## Noted Buildings in the Heart of London Menaced

**A Warning Sounded Today by the Newspapers—Royal Exchange and the Mansion House are Among the Number—Were Built Over Subterranean Streams — Precautions are Being Taken.**

(Special to the Daily Mail by Herbert Bailey, Stag Correspondent of B. U. P.)  
London, Aug. 8—The danger of the Royal exchange and some of the principal buildings in the heart of London collapsing was presented to startled Londoners today by the newspapers.

Three subterranean streams, the Walbrook, Langbourne and the Sharbourne, run somewhere near the Royal exchange, the Mansion House, Cornhill and Lombard street. The exact location however, had not been known, but it was believed quite safe to build over them. Nevertheless the recent collapse of the Commercial Union Assurance building was not attributed entirely to neighboring excavations and now fears are entertained that other large buildings are menaced by this subterranean power. Owing to recent heavy rains, it is believed likely that the clay above the streams has been rendered unstable.

The greater precautions were being taken today to prevent any loss of life through further collapses.

## THE HAY CROP A HEAVY ONE IN N.B. THIS YEAR

**A Large Proportion of It Consists of Clover — Fears Entertained for the Potato Crop.**

The haying operations have progressed rapidly during the past week says a report issued by the Provincial Department of Agriculture. Not for years has so great a portion of the crop consisted of clover. The yield will be above the average.

Some fears are entertained for the potato crop, should the weather continue wet.

A slightly less acreage was sown to grain this season than last year, although on the other hand increases occurred in the area planted to potatoes and in the acreage of hay.

The acreages of the principal crops for this season and those of 1926 are as follows:

|                 | 1926    | 1927    |
|-----------------|---------|---------|
| Wheat .....     | 10,916  | 10,800  |
| Oats .....      | 204,656 | 203,000 |
| Barley .....    | 6,558   | 6,000   |
| Buckwheat ..... | 45,503  | 44,000  |
| Potatoes .....  | 42,744  | 45,000  |
| Turnips .....   | 12,235  | 12,000  |
| Hay .....       | 559,019 | 570,000 |
| Corn .....      | 3,915   | 4,000   |

The rainy weather has had the effect of keeping the pastures fresh and luxuriant and the milk flow has been maintained better than usual.

The manufacture of cheese has been greater than for the corresponding weeks of last year. Prices have been good. At the Cheese Board sales on July 27th, 1,040 boxes of cheese, approximately 75,000 pounds were sold at an average of 18.50 cents per pound.

## SCOUT CAMP AT CROCK'S POINT IS AT AN END

**Had Good Weather and Was Highly Successful—Many Tests were Passed by the Boys.**

The annual Boy Scout camp held at Crock's Point broke up on Saturday evening. It has been reported to be a very successful year in regard to the record of tests passed. In all there were 217 tests. The success of the camp speaks well of its leaders. As if pleased with the success fortune smiled kindly on the camp and it escaped all the recent storms that seemed to have Frederickton their objective.

Mr. Riddell, the leader, or "chief" as he is called, left immediately to take charge of a scout camp near New Glasgow, N. S. It is hoped that the success and good weather which attended the camp here will follow him there.

The cub camp was held this last week at the same place under the excellent leadership of Alex. MacRae.

The number of tests passed were as follows: 15 tenderfoot tests, 77 second class tests, 100 first class tests. There were ten pioneer badges, thirteen athlete badges and two swimmers badges won. In all there were 217 tests passed this year by 67 scouts and cubs. This beats all previous records. Also, not one boy left camp who was unable to swim, although there were some who could not when they went there.

## NEW BRUNSWICK TO GET ONLY ONE THIRD OF THE EXTRA SUBSIDY DURING THE YEAR 1927

**Federal Government Sharply Criticized at Meeting of Conservative Executive of York-Sunbury — Delegates Chosen for the Winnipeg Convention.**

Some rather pointed criticism of the Federal government for its failure to fully implement the Duncan report was indulged in by Mr. R. B. Hanson, M. P., and Hon. C. D. Richards at a meeting Saturday afternoon of the Conservative executive for York-Sunbury called to select delegates to the National Convention of the party to be held at Winnipeg in October. After disposing of the business for which the meeting was called the members of the executive, numbering sixty and representing practically every parish in the united counties, were the guests of Mr. Hanson at luncheon at the Palms.

## COWS WALK ON CARPETS IN HOLLAND

Zaandam, Holland, Aug. 8—Many quaint country traditions are passing in Holland with the widespread adaptation of modern agricultural methods. But scrupulous cleanliness is not one of them. It is still literally true that many cow stables in Holland are carpeted.

The windmills which used to pump the water for much of the scrubbing that goes on are disappearing, however. A national society for the preservation of windmills recently sprang up to counteract the tendency of hard-headed Dutchmen to allow their windmills to fall down for lack of repairs once they discovered that it was cheaper to use motors.

## The Sacco Vanzetti Murder Case Back In Court at Dedham

**Counsel Make a Despairing Move to Save the Lives of the Condemned Men—Asking for a New Trial — The Defence Has Wired a Personal Appeal to President Coolidge.**

(Special to the Daily Mail by the British United Press)  
Boston, Aug. 8—Seven years after it began in Dedham as the obscure murder trial of two obscure Italians the Sacco-Vanzetti case shifted again today to the county court at Dedham. This time the eyes of the entire civilized world were upon it.

Counsel for the two anarchists, condemned to die early Thursday morning, prepared an almost despairing move to stay the execution. The scene for the argument of their motion for a new trial was the court where Nicola Sacco and Bartolomeo Vanzetti were convicted of the murder of a paymaster and his guard, where four appeals for a new trial had been denied and where the death sentence had been imposed last April. It was set before Judge Webster Taylor, who convicted them and denied all their moves for a retrial. The Sacco Vanzetti defense today wired a personal appeal to President Coolidge asking him to intervene.

## HIS MAJESTY THE KING OF SPAIN AN EXPERT COOK

**Brought Messages of Good Will From the Governor Al Smith and Mayor Walker of New York.**

London, Aug. 8—Cooking is the favorite indoor sport of the King of Spain King Alfonso came to London for the championships at Wimbledon and incidentally to take a little flier now and then in the restaurants. The King is said to be a fairly good cook. But his favorite trick is to order lettuce and tomatoes and other salad ingredients and make the salad dressing before the eyes of his guests—or his hosts, sometimes. He has a habit of turning out Welsh rarebits and omelets en casserole at his luncheon table which make his guests inquire as to his methods and ingredients. With a deft-handed touche which he learned in Paris, the King scatters a little finely minced chicken in his omelets. He says there's no secret about his light-fluffy omelets—it's just the knack of doing it, acquired by years of practice.
