Of Interest to the Women

CLEVER COLOR SCHEMES ADD
GREATLY TO BEAUTY OF
RAG RUGS.

Every woman who undertakes the making of a rag rug for her home desires to have it an article of beauty and a joy so long as it may last. But it is one thing to master the actual mechanical part of the work the braiding, crocheting or the business of drawing the rags through burlap with a hook and it is quite another angle of the process to design the proper color combinations which bring out the stripes and blendings most effectively.

Good Color Combinations.

In the following color combinations regard has been given to the correct association of shades and the woman who intends making rag rugs can choose the combinations best adapted to the room for which they are desired.

In the first combination the center is of moss green. This center can be made as large or as small as desired for the rug to fit the space in which it will be used. Around the moss green center put an edge of rose, and next to this a row of black, finishing the rug with an outside border of the green.

The designer can make the stripes wide or narrow. Of course the size of the rug will regulate the size of the center and width of the bordering stripes but with the colors given in the order for most artistic effects the maker of the rug can quickly tell us she works what width stripes will be in proportion to the size of the rug. There are some things that can not be mapped out in designing these rugs and width of the stripes is one of them because sizes of the rugs will vary and in like proportion and stripes also.

For the second color scheme make the center or rose and edge it with black. Next to this add a row of gray banded by a row of black and finish the rug with an outside border of rose.

Lavender and Rose.

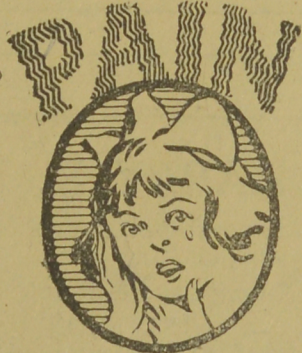

The third rug can have a center of blue edged with a band of scarlet. Next to this a row of gray edged with scarlet a row of black edged with scarlet and an outside border of blue.

As a fourth design the center can be like number two, of rose edged with black then a stripe of lavender edged with rose banded by a stripe of lavender edged with rose, banded by a stripe of gray edged with black and an outside border of rose.

Fifth on the list is a rug of lavender center edged with green, banded by a row of rose then a row of gray edged with black, a row of green and an outside border of lavender edged with black.

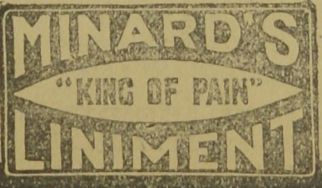

Rug number six may have a center of gray edged with orange banded by a stripe of gray edged with green. Then a row of blue edged with black and finished with an outside border of gray.

FIRM BELIEVER IN THE FRUIT TREATMENT

MRS. LAURA ALFORD

Thousands of people owe the splendid Fruit Medicine—"Fruit-a-tives"—a lasting debt of gratitude, which they gladly pay by testifying to its merits.

Mrs. Laura Alford of 28 Florence St., Ottawa, says: For years, I was a martyr to Constipation and Dyspepsia. I have tried cathartics, salts and so-called vegetable laxatives but all were unpleasant and gave no permanent relief. Finally, I decided to try "Fruit-a-tives". I have been using "Fruit-a-tives" now for seven years; never have Constipation or Stomach Trouble; and have been in the best of health ever since. My husband and children use "Fruit-a-tives" regularly.

"Fruit-a-tives" contain intensified fruit juices combined with tonics. 25c. and 50c. a box—at dealers or Fruit-a-tives Limited, Ottawa.

LUXURIES OF YESTERDAY NOW NECESSITIES

Trends in Automobile
Business Prove This
—First-class Cars in
Demand.

(Special to The Daily Mail.)

Oshawa, Ont., May 23—Trends in the automobile business furnish ample proof that the luxuries of yesterday are the necessities of today. More and more the public is demanding cars containing every accessory that has proven its worth. In response to this demand the Olds Motor Works, is offering the DeLuxe Sedan—the sport model of the closed car field.

Reports from dealers have shown a growing desire on the part of the purchasing public for a closed car as completely equipped as the open car models. As this demand grew, the Olds Motor Works decided to save Oldsmobile purchasers a part of the retail price of accessories and all of the cost of installation by placing all the wanted accessories on the car as standard equipment.

The DeLuxe Sedan is painted in a beautiful shade of maroon and is equipped with Tuxedo steel wheels painted to match the body, micked radiator shell, bar, radiator cap, motorometer, hood painted in maroon to match the body, four running board scuff plates, windshield cleaner, rear vision mirror, front bumper, rear sport bumpers, sport tire carrier, four trunk rails on the back of the car, trunk platform and trunk.

The addition of the trunk and carrier and the adoption of the disc wheels give the car the appearance of added grace and length. This new Oldsmobile has been well received during the short time it has been on the market, reports from dealers show.
