chinese lacquer pendants on colored cords are popular as necklaces. Oriental jewelry which combines lapis, turmaline, jade, carnelian and amber in exquisite oriental settings is in demand.

Chystal necklaces, bracelets and earrings are favored for dressy wear and huge pearls combined with emerald-colored stones are worn by debutantes for evening. Slave bracelets are already going out of style, altho link bracelets set with semi-precious stones are still popular. Huge button earrings with small pendant drops are worn by matrons who have not bobbed hair.

NET SHAWLS.

Spanish shawls need not be embroidered to be stylish this season. Often they are just huge squares of vivid silk crepe bordered in deep fringe of self or contrasting color.

White kid hats and vivid lizard skin hats are worn for sports wear. White kid and black suede is a favorite hat combination. Lizard skin if often combined with ribbon where either the crown or the brim is completely formed of ribbon.

At the races one sees simple suits and topcoats of three quarter length. The latter are generally huge checked materials or blanket effects and wrap tightly about the figure. Black and white is perhaps the favorite combination. Soft Lanvin dull hennas and plaid effects are popular.

Tailored hats set the vogue in millinery. The small hat with ribbon trim is worn for almost every occasion. Flower trims are not used at all. Canes are being worn at resorts races and all out-of-town gatherings. Few smart women consider them other than an accessory for sports wear however. The newest canes form a sheath for the umbrella or parasol being rather heavy looking walking sticks.

The average husband hasn't as much sense as he thinks he has but he has more than his wife suspects. The man who said figures do not lie got his hunch in a tour of the bathing beaches.

The most expensive thing about a vacation is getting fired because the firm learns it can do without you.

### Here and There

A party of 50 Australian boys will be the guests of the Exhibition at Toronto from August 30th to September 3rd. They are public school boys from all parts of Australia and their visit to Toronto will be made on their way home from the British Empire Exhibition.

British Columbia is now the third manufacturing province of Canada, with 2,673 manufacturing establishments, over 41,000 employees, invested capital amounting to nearly \$225,000,000 and a value of products of approximately \$260,000,000, according to Government statistics.

New Brunswick in 1923 produced more coal than at any other time in her history. The output for the year exceeded that of 1922 by more than 12,000 tons, and amounted to 251,091 long tons. It is estimated that this industry creates a value of, over \$1,100,000 annually, most of which goes out in supplies and wages for the benefit of the province.

What will probably be the last big round-up of horses in the West will take place shortly in the range country south-east of Calgary, Alberta, for the purpose of clearing the range of stray horses. The horses will be gathered in one central corral, where owners may claim their animals. It is anticipated that about 10,000 animals will be secured. The Department of Agriculture is supervising the arrangements.

Unstinted praise from prominent citizens and the press of Alberta is given the Canadian Pacific Railway in connection with the Company's recently announced branch line construction program, affecting the southern portion of the province. C. R. Mitchell, member of the Provincial Legislature for Bow Valley, describes the announcement as the most important made in many years.

"Perhaps the most noteworthy fact we discovered was the vastly improved psychology of the people of the west to that which existed a year ago," commented E. W. Beatty, President of the Canadian Pacific Railway, on his return from a recent inspection of the Company's property. "They are full of hope and confidence and realize, as the east should realize, the tremendous benefit to the whole of Canada of a second consecutive large harvest."

The number of big industrial undertakings projected for immediate construction on the coast of British Columbia provides a striking indication of how that province is going ahead. A \$400,000 logging railway up the Shehalis River Valley, a \$1,000,000 mill plant at Chemainus, a \$200,000 amusement centre at Victoria and a \$200,000 saw-mill at Port Coquitlam, with about \$10,000,000 in power plants in the Seave Lake District are some of the more important and a host of smaller projects are also under way.

Practically all Canada's production of newsprint for export in March was absorbed by the United States. Of March shipments amounting to 127,583 tons valued at \$9,756,530, the United States received 125,848 tons, valued at 9,617,823. The only other Canadian exports of newsprint of importance were 599 tons to South Africa and 1,037 tons to New Zealand. It is expected that April shipments will show an even greater proportion of consignments to the United States.

The concentration camp for emigrants to Canada and the United States maintained by the Canadian Pacific Railway and other steamship companies, is located at Southampton, England. It has an average daily attendance of 600 and, on some days, the number is about 1,000. Comfortable quarters and meals at moderate cost are provided and features of the camp are the special dining-room for Jewish passengers, the private shower baths, with towels and bathing gowns supplied and the individual rooms which are also available.
