GERMAN SETS OUT TO FLY TO UNITED STATES

Cologne, Germany, Sept. 20—"The ever-ready to start" Captain Otto Koennecke, as newspapers have been labelling him, took off in earnest this afternoon for America by way of the Orient.

He hopped off at 2.22 p. m. in his Casher bi-plane, the Germania, with two companions, after being balked for more than five weeks in his long-prepared-for flight across the Atlantic by unfavorable weather. He now proposed to cheat this by attempting to reach the goal from the other direction.

His ambitious plan called for making his first stop at Angora, Turkey. If he succeeded in this, it would be no mean performance in itself as it called for a non-stop flight of roughly 1,500 miles. After Angora, Koennecke will be guided by weather conditions. How he proposed to make his way in his one-motored land plane to the barren Aleutian Islands from which he hoped to reach San Francisco was not yet determined.

The Koennecke hop-off has been so often postponed and the final decision to start was so sudden that the Cologne airdrome was almost deserted except for Lord Mayor Adenauer and some officials.

There's usually some mental skidding when the conversation takes a bad turn.

Here and There

The apple crop this year will run to 1,250,000 barrels, according to W. H. Chasse of Wolfville, or a fifty percent increase over last year, while the crop of the Eastern States is reported only half that of last year.

The Department of Lands and Forests of the Province of Quebec have planted 1,600,000 trees this year—a record figure and nearly double that of last year. Next summer it is proposed to plant 3,000,000 trees.

Canada's net debt decreased by \$52,498,429 during the first four months of the fiscal year. It now stands at \$2,295,335,940. During the corresponding period of last fiscal year there was a decrease of \$41,251,655. Both revenues and expenditures show increases.

Tourist travel this season is in excess of previous years and is even more cosmopolitan in its derivations than formerly, according to C. E. E. Ussher, general passenger traffic manager of the Canadian Pacific Railway, back from a tour of inspection of the company's interests at Banff, Lake Louise and other favored tourist spots.

E. J. Chambers, President and General Manager of the Associated Fruit Growers of British Columbia, states that British Columbia apples are now being sent to South Africa, China, Sweden, Norway, Germany and Denmark, as well as Great Britain, the heaviest market. New York and Chicago are big consumers of two varieties, the McIntosh Red and Delicious, respectively.

A further party of 40 students representing many colleges in the British Isles arrived on the Canadian Pacific steamship Montrose and proceeded to the harvest field of Western Canada in the care of the C.P.R. Department of Colonization and Development. They will be placed upon farms in Saskatchewan for the duration of the harvest by the British Women's Immigration League.

Construction of the first commercial fish hatchery in Alberta will be started in September, announces R. T. Rodd, Dominion Fisheries Inspector. It will be located at the mouth of Canyon Creek, on the south shore of Lesser Slave Lake. It is estimated that 100,000,000 whitefish will be propagated at the hatchery every year to maintain an undiminished supply of fish for the many companies operating in the lake.

So great is the interest which is being evidenced in the Scottish music festival organized as part of the Highland Gathering for Banff, September 3-5 that the Canadian Pacific Railway has arranged with the Alberta Government to install the amplifiers of the public address system that were used at the Diamond Jubilee broadcast, so that the evening concerts will be heard not only in the ballroom of the Banff Springs Hotel, but also in the lounges and in the open air on the terrace.

General industrial transportation and agricultural outlook (from reports reaching him from all parts of Canada) is excellent and will continue to improve as the market for Canadian products widens, said E. W. Beatty, K.C., chairman and president of the Canadian Pacific Railway, recently at Calgary. "An important factor in the latter will be a steadily increasing population," he said. "The transportation companies, of course, only reflect the general conditions of the country, and compared with last year, their gross earnings are higher, but increased costs beyond their control have resulted in lower net earnings."
