### RUMANIA PLACES ORDER FOR DESTROYERS

Bucharest, May 23—The Rumanian Government has given the Pattison Brothers, who have the English ship-building yards at Naples, a contract to build four 1,600-ton destroyers of the most modern type for use in the Black Sea.

### You Can Eat Anything You Like And Not Have HEARTBURN

In all cases of heartburn there is a gnawing and burning pain in the stomach attended by a disturbed appetite, as when too much food is taken into the stomach it is liable to ferment and become extremely sour, vomiting occurs, and what is thrown up is generally sour and bitter. When you are in this condition you will find that Milburn's Laxa-Liver Pills will give you relief right away.

Mr. Joseph H. MacDonald, Christmas Island, N. S., writes: "Two years ago I suffered all the time from heartburn. I took one vial of Milburn's Laxa-Liver Pills and have never been troubled since."

It is very nice to be able to eat anything you like and not have heartburn any more." A vial at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

### HOW TO COOK THE CHEAPER CUTS OF BEEF

(Special to The Daily Mail.)

Ottawa, May 23—The pot roast which is frequently used by the thrifty housewife in the effort to keep down her butcher bill and still provide good meals, may be made from many of the cheaper cuts, such as the chuck, of the beef carcass. After being wiped with a damp cloth it is placed in a covered bake pan or casserole, with two cups or more of hot water. It should be covered tightly and baked in a moderate oven or on top of the stove, keeping the heat just below the boiling point. Pamphlet No. 43 of the Department of Agriculture at Ottawa, obtainable from the Publications Branch, shows how the meat bill may be reduced by utilizing the cheaper cuts of beef. One-half hour's time for each pound of meat in the roast is recommended. About an hour and a quarter before serving, pared potatoes and sliced carrots and onions may be added. When ready to serve, the roast should be removed to a hot platter and the gravy thickened and seasoned. If the meat is very fat, it is advisable to remove the fat from the top of the gravy before thickening. The pamphlet contains many other recipes for utilizing the cheaper cuts of beef.

Many a cold blooded man can give you a lot of hot air.

### "A GENTLE AND PERSISTENT RAIN WEARS THE STONE DOWN BETTER THAN A SUDDEN SHOWER"

Second Prize Essay, Written by Miss Catherine Mitchell, Contains Many Valuable Suggestions.

The picknickers, after a pleasant day in the cool green woods, built as a finishing-touch a campfire. Then before leaving for home they carelessly threw several pails of water on the fire. Several hours later a wind sprang up and fanned into a flame the seemingly extinguished embers. The result was the destruction of life and property. What had once been a beautiful green forest was turned into a desolate stretch of burned stumps and trees.

Hundreds of times that story has been repeated and the whole country has suffered because of the carelessness of a few heedless people. We want to keep our forests—their shade, their beauty, the protection they afford to the little birds and wild animals, and the industries and wealth they give to the nation.

The government has taken the greatest measures to prevent forest fires, yet in some way the patriotic pride of some people has not been aroused. On Empire Day pictures of fires and the destruction that follows them are shown to the school children and the pictures appeal to their imaginations. That is a good step. To arouse the people's pride in their forests and their indignation against the setters of forest fires is, after all the key to prevention.

The proverb "A gentle and persistent rain wears the stone down better than a sudden shower" comes into use very much in this case. Everything that will arouse and hold the interest of all the people and espec-

ially the children should be done. There are many small things which could be done besides the forest laws, watch towers, aeroplane patrols and forest licenses.

Here and there along the important roads, especially those leading into forests and in the forests themselves, could be placed large placards depicting forest fires with fear-chased animals, or the ruins caused by fires. Again, the important authors of Canada should be induced to write more about forests in their books as the latter are widely read.

In the older countries of Europe the forests are preserved to a large extent by clearing them of brushwood. It would indeed be a vast and difficult task to clear our forests from brush; but if they were once cleared it would be comparatively easy to keep them so and it would be a great aid against forest fires.

It would be for the good of the country if a number of people who really love and understand the forests were specially trained by the government to go from place to place and teach the population to also love the forests and to be more careful of them.

It is now up to the people to see that the forest laws and precautions are obeyed. For it is certain that every loyal Canadian wants to keep and be proud of the broad green forests of his native land, because not only do these awful forest fires destroy life and property but they also lessen to a great extent the industries and wealth of the nation.

### FIRE CAUSED GREAT DAMAGE ON SATURDAY

Fletcher Peacock's Residence, George Street, Gutted—\$3,000 Damage.

