

NEW CABINET TO BE SHORT-LIVED

SMUGGLERS CAPTURED IN RUM - BATTLE

Conflict Over Wet Goods Waged in Deep Woods.

REVENUE MEN HUNTING

Rum-runners Said to be Planning New Attack

Quebec, June 9—An unknown number of American revenue agents have been injured and several rum-runners have been captured in a 10-day battle at the border over the possession of a ship's cargo of whiskey, which was being smuggled toward New York city, according to reports from Sully township in Temiscouata County.

The smugglers are said to be Canadians. An unverified report is that ringleaders of the smuggler's crew are mobilizing lumberjacks for an attack upon the American authorities in revenge for the arrest of two of the prisoners.

Details concerning the conflict are lacking, for it is being waged in the thick forests which fringe the international border in the Temiscouata region. It is known, however, that huge quantities of liquor have been cached in the timber fastnesses for smuggling into the United States.

Canadian and American revenue and customs agents, as well as inspectors of the Quebec Liquor Commission, invaded the region recently to hunt for the liquor and block its passage across the line.

First reports were that the cached liquor was being moonshined in the hills which abound in the border wilds. It has since been quite definitely established that the contraband came from St. Pierre, Miquelon, after having been smuggled by schooner from abroad and landed on the rocky coast north of Maine.

Washington Has No Word.

Washington, June 9—Both at the Treasury and the prohibition unit knowledge was denied of any rum-running battle along the Canadian border. No reports had been received of such an incident, it was stated.

CAPT. D'OISY

FINISHES 12,000 MILE FLIGHT

(British United Press.)

Tokio, June 9—Captain Pelletier D'Oisy, French airman, today completed a flight of some 12,000 miles from Paris, landing at Tokiraswa, near Tokio at 11.57 a.m. His last lap was from Osaka.

SIX JURORS

TO TRY GIRL FOR SLAYING

Buffalo, June 9—Six jurors who will decide whether Stella MacKow-ska 19 years old is to go to the electric chair for the death of Rufus Eller a clerk in a jewelry store hold up in which the girl took part on May 10 were in the jury box when the Supreme Court convened today. The prosecution hoped to complete the jury before night and start presentation of evidence before adjournment for the week end.

Sixty two talesmen were examined in selecting the six jurors. The greater number of veniremen barred from service were excused by the court or challenged by the prosecution after expressing unwillingness to vote the death penalty for a girl still in her teens.

THE PORTEGESE FLYERS ARE NOW IN BANGKOK.

(British United Press.)

London, June 9—The Portuguese flyers for eastern flyers flew today from Rangoon to Bangkok, a central news Rangoon dispatch says.

BOYS CONFESS THEY WRECKED B.&A. EXPRESS

Young Worcester Lads Wanted to See Engine Grind Rocks.

CAUSED DEATHS

Two Engineers and a Fireman Killed in Accident.

Worcester, June 9—Two boys too young to know the meaning and consequences of their act confessed to police detectives that they had placed the rocks on the track that resulted in the wrecking of the Twilight express and the death of three persons Tuesday night.

Betrayed by 9-Year-Old.

The youngsters were innocently betrayed by Mary Boria aged 9 who told Detectives Burke and Sharry that her brother Robert aged 8 and another boy had placed shale stones on the track for the pleasure of seeing the engine grind them to powder.

The companion of young Boria was an even younger boy Michael Feriole, aged 6. The three children attend the Adams street school.

After school hours on Wednesday the two lads scrambled up the sides of the embankment of Deep Cut about one mile from the Worcester station and laid stones on the rails. Then they withdrew to watch the big Pacific type engines rolled down the embankment into the ditch.

Two engineers and a fireman were killed and several passengers were severely shaken up. The children after being taken to the police station for questioning were sent back to their homes.

FREE-FOR-ALL HORSE SHIPPED FROM OHIO

Chesley H. Searcy left By Express Today—Due Here on Thursday—Trains Well.

W. B. Lint received a telegram from North Randall, O., today to the effect that the free-for-all horse Chesley H. Searcy which was purchased by the Fredericton Driving & Sporting Club to take his place among the community owned free-for allers in Northern Maine and New Brunswick had been shipped by express from that place today. The horse should arrive here on Thursday.

The horse was purchased early in the spring from the Stokes stable but since purchase has remained with that stable for purposes of training. The earlier season in Ohio made it better for the horse to remain there until the weather should become warm here. Reports are to the effect that Chesley H. Searcy has trained very well. The first start is to be made in Aroostook County, July 4th. The idea that he would be seen here on Dominion Day in an exhibition mile was abandoned. The horse will be at the local track for some time before starting campaigning.

Advertising is a source of revenue, not a tax on profits. This has been demonstrated.

