CONGRESS OF POULTRYMEN A BIG AFFAIR

Ottawa, July 15—From a numerical and a geographical standpoint, alone the third World's Poultry Congress which opens here on July 27, will be the largest convention ever held in the capital. Close to 10,000 will come from various parts of the Dominion, 4,000 from the United States and the remainder representing about 40 nations of the earth.

Remarkable interest in this congress has developed in other countries. Large parties are coming from all the states of the union, one delegation that came from Oregon having started for Ottawa some days ago by automobile. The State of Massachusetts alone, is sending a delegation of 200 and other eastern states will be similarly represented.

Some of the European countries are sending from 20 to 40 delegates each. Canada was not represented at the first congress at The Hague in 1921 but at the second congress held in 1924 in Barcelona, Spain, Canada was so effectively represented that this country won the admiration of many nations for the quality of her exhibits and moreover was finally chosen as the country for the third congress.

Ottawa, July 15—There is unquestionably a great revival in the interest taken in Canada by British industrialists and many firms are seriously considering the desirability of locating branch factories in Canada. Hon. James Malcolm, Minister of Trade and Commerce, declared today. Mr. Malcolm has just returned to Ottawa from a tour of the British Isles. Exhausted Plane Will Detract Little From the
Value of Their Achievement.**

(Special to the Daily Mail by the British United Press)

HONOLULU, July 16—Ernest Smith and Emery Bronte, rested at the Royal Hawaain hotel this morning, sleeping off the effects of their flight from California to the Island of Molokaia while Honolulu prepared to give them an ovation as great as if they had succeeded in reaching the main island of the Hawaain group. The crash of their fuel-exhausted plane at Kaunakaka Molokai yesterday detracted little from the value of the flight as a feat of aviation air experts said and the narrow escape of the airmen after they had been lost for hours, stirred the feelings of the public.

The reception to the fliers today was expected to equal that staged for Lieut. Maitland and Hegenberg who succeeded in flying safely from Oakland to Honolulu.