Fire which broke out early Saturday evening in a pile of spool wood in a woodshed attached to the rear ell of the residence owned and occupied by Fletcher Peacock, director of Vocational Education, at 329 George street, and which gained considerable headway before it was discovered, did damage to the extent of \$3,000.

The fire, which was of unknown origin, spread through the rear ell of the building, where it caused the heaviest damage, and striking the main wing spread upwards through the roof, which was almost completely destroyed. Damage to the main portion of the building was caused chiefly by water and smoke. The insurance carried on the building was \$2,500.

The blaze was discovered shortly after 8 p. m., when Mr. Peacock was summoned to the front door by a passerby and informed that the whole rear of his residence was in flames. Mr. Peacock had been resting at the time and was alarmed only in time to remove his young children from their sleeping quarters in the ell into which the blaze was then eating its way.

Owing to the fact that George street between York and Westmorland was undergoing repairs some difficulty was experienced in stringing lines to the burning house, and a second trip for the motor truck to the station was required to secure additional hose. The blaze, which had gained considerable headway, was chiefly confined to the rear of the residence, but caused some difficulty in controlling it.

Mr. and Mrs. Peacock and family, who were forced to vacate their home are residing with Mr. and Mrs. J. Walter MacKay, George street.

Some individuals who are after the earth must feel chagrined when they are told it is only a little fellow among the planets.

It was a real estate deal in which Ananias got caught but there is a big field for speculation on what he might have done in this diversified age.

Apparently Doug and Mary went abroad mainly for the purpose of being photographed.

### NEW PASTOR AT THE ADVENT CHURCH IN DEVON

Albert Wentworth Has Taken up His Duties There—Preached on Sunday.

Albert Wentworth, who graduated this year from the New England School of Theology, at Boston has accepted the call of the pastorate of the North Devon Advent Christian Church and has taken up his duties.

Mr. Wentworth was born at Farmington, N. H., about 23 years ago and took up his theological studies in Boston. He graduated this year, but has not yet been ordained. He had large congregations at all his services Sunday and he will probably be ordained at the Advent Christian conference which is to be held at North Devon during the latter part of the week. He succeeds Rev. Mr. Kelly, who resigned to take up duties at the camp meetings during the coming summer.

New York, May 21—More gloom was forecast for Broadway's bright lights today when applications for temporary injunctions—preliminary steps to the crepe shrouded padlock—will be heard in Federal Court.

The temporary writs will be asked for Piccadilly-Rendezvous where once Gilda Grey danced for the delight of supper patrons; the Silver Slipper owned by Van and Schenck of vaudeville fame, and Hollywood.

The injunctions will prevent sale of intoxicants pending final hearing on padlocking.

Men's straw hats look hardly ripe enough.

### INDIGESTION GAS ON STOMACH PAINS AFTER MEALS

Many people suffer terribly from gas and pains in the stomach after every meal, and are kept in constant misery.

For the past 44 years Burdock Blood Bitters has been bringing hope and joy to thousands suffering from various forms of stomach trouble, helping them to eat three square meals a day; helping them to eat anything they wish, without having to suffer for it after.

Mr. Fred Nielson, Moose Jaw, Sask., writes: "All last summer I was troubled with stomach trouble and indigestion, and also gas on the stomach."

I could not eat anything except some light food and even then I would be bothered with pains after each meal. I could not work a whole day without being done out. I had tried everything doctors, medicines and pills, until I read about Burdock Blood Bitters. I have taken four bottles and it has nearly, if not completely, restored me to health again."

TEL. 217 FREDERICTON, N.B.

## CASTORIA

For Infants and Children  
In Use For Over 30 Years  
Always bears the Signature of *Chas. H. Vetter*

THE growth of the Bank of Montreal has closely coincided with the gradual development of Canada from a small colony to a great Dominion.

In the Bank's westward advance to the Pacific Coast, one of the important links in its transcontinental chain of Branches was formed in 1878 at Winnipeg, when the Bank opened its first Branch west of the Great Lakes.

This forward step, taken seven years before railway communication was opened up between Montreal and Winnipeg, made available to the incoming population on the prairies the stabilizing co-operation of a strong, conservative and at the same time energetic financial institution.

Of the Bank's 567 Branches, 12 are situated in Winnipeg and 180 in the Prairie Provinces, including Winnipeg.

## BANK OF MONTREAL

Established over 100 years  
Total Assets in excess of \$650,000,000  
BRANCHES IN FREDERICTON AND DISTRICT.