Slayers of Franks To be Tried First On Murder Charge

Defence Making Efforts to Secure Delays.

BOTH INDICTED

Charge of Venue Talked of by Slayers' Lawyers.

Chicago, June 9—Two gallews indictments were returned in court against Nathan Leopold Jr. and Richard Loeb confessed kidnappers and slayers of 14-year old Robert Franks whom they wished to die in their hands so they could experience a thrill. The murderers were not in court when the indictments were returned but arrived a few seconds later each shackled to a Deputy Sheriff. Their mission was to ask writs of habeas corpus but the return of the indictments automatically disposed of the application for habeas corpus writs and they were dismissed.

Murder Charge First.

Arraignment on the murder charge which will be the first tried will be the signal for the defense to bring up its heaviest legal artillery. Every effort will be made by the defense to secure delays postponements—anything that will gain time and permit some other great sensations to occupy public mind. Postponement will be asked on the ground that public opinion is "hysterically hostile" to the murderers. The State however will demand an immediate trial. July 15 is the date set by the State's Attorney but it is doubtful if he will succeed in getting a start at that time.

Change of Venue Mooted.

There was some talk by the defense today of a desire to take the trial out of Chicago to some neutral point but this is considered a weak bluff as the entire country and even foreign countries are deeply wrought up over the atrocious crime. The defendants will stand a much better chance in Chicago than in any of the country districts where murder is looked upon so complacently. There will be far better chances of following Leopold's suggestion. "We have lots of money; why not get to some of these juries?" in Chicago which is infested with professional jurymen than anywhere in the country districts or any adjacent city.

72 Witnesses Examined.

Although the indictments were voted last night two additional witnesses were called before the Grand Jury today and their sworn statements taken. This makes a total of seventy two material witnesses the State has marshalled to buttress its strong case. Among the late witnesses were clerks in various banks where the murderers opened accounts under false names as part of their plan to kidnap other boys for ransom and murder them for the "experience."

When Leopold was brought in for identification by the witnesses he protested violently and he was not represented by counsel and refused to face the witnesses. A prison guard in forcing the murderer to lift his head and face the witnesses was struck in the face by the prisoner.

Struck by Motor.

A motor car driven by Harry Young struck the carriage occupied by Allan Carman and his sister Miss Nettie Carman of Barkers Point while it was crossing the Fredericton-Devon bridge late Saturday night. The carriage was demolished and both occupants thrown out. Mr. Carman was seriously cut about the face and head and his sister today is reported suffering from shock.

PRESIDENT DALEY OF DEFUNCT HOME BANK DIED THIS MORNING

(Special to The Daily Mail.)

Toronto, June 9—R. H. Daley President of the defunct Home Bank of Canada died this morning. He had been in failing health for some time and no doubt the collapse of the financial institution of which he was the head was largely responsible for his collapse.

DOMINION NOW NEGOTIATES OWN TREATIES WITH U.S.

The Prime Minister Makes Interesting Statement in House of Commons.

Ottawa, June 9—Before the House adjourned, the Prime Minister made an interesting statement on the mission of Hon. Ernest Lapointe to Washington in connection with the signing of treaty relating to rum-running and the smuggling of narcotic drugs. It is noted that this accentuates the step taken in connection with the halibut treaty. Canada is now negotiating her own treaties direct with the United States and they are going direct to The King for his signature and approval after they have been signed by Canada and the United States.

It is looked on as evidence of the new status which Canada has attained since the British conference first in the halibut treaty and now in this matter. The King on the advice of his Canadian Ministers in the matter in which Canada is primarily concerned has given full powers to our minister to do all that he himself could do in concluding treaties, etc. "The British Government" it is stated in official circles, "has been splendid in the manner in which it has co-operated promptly and without reserve."

FINANCIAL DIFFICULTIES

Milling Property of ex-Ald. H. M. Young of This City Seized—To Be Sold.

The milling property of ex-Ald. H. M. Young of this city at Bantalor together with logs in the stream at that place have been seized to meet debts owed to various persons. The Workmen's Compensation Act has a claim for assessment and employees also have claims against the property for wages under the Workmen's Lien Act. The Flemming-Gibson Company which has had extensive dealings with Mr. Young also has a heavy claim against the property. It is understood that it amounts to some \$20,000. Wage claims are said to total \$4,000 with some \$8,000 owed in Workmen's Compensation assessment in other amounts.

Sheriff J. B. Hawthorne made the seizure under executions and in the ordinary course of events the property will be sold to satisfy the claims.

Rumors of financial difficulties involving ex-Ald. Young and his lumber property, have been current for some time. The total value is considerable and there is some speculation as to the possibility of the value being sufficient to meet the total claims. It is understood the financial troubles have extended over some years.

Especially when it is of the wrong kind, a little learning is a dangerous thing.

VISCOUNT KATO TO FORM NEW JAPANESE CABINET.

(British United Press.)

London, June 9—Viscount Kato has accepted the task of forming a Japanese cabinet to succeed that of Premier Kiyoura which resigned Saturday, according to the Central News.

TEACHER PLANS TO SUE CHICAGO POLICE OFFICERS

Charges He Was Tortured in Franks Case Grilling.

CRUELTY ALLEGED

Wilson Says Detectives Beat Him Up Badly.

Chicago, June 9—Walter L. Wilson instructor in mathematics in the Harvard school, will file suit against the police department for heavy damages. He was submitted to the "goldfish degree" to induce him to confess he committed the Franks murder.

Lt. Michael Grady and his squad of four detectives are named as the torturers. Grady and his men are now under suspension on the charge of guarding the bootleggers in the theft of 8000 cases of whiskey from the Sibley warehouse. This is known as the \$10,000,000 forged permit steal. Charles Wharton, attorney for Wilson, said:

"We are going after Lt. Michael Grady and his squad just as a matter of course. The detective bureau is notorious for its methods of assault and battery, and Mr. Wilson's suit probably will not change things much. But if he needs my advice he is going to file charges anyway."

"He was beaten with a rubber hose until it was a torture for him to breathe. Of course, during this time he was bound. Caution is the first essential of successful detective work."

"Twice he was assaulted by a lieutenant in person. But that also was done in a perfectly regular detective bureau manner. Two policemen held the prisoner while another knocked him down with his fist. The point was, you see, to argue Mr. Wilson into confession that he had kidnapped and killed Robert Franks. He persisted in saying that he hadn't done any such thing and it seems he was right about it."

ST. STEPHEN TO DECIDE RE N. B. LEAGUE

Delegate Here Today—Will Report at Meeting Tonight—Moncton here Wednesday and Thursday.

The blowing up of the Shamrock Baseball Club of St. John leaves a vacancy in the New Brunswick League which it is desired to fill with the St. Stephen club. A delegate from St. Stephen was here today in consultation with W. E. Vaughan of the Fredericton club. A proposition was put up to the Border Town which will be reported to a meeting at St. Stephen tonight. It will be decided then what action St. Stephen will take.

President W. S. Hooper of the League stated this afternoon that Tuesday's game here was cancelled but that the League was to continue to function. Moncton will be here for games on Wednesday and Thursday.

Intelligentsia—a longer word for plain bugs.

GOV'T MAY BE OVERTURNED THIS WEEK

New Cabinet is Headed by Francois Marsal.

LEFT DISPLEASED

President Millerand May Resign This Week.

By WEBB MILLER

(British United Press Correspondent) Paris, June 9—The new cabinet headed by Francois Marsal is not expected to outlive its presentation to the Chamber in a presidential message. It is expected that the ministry will be overturned immediately on a motion from The Left attacking Millerand for his intervention in the recent elections. The President of the Republic is expected to resign then and Francois Marsal will continue as Premier until the result of the presidential election is known, probably by Friday.

Marsal will then perform the usual functions of Premier at such a time accompanying the new president from Versailles to Paris.

The new Premier completed his cabinet last night and will read a message from M. Millerand to the Senate and Chamber tomorrow.

The Francois Marsal cabinet has already been referred to by its friends as an "effervescent cabinet," while the opposition has dubbed it "the still-born Government," so certain is everybody who concerns himself with the politics that the message from the President, the delivery of which to the Parliament is the sole purpose of its formation, will find the Government in a minority upon the first vote.

M. Millerand's message will call attention again to the provision in the constitution fixing the duration of the presidential mandate as for seven years. Contrary to the spirit and letter of the constitution, according to the President, the leaders of the political majority in refusing to form a Cabinet selected from this majority, have made it impossible for the President to carry out his executive mandate.

STABBED HER BABY 11 TIMES

(British United Press.)

Genoa, Italy, June 9—Suffering from a sudden attack of insanity in mid-ocean, Mrs. Maria Brunetta, a cabin passenger on the liner Columbus, stabbed her baby daughter eleven times. The child miraculously escaped death and Mrs. Brunetta was placed in an asylum when the ship arrived here from New York yesterday.

HOAX INVENTOR IS DEPORTED FROM CHINA

Hong Kong, June 9—The case of Him Wong, Reuters Canton correspondent, a graduate of the Missouri University School of Journalism, is exciting considerable attention.

He was arrested recently on charges of spreading false reports of Dr. Sun Yet Sens death and has been ordered deported for ten years. The authorities declare the accused communicated the report to the "enemy" press.

Him Wong has been the secret agent of a political party driven from Canton in 1920, whose interests he has since forwarded as a newspaper correspondent. American missionaries vainly appealed for leniency, saying Him Wong was an ardent patriot.
